Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Color: White
- Material: Stainless Steel
- Usage: Plastic Or Glass Bottle Capping
- Power Supply: 220V/50Hz
- Warranty: 1 Year
- Filling Mode: Automatic
- Material: Stainless Steel
- Application: IBC Containers
- Voltage: AC 380V,50Hz
- Control System: PLC
- Hmi: Touch Screen
- Highlight: **IBC Automatic Shampoo Filling Machine,
24 Head Automatic Shampoo Filling Machine,**

Product Description

Automatic 2-24 Head IBC Filling Machine Automatic Shampoo Filling Machine

Product Description:

The Automatic IBC Filling Machine is equipped with 2~24 filling heads that provide fast and precise filling of IBCs. The filling heads are designed to prevent any spillage or wastage of the product, making it a cost-effective solution for your filling needs. The machine is also equipped with a screw cap machine that ensures a tight and secure seal for your IBCs.

The Automatic IBC Filling Machine is designed to work with a voltage of AC 380V, 50Hz and a power supply of 220V/50Hz. This ensures that the machine operates efficiently and provides accurate and consistent results. The machine is also easy to maintain and requires minimal maintenance, which makes it a reliable and cost-effective choice for your business.

In addition to the Automatic IBC Filling Machine, we also offer other related machines such as the Jar Capper Machine and the Screw Cap Machine. These machines are designed to work seamlessly with the Automatic IBC Filling Machine and provide a complete solution for your filling and capping needs.

Features:

Product Name: Automatic IBC Filling Machine

Usage: Plastic or Glass Bottle Capping

Warranty: 1 Year

Power Supply: 220V/50Hz

Capping Heads: 4 Heads /8 Heads/12 Heads

Head: 2~24

Features:

Rotary Capping Device

Screw Cap Machine

Bottle Capping Machine

Technical Parameters:

Power Supply	220V/50Hz
--------------	-----------

Voltage	AC 380V,50Hz
Bottle Height	50-300mm
Capping Heads	4 Heads /8 Heads/12 Heads
Appearance	Good-looking
Manual	English Version
Usage	Plastic Or Glass Bottle Capping
Color	White
Head	2~24
Material	Stainless Steel
Bottle Capping Machine	Yes
Flip-Off Capping Unit	No
Rotary Capping Device	Yes

Applications:

The Rotary Capping Device is a standout feature of the Servo Tracking Capping Machine. This feature ensures that the capping process is done accurately and precisely, preventing any spills or messes. It also ensures that the capping process is done quickly and efficiently, allowing for faster production times. The Servo Tracking Capping Machine is ideal for industries that require high-speed production, such as the food and beverage industry.

The Servo Tracking Capping Machine is also perfect for the pharmaceutical industry, where hygiene and cleanliness are of utmost importance. The Jar Capper Machine feature of the Servo Tracking Capping Machine ensures that the capping process is done in a sterile environment, preventing any contamination. The Screw Cap Machine feature of the Servo Tracking Capping Machine allows for easy and seamless capping of bottles with screw caps.

The Servo Tracking Capping Machine is designed to be user-friendly, with a simple interface that makes it easy to operate. It also has a voltage of AC 380V,50Hz, making it suitable for any workplace. The white color of the Servo Tracking Capping Machine makes it easy to spot any dirt or spills, allowing for easy cleaning and maintenance.

The Servo Tracking Capping Machine is perfect for a variety of industries, including the food and beverage industry, pharmaceuticals, and cosmetics. Its versatility, accuracy, and efficiency make it a valuable addition to any workplace. With its good-looking appearance, it can add a touch of sophistication to any production line.

Customization:

Support and Services:

The Automatic IBC Filling Machine is a high-quality product designed to automate the filling process of Intermediate Bulk Containers (IBCs). Our Technical Support team is always available to assist with any technical questions or issues that may arise. Our services include:

Installation and setup support

Training for operators and maintenance personnel

Maintenance and repair services

Equipment upgrades and customization

Technical troubleshooting and support

Our goal is to ensure that our customers have a seamless experience with our product and achieve maximum productivity. We understand the importance of reliable equipment and are committed to providing exceptional support and services to our valued customers.

Packing and Shipping:

Product Packaging:

Automatic IBC Filling Machine

Instruction manual

Tools for assembly

Shipping:

Shipped in a sturdy cardboard box

Dimensions: 120cm x 80cm x 150cm

Weight: 300kg

Shipped via freight carrier

Shipping time: 3-5 business days
