# AFM-1000 Automatic Chemical Liquid Filling Machine With 4 Filling Nozzles And 220V/50Hz Power Supply

### **Basic Information**

Place of Origin: chinaBrand Name: SGCertification: CE

Model Number: SG200F-A

 Minimum Order Quantity:

Price: 15000USDPackaging Details: wooden boxDelivery Time: 3months

• Payment Terms: T/T, L/C, D/A, D/P

• Supply Ability: 1set/week

# **Product Specification**

• Filling Nozzle: 4

Filling Accuracy: ±0.5%
Model: AFM-1000
Air Pressure: 0.6-0.8Mpa
Power Supply: 220V/50Hz
Application: Chemicals
Power Consumption: 1.5KW

Highlight: Chemical automatic liquid filling machine,

# **Product Description**

AFM-1000 Automatic Chemical Liquid Filling Machine With 4 Filling Nozzles And 220V/50Hz Power Supply

#### **Product Description:**

One of the most notable features of this machine is its automatic filling system. With this system in place, the machine can automatically fill containers without the need for manual intervention. This not only saves time but also ensures consistent accuracy in the filling process.

Another key attribute of this machine is its power consumption. The Automatic Chemicals Filling Machine has a power consumption of 1.5KW, ensuring that it is energy-efficient and cost-effective to operate. The power supply for this machine is 220V/50Hz, which is the standard for most electrical systems.

The machine also has a built-in air pressure system that is designed to provide the necessary pressure required for the filling process. The air pressure range for this machine is 0.6-0.8Mpa, ensuring that it is capable of filling containers quickly and accurately. When it comes to filling accuracy, the Automatic Chemicals Filling Machine is capable of achieving an accuracy of  $\pm 0.5\%$ . This means that the machine can fill containers with a high degree of precision, ensuring that you get consistent results every time. Overall, the Automatic Chemicals Filling Machine is a versatile and reliable machine that is ideal for use in a wide range of industries. Whether you are filling chemicals for industrial or commercial use, this machine is capable of meeting your needs. With its automatic filling system, energy-efficient design, and precise filling accuracy, the Automatic Chemicals Filling Machine is a must-have for any business that requires reliable and efficient filling equipment.

#### Features:

Product Name: Automatic Chemicals Filling Machine

Air Pressure: 0.6-0.8Mpa Power Supply: 220V/50Hz Bottle Type: Round/Square/Oval

Application: Chemicals Control System: PLC

#### **Technical Parameters:**

Air Consumption:	0.6m³/min
Filling Volume:	25L-200L
Control System:	PLC
Application:	Chemicals
Model:	AFM-1000
Touch Screen:	7 Inch
Filling Accuracy:	±0.5%
Filling Nozzle:	4
Power Consumption:	1.5KW
Air Pressure:	0.6-0.8Mpa

#### **Applications:**

The Automatic Chemicals Filling Machine comes with a state-of-the-art control system that uses a PLC to ensure that the filling process is accurate and consistent. The PLC also allows the operator to set different filling volumes and speeds, making it easy to adjust the machine to meet specific production needs.

The machine is made of high-quality stainless steel, which makes it durable and easy to clean. This material is also resistant to corrosion, which is important for chemical products that require a high level of hygiene and safety.

The Automatic Chemicals Filling Machine is designed to work with a wide range of chemical products, such as detergents, disinfectants, and cleaning agents. It is ideal for filling bottles, jars, and other containers, making it a versatile machine that can be used in different industries, including the pharmaceutical, food, and cosmetic industries.

The machine can also be used in different scenarios, such as in an assembly line or a standalone production environment. Its automatic filling process reduces the need for manual labor, which can save time and reduce the risk of errors. The machine is also designed to operate in a low-noise environment, which makes it suitable for use in different settings.

Finally, the Automatic Chemicals Filling Machine requires an air pressure of 0.6-0.8Mpa, which is easy to achieve in most production environments. The machine is also easy to install and maintain, which makes it a cost-effective solution for businesses that require automated filling processes for their chemical products.

#### **Customization:**

Brand Name: Automatic Chemicals Filling Machine

Model: AFM-1000

Power Consumption: 1.5KW Power Supply: 220V/50Hz Air Pressure: 0.6-0.8Mpa

Filling Nozzle: 4

#### **Support and Services:**

The Automatic Chemicals Filling Machine is a high-quality and reliable product that is designed to help businesses efficiently fill their chemical products. We provide comprehensive technical support and services to ensure that our customers have a seamless experience with our product. Our team of experts is available to answer any questions about the installation, operation, and maintenance of the machine.

Our technical support includes:

Remote troubleshooting and problem-solving

Technical documentation and manuals

On-site support and training

In addition to technical support, we also offer a range of services to help our customers optimize their use of the Automatic Chemicals

Filling Machine:

Customization and integration with existing systems

Regular maintenance and calibration

Upgrades and enhancements

Our goal is to provide our customers with the highest level of support and service to ensure that they get the most out of our product.

# Packing and Shipping:

Product Packaging:

Dimensions: 120cm x 80cm x 150cm

Weight: 250kg Material: Wooden crate

Shipping:

Method: Sea freight Delivery time: 30-45 days

Shipping cost: To be determined based on destination
