

200L Liquid Filling Machine Bottle Filling Fully Automatic Semi Automatic

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 10000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Power Supply: 220V/50Hz
- Voltage: AC 380V,50Hz
- Capping Heads: 4 Heads /8 Heads/12 Heads
- Capping Speed: 700.~1000pcs
- Bottle Height: 50-300mm
- Head: 2~24
- Color: White
- Manual: English Version
- Highlight: **200L Liquid Filling Machine,
Fully Automatic Liquid Filling Machine,
Bottle Filling Liquid Filling Machine**

Product Description

200L Fully Automatic And Semi-Automatic Filling Machine Auto Liquid Filling Machine

Product Description:

The Automatic IBC Filling Machine is made of high-quality stainless steel, which not only makes it strong and durable but also easy to clean. Its good-looking appearance adds to the aesthetic appeal of your production line.

One of the best things about this machine is its versatility. It can handle containers with heights ranging from 50mm to 300mm, making it ideal for a wide range of products. Moreover, it can be used to fill different types of containers, including bottles, jars, and IBCs.

The Automatic IBC Filling Machine is also easy to operate, thanks to its user-friendly interface. It requires minimal training to use, and the filling process is quick and efficient. This machine is semi-automatic, which means that it requires some human intervention to operate. However, it is equipped with advanced technology that streamlines the filling process and minimizes errors.

The Automatic IBC Filling Machine comes with a lid tightening machine that ensures that the containers are tightly sealed after filling. This feature helps to prevent spills and leaks, which can be messy and costly. Additionally, the machine also has a jar capper machine that is perfect for capping jars and bottles. The flip-off capping unit is also included, which makes it easy to cap flip-off seals.

Overall, the Automatic IBC Filling Machine is a top-of-the-line filling machine that is perfect for any production line. Its impressive head range, versatility, and user-friendly interface make it a must-have for anyone who wants a reliable and efficient filling machine. Whether you are filling liquids, viscous products, or powders, this machine will get the job done quickly and efficiently.

Features:

Product Name: Automatic IBC Filling Machine

Operation: Semi-automatic

Capping Speed: 700~1000pcs

Capping Heads:

4 Heads

8 Heads

12 Heads

Manual: English Version

Material: Stainless Steel

Cap Sealing Equipment: Included

Flip-Off Capping Unit: Included

Screw Cap Machine: Included

Technical Parameters:

Bottle Height	50-300mm
Warranty	1 Year
Color	White
Power Supply	220V/50Hz
Operation	Semi-automatic
Appearance	Good-looking
Usage	Plastic Or Glass Bottle Capping
Capping Heads	4 Heads /8 Heads/12 Heads
Head	2~24
Manual	English Version

This product is a Rotary Capping Device, also known as a Lid Tightening Machine or Cap Sealing Equipment.

Applications:

The automatic IBC filling machine is easy to use and maintain, and its power supply of 220V/50Hz makes it suitable for use in different parts of the world. The machine's bottle height ranges from 50-300mm, making it compatible with a wide range of bottle sizes. The Servo Tracking Capping Machine is also designed to look good, with its sleek and modern appearance, making it a great addition to any production line. The machine comes with a 1-year warranty, providing you with peace of mind knowing that you are making a sound investment.

One of the key features of the Servo Tracking Capping Machine is its ability to cap jars, making it a versatile machine that can be used in various applications. Whether you are in the cosmetics or food industry, this machine is capable of ensuring that your jars are tightly sealed, preventing any leaks or contamination.

Another major application of this automatic IBC filling machine is its use as a lid tightening machine. With its advanced technology and multiple capping heads, the machine can effectively and efficiently tighten lids, providing a secure and tight seal that prevents spills and contamination.

Overall, the Servo Tracking Capping Machine is a great investment for any business looking to increase their production efficiency and maintain the quality of their products. With its multiple applications and advanced features, this machine is a valuable addition to any production line.

Customization:

Support and Services:

Our technical support team is available to assist with any questions or issues that may arise during installation, setup, or operation of the machine. We offer comprehensive training to ensure that your personnel are fully equipped to operate and maintain the system. In addition to technical support, we also offer a range of services to help you optimize your filling operations. Our team of experts can provide consultation on process improvements, customized equipment configurations, and system integration with your existing production line. We also offer preventative maintenance programs to help keep your Automatic IBC Filling Machine running smoothly and minimize downtime.

At every step of the way, you can count on our commitment to quality and customer satisfaction. Contact us today to learn more about our Automatic IBC Filling Machine technical support and services.

Packing and Shipping:

Product Packaging:

The Automatic IBC Filling Machine will be packed securely using high-quality materials to ensure that the product is not damaged during shipping. The packaging will include foam padding, bubble wrap, and sturdy cardboard boxes. All necessary components, instructions, and accessories will be included in the package for easy assembly and installation.

Shipping:

We will ship the Automatic IBC Filling Machine using reliable and efficient shipping companies to ensure that it arrives at your location on time and in good condition. The shipping cost will be calculated based on your location and the weight of the product. We will provide you with a tracking number so you can monitor the progress of your shipment.
