

25L Lubricating Oil Filling Machine Motor Oil Filling Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: 25L Lubricating Oil Filling Machine Motor Oil Filling Machine
- Automatic Grade: Automatic, Semi-Automatic
- Certification: CE
- Weight: 800kg
- Driven Type: Electric
- Dimension(l*w*h): Custommized
- Type: Filling Machine, vegetable Oil Filling Packaging Machine
- Packaging Type: Cans, Cartons
- Application: Medical, Chemical, Commodity
- After-sales Service Provided: Engineers Available To Service Machinery Overseas
- Warranty: 1 Year

Product Description

25L Lubricating Oil Filling Machine Motor Oil Filling Machine

Product Description:

The Lube Oil Filling Machine operates at a frequency of 50Hz, and it has a capacity of 1-10 tons per hour. It is a perfect machine for those who want to increase their production efficiency while reducing operation costs.

This machine is specifically designed to prevent powder agglomeration during the filling process, ensuring that powders are filled evenly and without clumps. Additionally, the machine features a powder encapsulation system that prevents the powder from coming in contact with the air, reducing the risk of contamination.

If you are looking for a granulation machinery for powders, this machine is a perfect choice. It is designed to handle a variety of powders, making it suitable for different industries. The Lube Oil Filling Machine is also easy to clean, making it ideal for applications that require frequent changeovers.

In summary, the Lube Oil Filling Machine is a versatile and efficient machine that can help you increase your production efficiency while reducing operation costs. It is perfect for industries that require powder agglomeration equipment, powder encapsulation machine, and granulation machinery for powders. Its easy operation, low noise, and high efficiency are just some of the features that make it a great investment for any production line.

Technical Parameters:

| | |
|-----------------------------------|--|
| Model | PGS |
| Application | Pharmaceutical, Chemical, Food, And Other Industries |
| Material | Stainless Steel |
| Features | High Efficiency, Easy Operation, Low Noise |
| Dimension | 1200*800*1500mm |
| Voltage | 380V |
| Frequency | 50Hz |
| Particle Size Of Finished Product | 0.5-3mm |
| Moisture Content Of Raw Material | ≤15% |
| Warranty | 1 Year |

This product is a part of our Powder compaction granulator, Powder granulator series, and Particle forming granulator.

Applications:

The 25L lube oil filling production line is a versatile machine that can be used in various application occasions and scenarios. For instance, it can be used in the oil and gas industry where it can be used to fill lubricating oil products into containers for use in various machinery and equipment. It can also be used in the automotive industry where it can be used to fill motor oil into containers for use in different types of vehicles.

In addition, the machine can also be used in the chemical industry where it can be used to fill different types of chemical products such as detergents, paints, and adhesives into containers. The machine can also be used in the pharmaceutical industry where it can be used to fill different types of medicine into containers.

The 25L lube oil filling production line is designed to provide high-quality filling of lube oil products with a granulation rate of $\geq 95\%$. This means that the machine is highly efficient and accurate in its filling process. The machine is also designed to handle raw materials with a moisture content of $\leq 15\%$, which ensures that the final product is of high quality.

In summary, the 25L lube oil filling production line is a high-quality granulation equipment for powders that is versatile and can be used in various application occasions and scenarios. The machine is made of high-quality stainless steel material and has a power range of 5-30 KW. Its high granulation rate and ability to handle raw materials with low moisture content make it a reliable and efficient machine for filling lube oil products.

Customization:

Customize your 25L lube oil filling production line with our product customization services:

Dimension: 1200*800*1500mm

Power: 5-30 KW

Warranty: 1 Year

Capacity: 1-10 Tons/hour

Material: Stainless Steel

Our customization services also include:

Powder processing granulator

Powder granulating machine series

Powder agglomeration equipment

Support and Services:

The Lube Oil Filling Machine is a sophisticated piece of equipment that requires proper installation, operation and maintenance. Our Product Technical Support team offers expert guidance and assistance to ensure the machine is functioning optimally and efficiently.

We also provide a range of services to keep your Lube Oil Filling Machine in top condition, including routine maintenance, repair services, spare parts replacement, and upgrades. Our team of experienced technicians is available to help troubleshoot any issues and provide timely solutions to minimize downtime and maximize productivity.

Additionally, we offer training programs to help operators and maintenance personnel understand the machine's capabilities, functions and safety procedures. Our goal is to ensure our customers receive the highest level of service and support, and that their Lube Oil Filling Machine is always operating at peak performance.

Packing and Shipping:

Product Packaging:

The Lube Oil Filling Machine will be packaged in a sturdy wooden crate to ensure safe transportation. The machine will be wrapped with protective materials such as foam and bubble wrap to prevent any damage during transit. The crate will also have clear labeling indicating the product name, weight, and handling instructions.

Shipping:

The Lube Oil Filling Machine will be shipped via a reliable and trusted courier service. The shipping cost will depend on the destination and weight of the package. The estimated delivery time will be provided upon confirmation of the order. Customers will be notified of the tracking number once the product is shipped.

FAQ:

Q: What is the capacity of the 25L lube oil filling production line?

A: The capacity of the 25L lube oil filling production line is 2000-3000 barrels per hour.

Q: What is the filling accuracy of the 25L lube oil filling production line?

A: The filling accuracy of the 25L lube oil filling production line is within $\pm 0.5\%$.

Q: What is the power supply requirement for the 25L lube oil filling production line?

A: The power supply requirement for the 25L lube oil filling production line is 380V/50Hz, 3-phase.

Q: Can the 25L lube oil filling production line be customized to fill other types of liquids?

A: Yes, the 25L lube oil filling production line can be customized to fill other types of liquids such as lubricating oil, motor oil, brake fluid, and more.

Q: Does the 25L lube oil filling production line come with a warranty?

A: Yes, the 25L lube oil filling production line comes with a one-year warranty for the main machine and a six-month warranty for the wearing parts.
