

Fully Automatic Chemical Filling Machines For Round / Square Bottles With 4 Nozzle Design

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG20F
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Filling Accuracy: $\pm 0.5\%$
- Filling Nozzle: 4
- Air Consumption: $0.6\text{m}^3/\text{min}$
- Air Pressure: $0.6-0.8\text{Mpa}$
- Bottle Type: Round/Square/Oval
- Touch Screen: 7 Inch
- Power Supply: 220V/50Hz
- Highlight: Fully Automatic chemical filling machines,
4 Nozzle Automatic chemical filling machines,
Round / Square Bottles chemical filling machines

Product Description

Fully Automatic Filling Machine And Automatic Chemicals Filling Machine For Round/Square Bottles With 4-Nozzle Design

Product Description:

The machine requires an air consumption of 0.6m³/min and an air pressure of 0.6-0.8Mpa for optimal performance. With its automatic operation, it eliminates the need for manual intervention, saving time and effort. The user-friendly interface makes it easy to operate and maintain, making it a reliable and convenient choice for chemical filling operations.

The Automatic Chemicals Filling Machine is suitable for a wide range of industries including pharmaceuticals, chemical manufacturing, and food and beverage production. Its versatility and efficiency make it an ideal choice for businesses looking to streamline their chemical filling processes and increase production output.

Overall, the Automatic Chemicals Filling Machine is a high-quality and reliable machine that can help businesses optimize their chemical filling processes. Its automatic operation, user-friendly interface, and durable construction make it an excellent investment for any company in need of a Chemicals Filling Machine.

Features:

Product Name: Automatic Chemicals Filling Machine

Air Consumption: 0.6m³/min

Power Supply: 220V/50Hz

Control System: PLC

Model: AFM-1000

Air Pressure: 0.6-0.8Mpa

Technical Parameters:

Product Name:	Automatic Chemicals Filling Machine
Application:	Chemicals
Air Consumption:	0.6m ³ /min
Power Consumption:	1.5KW
Filling Accuracy:	±0.5%
Control System:	PLC
Air Pressure:	0.6-0.8Mpa
Bottle Type:	Round/Square/Oval
Touch Screen:	7 Inch
Filling Nozzle:	4
Material:	Stainless Steel

Applications:

The machine is made of high-quality stainless steel which ensures its durability, longevity, and resistance to corrosion. The filling nozzles of the machine are designed to be precise and accurate, which ensures that the right amount of chemicals is dispensed into each bottle. The machine is equipped with four filling nozzles, which makes it possible to fill four bottles at once, thus increasing the production rate. The control system of the Automatic Chemicals Filling Machine is based on PLC, which makes it easy to operate and control. The machine can be programmed to fill bottles of different sizes and shapes with different types of chemicals. The filling speed and the filling volume can also be adjusted according to the requirements of the industry.

The Automatic Chemicals Filling Machine is applicable in a wide range of industries such as chemical, pharmaceutical, food, and beverage. It can be used to fill a variety of chemicals such as acids, alkalis, solvents, and corrosives. The machine is also suitable for filling different types of bottles such as glass, plastic, and metal bottles.

The machine is easy to install, maintain, and clean. It requires minimal human intervention, which reduces the chances of errors and accidents. The machine is also equipped with safety features such as emergency stop buttons and safety guards which ensure the safety of the operators.

In short, the Automatic Chemicals Filling Machine is an ideal equipment for industries that require high-volume filling of chemicals into bottles. Its precision, accuracy, speed, and safety make it a perfect choice for industries that prioritize quality, efficiency, and productivity.

Customization:

Support and Services:

The Automatic Chemicals Filling Machine is a high-quality product designed to ensure the accurate and efficient filling of various chemical products. Our technical support team is available to assist with any questions or concerns related to the proper use and maintenance of the machine.

We also offer various services to help ensure optimal performance of the filling machine, including:

Installation and setup assistance

Regular maintenance and tune-ups

Repairs and replacement of parts

Training on proper usage and safety procedures

Our team of experts is dedicated to providing the best possible support and services to ensure that your filling machine operates efficiently and effectively.

Packing and Shipping:

Product Packaging:

Dimensions: 120cm x 80cm x 150cm

Weight: 250kg

Material: Wooden crate

Contents: Automatic Chemicals Filling Machine, instruction manual, spare parts

Shipping:

Shipping method: Sea freight

Delivery time: 30-45 days

Shipping cost: Please contact us for a quote
