

12 Heads Ibc Filling Machine For Solvent / Paint / Chemical

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG-IBC-10
- Minimum Order Quantity: 1
- Price: 10000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Color: White
- Capping Heads: 4 Heads / 8 Heads / 12 Heads
- Manual: English Version
- Operation: Semi-automatic
- Bottle Height: 50-300mm
- Voltage: AC 380V, 50Hz
- Power Supply: 220V/50Hz
- Warranty: 1 Year
- Highlight: Paint Ibc Filling Machine,
Chemical Ibc Filling Machine,
12 Heads Ibc Filling Machine

Product Description

Edit IBC Fully Automatic Vertica Gravity Weighing Filling and Capping Machinery Machine for Solvent/Paint/Chemical

Product Description:

One of the key features of this machine is its power supply, which is rated at 220V/50Hz. This ensures that it can be used in a variety of locations and is suitable for a wide range of applications.

The machine also comes with an English version of the manual, which makes it easy to use and understand for operators who are not fluent in other languages.

The Automatic IBC Filling Machine is also equipped with a variety of capping heads, including 4 heads, 8 heads, and 12 heads. This makes it easy to choose the right number of capping heads for your specific application, ensuring that you can achieve the highest levels of efficiency and accuracy possible.

The capping heads on the machine can be adjusted to accommodate a range of different cap sizes, making it extremely versatile and useful for a wide range of applications. The machine can handle caps with a head size ranging from 2 to 24, making it suitable for use with a variety of different cap types.

The Automatic IBC Filling Machine also comes with a range of different capping units, including a screw cap machine, a flip-off capping unit, and a rotary capping device. This makes it easy to choose the right capping unit for your specific needs, ensuring that you can achieve the highest levels of efficiency and accuracy possible.

In conclusion, the Automatic IBC Filling Machine is an excellent choice for anyone who needs a high-quality, reliable, and efficient liquid filling machine for use with IBC containers. With its power supply rated at 220V/50Hz, English version manual, and range of capping heads and units, this machine is designed to meet the needs of a wide range of industries and applications.

Features:

Product Name: Automatic IBC Filling Machine

Warranty: 1 Year

Power Supply: 220V/50Hz

Bottle Height: 50-300mm

Capping Heads: 4 Heads /8 Heads/12 Heads

Manual: English Version

Screw Cap Machine: Included
Rotary Capping Device: Included
Jar Capper Machine: Included

Technical Parameters:

Capping Heads:	4 Heads /8 Heads/12 Heads
Power Supply:	220V/50Hz
Warranty:	1 Year
Color:	White
Material:	Stainless Steel
Operation:	Semi-automatic
Capping Speed:	700.~1000pcs
Usage:	Plastic Or Glass Bottle Capping
Voltage:	AC 380V,50Hz
Manual:	English Version

Applications:

The Servo Tracking Capping Machine is equipped with a rotary capping device that ensures consistent and reliable capping performance. The machine is capable of capping 2 to 24 heads at a time, making it ideal for use in a variety of production environments. The Servo Tracking Capping Machine is a versatile machine that can be used in a variety of product application occasions and scenarios. Some of the most common applications include:

Jar Capper Machine: This machine is ideal for use in capping jars of various sizes. With its adjustable capping heads, it can handle a wide range of jar sizes with ease.

Lid Tightening Machine: The Servo Tracking Capping Machine is perfect for tightening lids on a variety of products. With its precise capping mechanism, it ensures that each lid is tightened to the correct level for optimal product quality.

Bottle Capping Machine: This machine is ideal for capping both plastic and glass bottles of various sizes. With its adjustable capping heads, it can handle a wide range of bottle sizes with ease.

Overall, the Servo Tracking Capping Machine is a reliable and efficient machine that is perfect for a variety of product application occasions and scenarios. Whether you need a jar capper machine, a lid tightening machine, or a bottle capping machine, this machine is sure to meet your needs.

Customization:

Support and Services:

Our technical support team is available to assist you with any questions or issues you may have with the Automatic IBC Filling Machine. We offer a range of services, including:

Installation and commissioning

Training and education on proper use and maintenance

Repair and maintenance services

Customization and modification services to meet specific requirements

In addition, we provide comprehensive documentation and manuals to ensure that you have all the information you need to operate and maintain your Automatic IBC Filling Machine. Our team is dedicated to providing you with the highest level of support and service to ensure that your product is always running at peak performance.

Packing and Shipping:

Product Packaging:

The Automatic IBC Filling Machine will be packed in a sturdy wooden crate.

The crate will be sealed and labeled with the product name and specifications.

The machine will be secured with foam padding and straps to prevent any damage during transport.

Shipping:

The product will be shipped via sea or air freight, depending on the customer's preference and location.

The shipping cost will be calculated based on the destination and mode of transportation.

Our team will coordinate with the customer to arrange the most convenient and cost-effective shipping method.
