

7 Inch Touch Screen Automatic Liquid Filling Machine For Round / Square / Oval Bottles

Our Product Introduction

for more products please visit us on sg-packs.com

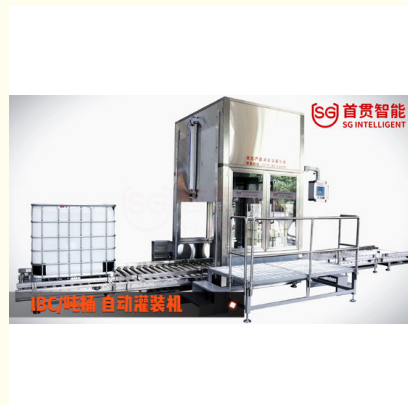

Basic Information

- Place of Origin: china
- Brand Name: Automatic Chemicals Filling Machine
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

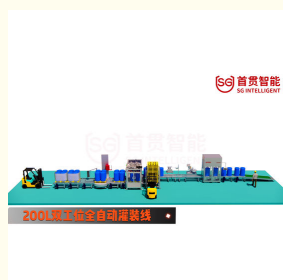

Product Specification

- Power Consumption: 1.5KW
- Filling Accuracy: $\pm 0.5\%$
- Touch Screen: 7 Inch
- Model: AFM-1000
- Filling Volume: 25L-200L
- Bottle Type: Round/Square/Oval
- Capacity: 1000 Bottles/hour
- Application: Chemicals
- Highlight: 7 Inch Automatic Liquid Filling Machine,
Touch Screen automatic liquid filling machine,
Oval Bottles automatic liquid filling machine

Product Description

Automatic Liquid Filling Machine 7 Inch Touch Screen Automatic Filling Machine For Round/Square/Oval Bottles

Product Description:

The machine is equipped with a programmable logic controller (PLC) that ensures precise and accurate filling of chemicals. This control system is designed to monitor and regulate the filling process, ensuring that each bottle is filled to the exact volume required. The PLC also allows for easy adjustments to be made to the machine, making it easy to customize the filling process to suit specific needs.

The Automatic Chemicals Filling Machine is equipped with four filling nozzles, which are designed to fill four bottles simultaneously. This feature significantly increases the machine's efficiency, making it possible to fill up to 1000 bottles per hour. The filling nozzles are made from high-quality materials that are resistant to chemical corrosion, ensuring that the machine is durable and long-lasting.

The machine is designed to fill a variety of bottle types, including round, square, and oval bottles. This versatility makes it possible to use the machine to fill different types of chemicals, regardless of the shape of the bottle.

The Automatic Chemicals Filling Machine is a fully automated machine that requires minimal human intervention. This feature significantly reduces the risk of contamination and ensures that the filling process is carried out in a clean and hygienic manner.

In summary, the Automatic Chemicals Filling Machine is an essential piece of equipment for chemical manufacturers looking to increase their productivity and efficiency. It is an automatic machine that is capable of filling volumes ranging from 25L to 200L, making it perfect for filling large quantities of chemicals quickly. With its PLC control system, four filling nozzles, and versatility in bottle types, this machine is a must-have for any chemical manufacturer looking to streamline their filling process.

Features:

Product Name: Automatic Chemicals Filling Machine

Material: Stainless Steel

Air Pressure: 0.6-0.8Mpa

Power Consumption: 1.5KW

Air Consumption: 0.6m³/min

Filling Accuracy: ±0.5%

Technical Parameters:

Application	Chemicals
Filling Volume	25L-200L
Air Consumption	0.6m ³ /min
Bottle Type	Round/Square/Oval
Material	Stainless Steel
Air Pressure	0.6-0.8Mpa
Filling Nozzle	4
Filling Accuracy	±0.5%
Power Supply	220V/50Hz
Control System	PLC

Applications:

One of the key advantages of the Automatic Chemicals Filling Machine is its automatic filling mechanism. This ensures that the filling process is fast, accurate, and consistent, which helps to improve the overall efficiency of chemical production. The machine is made of high-quality stainless steel, which makes it durable and easy to clean. It is also resistant to corrosion and other types of damage that can occur in harsh industrial environments.

The Automatic Chemicals Filling Machine is suitable for a wide range of chemical applications, including the filling of acids, solvents, and other types of liquids that require precise measurements. The machine can be easily set up to fill different volumes of liquids, making it a versatile tool for chemical manufacturers. The machine is also designed to work with different types of bottle sizes and shapes, which makes it easy to adapt to different production needs.

The Automatic Chemicals Filling Machine is a good choice for companies that require high-quality, consistent, and efficient chemical filling. It is a cost-effective solution for chemical companies that want to improve their production processes and increase their output. The machine is easy to operate and maintain, which makes it a reliable tool for chemical production.

The Automatic Chemicals Filling Machine is designed to work with air pressure of 0.6-0.8 Mpa, which makes it compatible with most industrial air compressors. This ensures that the machine can be used in different industrial settings, regardless of the air pressure requirements. The machine is also equipped with safety features that help to prevent accidents and ensure the safety of operators. In summary, the Automatic Chemicals Filling Machine is a versatile and reliable machine that is ideal for chemical manufacturers who require accurate, consistent, and efficient filling of chemicals. Its automatic filling mechanism, high-quality material, and compatibility with different bottle sizes and shapes make it a valuable tool for chemical production. With its safety features and ease of operation and maintenance, the Automatic Chemicals Filling Machine is a cost-effective solution for chemical companies that want to improve their production processes and increase their output.

Customization:

Automatic Chemicals Filling Machine, can be customized to meet your specific needs. We offer customization services for the following attributes:

Air Pressure: 0.6-0.8Mpa

Filling Volume: 25L-200L

Filling Accuracy: $\pm 0.5\%$

Material: Stainless Steel

Touch Screen: 7 Inch

With our customization services, you can tailor the **Automatic Chemicals Filling Machine** to fit your unique requirements. Whether you need to adjust the filling volume or accuracy, or prefer a different touch screen size, our team can help you create a **Chemicals Filling Machine** that meets your needs.

Support and Services:

The Automatic Chemicals Filling Machine is a high-quality product that is built to last. Our technical support and services team is dedicated to ensuring that our customers get the most out of their investment. We offer a range of services to help you get your machine up and running, including installation, training, and maintenance services. Our team of experts is available around the clock to answer any questions you may have and to provide troubleshooting assistance. Additionally, we offer a range of spare parts and upgrades to help you keep your machine running smoothly for years to come.

Packing and Shipping:

Product Packaging:

Dimensions: 120cm x 100cm x 180cm

Weight: 500kg

Materials: Wooden crate

Shipping:

Method: Sea or air freight

Delivery time: 15-30 days depending on destination

Shipping cost: Varies by destination and method

Insurance: Optional
