Head	2~24
Warranty	1 Year
Capping Speed	700 ~ 1000pcs
Appearance	Good-looking
Color	White
Operation	Semi-automatic
Flip-Off Capping Unit	7
Bottle Capping Machine	1
Flip-Off Capping Unit	7

Applications:

Our capper machine is suitable for use with both plastic and glass bottles, and can accommodate bottle heights ranging from 50mm to 300mm. This makes it a versatile solution for a wide range of product applications and occasions.

Whether you're in the food and beverage industry, pharmaceuticals, or cosmetics, the Servo Tracking Capping Machine can help you achieve consistent and reliable capping results. The machine is equipped with a flip-off capping unit, which ensures a tight seal on every bottle, reducing the risk of contamination and product spoilage.

Moreover, our capper machine is easy to operate and maintain, with a simple control panel that allows you to adjust the capping speed, torque, and other parameters according to your specific needs. Plus, with a 1-year warranty, you can have peace of mind knowing that your investment is protected.

Overall, the Servo Tracking Capping Machine is an excellent choice for businesses looking to improve their bottling and capping processes with a reliable, efficient, and cost-effective solution. Whether you're looking for a jar capper machine, a lid tightening machine, or a flip-off capping unit, we've got you covered.

Customization:

Support and Services:

The Automatic IBC Filling Machine is a highly advanced and efficient system designed to provide accurate and fast filling of intermediate bulk containers (IBCs). Our technical support team is available to assist you with any technical issues or inquiries you may have regarding the installation and operation of the machine.

Our services include:

On-site installation and commissioning of the machine

Training for operators and maintenance personnel

Regular maintenance and servicing of the machine

Remote technical support and troubleshooting

Supply of spare parts and consumables

Our team of experienced engineers and technicians are dedicated to ensuring that your Automatic IBC Filling Machine is operating at optimal efficiency and performance. Contact us for more information on our technical support and services.
