

Advanced Lube Oil Filling Machine With 380V Voltage And $\geq 95\%$ Granulation Rate

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Voltage: 380V
- Weight: 500-1000kg
- Granulation Rate: $\geq 95\%$
- Moisture Content Of Raw Material: $\leq 15\%$
- Particle Size Of Finished Product: 0.5-3mm
- Power: 5-30 KW
- Warranty: 1 Year
- Frequency: 50Hz
- Highlight: 380V Lube Oil Filling Machine,
Advanced Lube Oil Filling Machine,
95% Granulation Lube Oil Filling Machine

Product Description

Advanced Lube Oil Filling Machine with 380V Voltage and $\geq 95\%$ Granulation Rate

Product Description:

This product is designed to work with raw materials that have a moisture content of up to 15%, making it versatile and ideal for use in various industries. The Lube Oil Filling Machine is powered by a 380V voltage and a frequency of 50Hz, ensuring that it meets the power requirements of most industrial environments. The machine is easy to operate, and its user-friendly interface ensures that even novice operators can use it without any difficulty.

The Lube Oil Filling Machine is equipped with a particle forming granulator, making it an ideal choice for those looking for a granulation machinery for powders. The granulator ensures that the lube oil products are accurately formed into the desired shape, making it easy to package and transport. The machine is also designed to work with a powder granulator series, making it perfect for use in industries where powdered products are common.

The Lube Oil Filling Machine is built to meet the highest standards of safety and efficiency. The machine is equipped with various safety features that ensure that it operates smoothly without any accidents. The product is also designed to require minimal maintenance, reducing downtime and ensuring that you can keep your production line running smoothly.

In conclusion, the Lube Oil Filling Machine is an excellent product that offers accurate and efficient filling of lube oil products. Its compact design and user-friendly interface make it an ideal choice for industrial environments of all sizes. The machine's particle forming granulator and powder granulator series make it an ideal choice for those looking for a high-quality granulation machinery for powders. The machine is built to meet the highest standards of safety and efficiency, ensuring that you get the best value for your money.

Technical Parameters:

Model	PGS
Dimension	1200*800*1500mm
Application	Pharmaceutical, Chemical, Food, And Other Industries
Granulation Rate	$\geq 95\%$
Capacity	1-10 Tons/hour
Moisture Content Of Raw Material	$\leq 15\%$
Voltage	380V
Weight	500-1000kg
Particle Size Of Finished Product	0.5-3mm
Features	High Efficiency, Easy Operation, Low Noise

Applications:

One of the key features of this product is its high efficiency. The machine is equipped with advanced technology that ensures accurate and consistent filling of lube oil. This means less wastage and higher productivity for businesses.

Another attribute of the 25L lube oil filling production line is its easy operation. The machine is user-friendly and can be operated by both experienced and novice operators. This makes it an ideal choice for businesses looking to automate their lube oil filling process without investing in complex machinery.

The machine is also designed to produce low noise levels, making it suitable for use in manufacturing facilities and other noise-sensitive environments.

The 25L lube oil filling production line is made of high-quality stainless steel, ensuring durability and longevity. This material is resistant to rust and corrosion, making it ideal for use in harsh environments.

The product comes with a 1-year warranty, ensuring peace of mind for businesses that invest in this product.

The 25L lube oil filling production line is versatile and can be used in various occasions and scenarios. It is ideal for businesses that require large quantities of lube oil, such as oil refineries, automotive manufacturers, and agricultural machinery factories.

In addition to its primary use as a lube oil filling machine, this product can also be used as a granulation machinery for powders, a powder granulator series, and a powder encapsulation machine. This makes it a versatile investment for businesses looking to expand

their manufacturing capabilities.

Overall, the 25L lube oil filling production line is a reliable and efficient machine that can help businesses save time, reduce wastage, and increase productivity.

Customization:

Customize your 25L lube oil filling production line with our Product Customization Services:

Brand Name: 25L lube oil filling production line

Warranty: 1 Year

Model: PGS

Material: Stainless Steel

Voltage: 380V

Dimension: 1200*800*1500mm

Powder granulator series customization available

Powder compaction granulator customization available

Powder spheroidization granulator customization available

Support and Services:

The Lube Oil Filling Machine is a precision machine designed for accurate and efficient filling of lubricating oil into containers. Our technical support team is available to provide assistance with initial setup, operation, and maintenance of the machine. We also offer training services to ensure proper use and maximize productivity.

Our services include:

Installation and setup support

Operator training

Technical troubleshooting and support

Regular maintenance and servicing

Replacement parts and components

Upgrades and customization

We are committed to providing exceptional customer service and ensuring your satisfaction with our product. Contact us for any technical support or service needs.

Packing and Shipping:

Product Packaging:

The Lube Oil Filling Machine will be securely packaged in a sturdy cardboard box.

The machine will be wrapped in a protective layer of bubble wrap to prevent any damage during transportation.

All necessary components and accessories will be included in the package.

Shipping:

The Lube Oil Filling Machine will be shipped via a reputable courier service.

Shipping times will vary depending on the destination, but we strive to get the product to you as quickly as possible.

A tracking number will be provided so you can monitor the progress of your shipment.

FAQ:

Q: What is the brand name of this oil filling machine?

A: The brand name of this oil filling machine is 25L lube oil filling production line.

Q: What is the maximum capacity of this machine?

A: The maximum capacity of this machine is 25 liters.

Q: What type of oil can be filled using this machine?

A: This machine can fill various types of oils such as lubricant oil, engine oil, hydraulic oil, etc.

Q: What is the accuracy of this machine while filling the oil?

A: The accuracy of this machine while filling the oil is $\pm 0.5\%$.

Q: Is this machine automated?

A: Yes, this machine is fully automated and can be controlled through a touch screen panel.
