

PGS Lube Oil Filling Machine Ultimate Solution For Your Production Needs

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-M
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

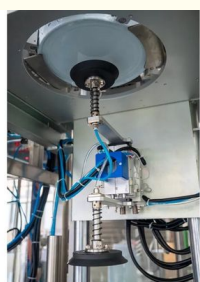

Product Specification

- Product Name: Oil Filling MachinePGS Lube Oil Filling Machine The Ultimate Solution For Your Production Needs
- Certification: CE
- Weight: 2000KG
- Application: Medical,Chemical,Commodity
- After-sales Service Provided: Engineers Available To Service Machinery Overseas,Online Support,Video Technical Support
- Condition: New
- Power: 2.2KW,220V/50Hz
- Capacity: 1000-2000BPH,30-40pcs/min,customerize
- Function: Commodity,Liquid Filling Sealing,Chemical
- Filling Speed: 5-25times/min

Product Description

Oil Filling Machine PGS Lube Oil Filling Machine The Ultimate Solution For Your Production Needs

Technical Parameters:

Dimension	1200*800*1500mm
Granulation Rate	≥95%
Frequency	50Hz
Model	PGS
Voltage	380V
Power	5-30 KW
Features	High Efficiency, Easy Operation, Low Noise
Moisture Content Of Raw Material	≤15%
Material	Stainless Steel
Particle Size Of Finished Product	0.5-3mm

Applications:

The 200L lube oil filling production line is designed to be used in many different scenarios. For example, it can be used in the production of various types of lubricants, oils, and greases. This machine is designed to fill containers with a precise amount of product, ensuring that each container is filled accurately. It is also suitable for use in the pharmaceutical industry, where it can be used to fill capsules and tablets with granulated powders. The machine can also be used in the food industry, where it can be used to fill containers with powders, granules, and other dry products.

When it comes to granulation machinery for powders, the 200L lube oil filling production line is an excellent choice. It is a versatile machine that can be used in many different applications. Whether you are working in the pharmaceutical industry, the food industry, or any other industry that requires granulation equipment for powders, this machine is an excellent choice. Its powder granulating machine series is designed to handle a wide range of materials and can be customized to meet the needs of your specific application.

Customization:

Complete the design and production of equipment according to the actual requirements of the customer

Support and Services:

The Lube Oil Filling Machine is a state-of-the-art piece of equipment designed to accurately fill containers with lube oil. It features a user-

friendly interface with touch screen controls, allowing for easy operation and precise measurements. The machine is constructed with high-quality materials and components to ensure durability and longevity, while also being easy to maintain and service. Our technical support team is available to assist with any troubleshooting or maintenance needs you may have. We offer a comprehensive range of services, including installation and setup, training for operators, and regular maintenance to keep your machine running at optimal performance. Additionally, we provide spare parts and upgrades to keep your equipment up-to-date and functioning at its best.

With our commitment to customer satisfaction and quality service, you can trust that our technical support and services will exceed your expectations.

Packing and Shipping:

Product Packaging:

The Lube Oil Filling Machine is packed in a sturdy wooden crate to ensure safe transportation. The machine is wrapped in bubble wrap and secured with straps to prevent any damage during transit.

Shipping:

We offer worldwide shipping for the Lube Oil Filling Machine. The machine will be shipped via sea or air freight depending on the customer's preference and location. The shipping cost will be calculated based on the destination and shipping method chosen by the customer.

FAQ:

Q: What is the brand name of this lube oil filling machine?

A: The brand name of this machine is 200L lube oil filling production line.

Q: What is the maximum capacity of the machine?

A: The maximum capacity of the machine is 200 liters.

Q: Is this machine suitable for filling other types of liquids?

A: No, this machine is specifically designed for filling lube oil only.

Q: What is the accuracy of the filling process?

A: The filling accuracy is $\pm 0.5\%$.

Q: What is the power requirement for this machine?

A: The power requirement for this machine is 220V, 50Hz, 1 phase.
