

## Fully Automatic Chemical Liquid / Sauce / Oil Filling Machine With 7" Touch Screen

Our Product Introduction

for more products please visit us on sg-packs.com

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

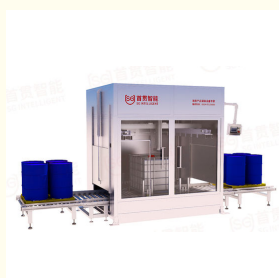

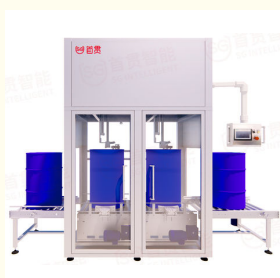

### Product Specification

- Touch Screen: 7 Inch
- Filling Volume: 25L-200L
- Material: Stainless Steel
- Power Consumption: 1.5KW
- Air Pressure: 0.6-0.8Mpa
- Air Consumption: 0.6m³/min
- Filling Accuracy: ±0.5%
- Bottle Type: Round/Square/Oval
- Highlight: Chemical Liquid Filling Machine, 7 Touch Screen Filling Machine, Fully Automatic Filling Machine

## Product Description

### Fully Automatic Chemical Liquid/Sauce/Oil Filling Machine with 7 Touch Screen

#### Product Description:

The Automatic Chemicals Filling Machine has a capacity of 1000 bottles per hour, making it ideal for high volume production. Its touch screen display, measuring 7 inches, provides user-friendly navigation, making it easy for operators to set up and control the machine. With its advanced features, this machine can handle various types of bottles, including round, square, and oval shapes.

This machine is specifically designed for chemical applications, ensuring that it can handle even the most challenging products. The Automatic Chemicals Filling Machine is a reliable and cost-effective solution for your production line.

With its automated operation, this machine can significantly reduce the need for manual labor, saving you time and resources. Its high accuracy and precision also ensure that there is minimal waste, resulting in significant cost savings.

Whether you are a small or large chemical manufacturer, the Automatic Chemicals Filling Machine is an excellent investment that will provide you with consistent and reliable results. Its advanced features and state-of-the-art technology ensure that your production line runs smoothly and efficiently.

#### Features:

Product Name: Automatic Chemicals Filling Machine

Filling Accuracy:  $\pm 0.5\%$

Model: AFM-1000

Application: Chemicals

Material: Stainless Steel

Filling Nozzle: 4

#### Technical Parameters:

Model	AFM-1000
Touch Screen	7 Inch
Air Pressure	0.6-0.8Mpa
Filling Nozzle	4
Material	Stainless Steel
Power Supply	220V/50Hz
Bottle Type	Round/Square/Oval
Control System	PLC
Capacity	1000 Bottles/hour
Application	Chemicals

### Applications:

One of the key features of the Automatic Chemicals Filling Machine is its touch screen interface. The 7-inch screen allows for easy operation and monitoring of the filling process, enabling users to adjust settings and troubleshoot any issues. This feature makes the machine user-friendly and convenient, especially for operators who are not familiar with the technology.

The Automatic Chemicals Filling Machine is suitable for a wide range of application occasions, including chemical plants, petroleum refineries, oil and gas stations, and other industries that require precise and efficient filling. The machine is also perfect for filling various types of chemicals, such as acid, alkali, and other liquid or semi-liquid chemicals. The machine is designed to automatically fill containers, such as bottles, drums, and other containers with high accuracy and speed.

In chemical plants, the Automatic Chemicals Filling Machine can be used for filling chemicals into containers that are then used in the production process. This ensures that the right amount of chemicals is used in the production process, reducing wastage and improving efficiency. In oil and gas stations, the machine can be used for filling fuel into various containers, such as jerry cans, drums, and tanks. This ensures that the right amount of fuel is dispensed, reducing wastage and improving safety.

The Automatic Chemicals Filling Machine is designed to operate under air pressure ranging from 0.6-0.8Mpa, making it suitable for different environments. The machine is also fully automatic, which means that it requires minimal human intervention, reducing the risk of accidents and errors. The machine is also easy to clean and maintain, ensuring that it remains in good condition for an extended period.

In conclusion, the Automatic Chemicals Filling Machine is a versatile and efficient product that is perfect for filling various types of chemicals. With its automatic features, touch screen interface, and high capacity, this machine is suitable for different application scenarios and industries. Whether you are running a chemical plant, oil and gas station, or other related business, this machine is a perfect fit for your needs.

### Customization:

### Support and Services:

Our Automatic Chemicals Filling Machine is designed to provide efficient and accurate filling of various types of chemicals. The machine is equipped with advanced technology and features, including:

- PLC control system for precise filling
- Touch screen interface for easy operation
- Stainless steel construction for durability and easy cleaning
- Automatic stop when the container is full

We offer a range of technical support and services for our Automatic Chemicals Filling Machine, including:

- Installation and setup assistance
- On-site training for operators and maintenance personnel
- Regular maintenance and calibration services

24/7 technical support and troubleshooting

Our team of experienced technicians is committed to ensuring that your filling machine operates at optimal performance and efficiency. Contact us for more information on our technical support and services.

**Packing and Shipping:**

Product Name: Automatic Chemicals Filling Machine

Description: This machine is designed to automatically fill various chemicals in bottles or containers with high accuracy and efficiency.

Package includes:

Automatic Chemicals Filling Machine

Manual and Instructions

Spare parts (nozzle, hose, etc.)

Shipping Information:

Ships from: [company location]

Estimated delivery time: [number of days]

Shipping cost: [amount]

Ships to: [list of countries]
