

Automatic White Auto Liquid Tube Ibc Filling Machine

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Capping Speed: 700.~1000pcs
- Usage: Plastic Or Glass Bottle Capping
- Operation: Semi-automatic
- Meterial: Stainless Steel
- Warranty: 1 Year
- Power Supply: 220V/50Hz
- Capping Heads: 4 Heads /8 Heads/12 Heads
- Color: White
- Highlight: **Liquid Tube Ibc Filling Machine,
Automatic White Ibc Filling Machine,
Tube Automatic IBC Filling Machine**

Product Description

Automatic White IBC Filling Machine Auto Liquid Filling Machine Automatic Tube Filling Machine

Product Description:

This innovative machine comes in a clean and modern white color that is suitable for any workspace. Its compact design allows it to fit seamlessly into production lines without taking up too much space. Its intelligent and user-friendly interface allows operators to adjust the machine settings easily.

The Automatic IBC Filling Machine is built with high-quality components that ensure durability and long-lasting performance. Its robust construction guarantees consistent and reliable results, making it an excellent investment for businesses that require cap sealing equipment that will last for years.

This product comes with a 1-year warranty, giving customers peace of mind knowing that they are investing in a high-quality product that is backed by a reliable warranty.

Overall, the Automatic IBC Filling Machine is a top-of-the-line cap sealing equipment that is designed to meet the needs of any industry that requires efficient and reliable bottle capping. Its advanced features, durable construction, and user-friendly interface make it a must-have for businesses that want to improve their production process and boost their bottom line.

Features:

Product Name: Automatic IBC Filling Machine

Voltage: AC 380V,50Hz

Power Supply: 220V/50Hz

Warranty: 1 Year

Color: White

Capping Heads: 4 Heads /8 Heads/12 Heads

Cap Sealing Equipment

Jar Capper Machine

Lid Tightening Machine

Technical Parameters:

Appearance	Good-looking
Power Supply	220V/50Hz
Head	2~24
Bottle Height	50-300mm
Manual	English Version
Color	White
Usage	Plastic Or Glass Bottle Capping

Warranty	1 Year
Capping Speed	700.~1000pcs
Voltage	AC 380V,50Hz
Rotary Capping Device	9) Rotary Capping Device
Screw Cap Machine	5) Screw Cap Machine

Applications:

One of the key features of the Servo tracking capping machine is its ability to handle high-volume filling operations with ease. Whether you need to fill large IBC containers or smaller jars and bottles, this machine can be customized to meet your specific needs. It comes equipped with a variety of capping heads, including 4 Heads, 8 Heads, and 12 Heads, allowing you to choose the right configuration for your production line.

In addition to its impressive capping capabilities, the Servo tracking capping machine also features a Flip-Off Capping Unit, which is perfect for sealing vials and other small containers securely. This unit ensures that your products remain fresh and free from contamination, even during long-term storage.

Another great application for the Servo tracking capping machine is as a 4) Jar Capper Machine. This is because it can handle a variety of different jar sizes and shapes, making it a versatile solution for businesses that need to fill and cap jars quickly and efficiently.

Whether you are looking to streamline your production line, increase your output, or improve the quality of your products, the Servo tracking capping machine is an excellent choice. With its reliable performance, easy-to-use controls, and English-language manual, it is a valuable asset for any business in need of a high-quality filling and capping machine.

Customization:

We offer customization services for the following:

Flip-Off Capping Unit

Screw Cap Machine

Bottle Capping Machine

Support and Services:

The Automatic IBC Filling Machine is a high-performance filling equipment that enables the filling of various liquids and semi-liquid products into intermediate bulk containers (IBCs). It is designed with advanced technology and a user-friendly interface to ensure efficient and accurate filling.

Our product technical support team is always available to assist with any technical issues that may arise during the installation, operation, or maintenance of the machine. We offer comprehensive training to ensure that operators understand how to use the equipment safely and effectively.

In addition, we provide a range of services to ensure the optimal performance of the machine. This includes regular maintenance and calibration to ensure accurate filling and prevent downtime. We also offer spare parts and upgrades to keep the machine up-to-date with the latest technology.

Our goal is to provide our customers with the highest level of support and service to ensure the longevity and reliability of the Automatic IBC Filling Machine.

Packing and Shipping:

Wooden crate packaging

Product is securely fastened in crate to prevent any damage during shipping

Dimensions: 2.5m x 1.5m x 1.8m

Weight: 1200kg

Shipping:

Shipping method: Sea freight

Delivery time: 30-45 days

Shipping cost: Please contact us for a quote
