

Automated IBC Automatic Oil Filling Machine PLC Control Interface For All Sizes Of Ton Buckets

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Capping Speed: 700.~1000pcs
- Power Supply: 220V/50Hz
- Manual: English Version
- Bottle Height: 50-300mm
- Operation: Semi-automatic
- Voltage: AC 380V, 50Hz
- Warranty: 1 Year
- Capping Heads: 4 Heads / 8 Heads / 12 Heads
- Highlight: **Ton Buckets Automated IBC Filling Machine, PLC Automatic Oil Filling Machine, PLC Control Interface IBC Filling Machine**

Product Description

Automated IBC Filling Machine PLC Control Interface for All Sizes of Ton buckets

Product Description:

This filling machine is powered by AC 380V,50Hz, which provides enough power to handle a variety of filling operations. The machine has a good-looking appearance that will complement any production line.

The Automatic IBC Filling Machine offers a head range of 2~24, which makes it suitable for a wide range of filling applications. The machine comes with a cap sealing equipment and a lid tightening machine, which ensures that your IBCs are fully sealed and secure. Additionally, this machine has a rotary capping device that allows for fast and efficient capping operations.

This filling machine is designed to be easy to operate and maintain. It comes with a 1-year warranty that covers any defects or malfunctions that may occur during normal use. This gives you peace of mind knowing that your investment is protected.

In conclusion, if you are in the market for a reliable and efficient IBC filling machine, the Automatic IBC Filling Machine is an excellent choice. With its semi-automatic operation, AC 380V,50Hz power supply, good-looking appearance, head range of 2~24, cap sealing equipment, lid tightening machine, and rotary capping device, this machine is sure to meet all of your filling and capping needs. Plus, with its 1-year warranty, you can rest easy knowing that your investment is protected.

Technical Parameters:

Power Supply	220V/50Hz
Manual	English Version
Warranty	1 Year
Appearance	Good-looking
Capping Heads	4 Heads /8 Heads/12 Heads
Color	White
Material	Stainless Steel
Operation	Semi-automatic
Capping Speed	700~1000pcs
Voltage	AC 380V,50Hz
Cap Sealing Equipment	Screw Cap Machine
Lid Tightening Machine	Screw Cap Machine

Applications:

The Servo Tracking Capping Machine is ideal for businesses that produce beverages, cosmetics, or pharmaceuticals. It can cap bottles of different shapes and sizes, making it versatile for a range of products. The machine is designed to handle two to twenty-four heads, making it perfect for large-scale production. With its high-speed capping ability, the Servo Tracking Capping Machine can help businesses increase their production output and meet customer demand.

The Automatic IBC Filling Machine is an excellent product for businesses that require a lid tightening machine. The Servo Tracking Capping Machine can help businesses automate their capping process, making it faster and more efficient. The machine is easy to use and requires minimal training. Once set up, the machine can cap bottles with consistent torque, ensuring that each bottle is sealed correctly.

The Screw Cap Machine is also perfect for businesses that need to cap bottles quickly and efficiently. The Servo Tracking Capping Machine has a high capping speed, which means that businesses can cap more bottles in less time. The machine is also built to last, making it a great investment for any business. With its stainless steel construction, the machine can withstand the wear and tear of daily use.

In conclusion, the Servo Tracking Capping Machine is a great investment for any business that needs to cap a high volume of bottles quickly and efficiently. It is versatile, durable, and easy to use, making it a great addition to any production line. Whether you need a lid tightening machine or a screw cap machine, the Servo Tracking Capping Machine can help your business increase its production output and meet customer demand.

Customization:

Servo tracking capping machine Automatic IBC Filling Machine:

Head: 2~24

Power Supply: 220V/50Hz

Manual: English Version

Voltage: AC 380V,50Hz

Usage: Plastic Or Glass Bottle Capping

Rotary Capping Device (9 heads)

Rotary Capping Device (4 heads)

Jar Capper Machine (4 heads)

Support and Services:

The Automatic IBC Filling Machine is a high-quality, reliable product designed to streamline the filling process for intermediate bulk containers (IBCs).

Our product technical support team is available to assist with any questions or concerns regarding the installation, operation, and maintenance of the Automatic IBC Filling Machine. We also offer training services to ensure that your staff is properly trained on how to use the machine and maximize its efficiency.

In addition, we provide comprehensive services to ensure that your Automatic IBC Filling Machine is running at optimal performance levels. Our services include routine maintenance, repair, and replacement of any necessary parts or components.

At [company name], we are committed to providing exceptional customer service and support for all of our products, including the Automatic IBC Filling Machine.

Packing and Shipping:

Product Packaging:

Dimensions: 2.5m x 1.5m x 2.2m

Weight: 1200 kg

Materials: Steel frame, wooden crate

Shipping:

Shipping method: Sea freight

Delivery time: 4-6 weeks

Shipping cost: Variable depending on destination

Insurance: Included in shipping cost
