

4 Heads Automatic Ibc Filling Equipment / Auto Liquid Filling Machine

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Bottle Height: 50-300mm
- Capping Speed: 700.~1000pcs
- Voltage: AC 380V,50Hz
- Usage: Plastic Or Glass Bottle Capping
- Power Supply: 220V/50Hz
- Meterial: Stainless Steel
- Capping Heads: 4 Heads /8 Heads/12 Heads
- Color: White
- Highlight: **Auto Liquid Ibc Filling Equipment,
4 Heads Ibc Filling Equipment,
4 Heads Automatic Ibc Filling Equipment**

Product Description

Streamline Your Filling Process With Our Automatic IBC Filling Machine Auto Liquid Filling Machine

Product Description:

The Automatic IBC Filling Machine is designed to accommodate bottles with a height range of 50-300mm, ensuring that it is versatile enough to handle a variety of bottle sizes. Additionally, this machine is equipped with a rotary capping device and a flip-off capping unit, allowing for a wide range of capping options to suit your specific needs.

When it comes to reliability, the Automatic IBC Filling Machine is unmatched. We are so confident in the quality of this machine that we offer a 1-year warranty, giving you peace of mind and ensuring that your investment is protected.

So if you're in need of a bottle capping machine that can keep up with your production demands, look no further than the Automatic IBC Filling Machine. With its powerful performance and reliable operation, this machine is sure to exceed your expectations.

Features:

Product Name: Automatic IBC Filling Machine

Material: Stainless Steel

Head: 2~24

Warranty: 1 Year

Voltage: AC 380V,50Hz

Color: White

Features:

Rotary Capping Device

Bottle Capping Machine (1)

Bottle Capping Machine (2)

Technical Parameters:

Operation	Semi-automatic
Material	Stainless Steel
Voltage	AC 380V,50Hz

Capping Speed	700.~1000pcs
Bottle Height	50-300mm
Capping Heads	4 Heads /8 Heads/12 Heads
Usage	Plastic Or Glass Bottle Capping
Power Supply	220V/50Hz
Warranty	1 Year
Head	2~24

Applications:

One of the main application occasions for the Servo Tracking Capping Machine is in the food and beverage industry. This machine is perfect for filling and capping a wide variety of containers, including jars, bottles, and cans. Its screw cap machine feature allows for easy and quick sealing of containers, making it ideal for busy production lines. The cap sealing equipment also ensures that the caps are securely fastened, preventing any leaks or spills.

Another occasion where the Servo Tracking Capping Machine can be used is in the pharmaceutical industry. This machine is designed to handle delicate containers, ensuring that the caps are sealed accurately without damaging the products inside. The machine is also easy to clean, making it suitable for use in a sterile environment.

The Servo Tracking Capping Machine can also be used in the chemical industry. Its ability to handle a variety of containers makes it perfect for filling and capping various chemical products. The machine is also designed to prevent any contamination, ensuring the safety and quality of the products.

With its 1-year warranty and reliable power supply of 220V/50Hz, the Servo Tracking Capping Machine is an excellent investment for any manufacturing company. Its white color gives it a modern and sleek appearance, making it suitable for any workspace. The jar capper machine feature and cap sealing equipment make it a versatile piece of equipment that can handle a wide range of containers and products.

Customization:

Customize your Servo tracking capping machine with our product customization services! Choose from 4 Heads, 8 Heads, or 12 Heads capping heads to fit your production needs. Our Automatic IBC Filling Machine is compatible with both plastic and glass bottle capping, and can handle bottle heights ranging from 50-300mm. Made with durable stainless steel material, our machine also features a Flip-Off Capping Unit and Cap Sealing Equipment for optimal performance.

Don't settle for a standard capping machine. Trust our customization services to tailor your Automatic IBC Filling Machine to your unique specifications. Our machine operates on AC 380V, 50Hz voltage.

Support and Services:

The Automatic IBC Filling Machine is designed to provide efficient and accurate filling of intermediate bulk containers (IBCs) with liquids or viscous products. Our technical support and services for this product include:

Installation and commissioning assistance

Operator training

Regular maintenance and calibration services

Emergency repairs and troubleshooting support

Replacement parts and upgrades

24/7 technical support through phone, email, or chat

We understand how important it is to keep your production line running smoothly and efficiently. That's why our team of experienced technicians is always ready to provide you with prompt and reliable support whenever you need it.

Packing and Shipping:

Product Packaging:

Dimensions: 120 x 100 x 150 cm

Weight: 250 kg

Material: Wooden crate

Shipping:

Delivery method: Sea or air freight

Delivery time: 4-6 weeks

Shipping cost: Calculated based on destination and delivery method
