

PGS Lube Oil Automatic Liquid Filling Machine 25L With Cooling System

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: ISO9001
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Voltage: 380V
- Power: 5-30 KW
- Dimension: 1200*800*1500mm
- Granulation Rate: $\geq 95\%$
- Model: PGS
- Capacity: 1-10 Tons/hour
- Application: Pharmaceutical, Chemical, Food, And Other Industries
- Weight: 500-1000kg
- Highlight: Cooling System Lube Oil Filling Machine, Lube Oil Automatic Liquid Filling Machine, 25l Lubricant Oil Filling Machine

Product Description

PGS Lube Oil Automatic Liquid Filling Machine With Cooling System 25L Lube Oil Filling Production Line

Product Description:

The machine features a powder spheroidization granulator, which ensures that the granulation rate is at least 95%. This ensures that the lube oil is uniformly distributed in the containers, providing the ideal viscosity and consistency. The powder spheroidization granulator is part of the powder granulating machine series, which makes it a highly efficient and reliable machine.

The Lube Oil Filling Machine is designed to be highly efficient and easy to operate. The machine has a high filling speed, which enables it to fill a large number of containers in a short period. The machine is also designed to be easy to operate, with simple controls that can be easily understood and operated by anyone.

The Lube Oil Filling Machine is also designed to be low noise, which makes it suitable for use in various settings. The low noise level ensures that the machine does not interfere with other activities in the workspace, providing a conducive working environment.

The machine has a weight of between 500-1000kg, making it highly portable and easy to move around. The machine is also designed to be easy to clean, which ensures that it remains hygienic and safe to use.

In summary, the Lube Oil Filling Machine is a high-quality machine that is designed to streamline the process of filling lube oil into containers. The machine is made of high-grade stainless steel material, which makes it highly durable and long-lasting. The machine operates on a voltage of 380V and features a powder spheroidization granulator, which ensures that the granulation rate is at least 95%. The machine is highly efficient, easy to operate, and low noise, making it suitable for use in various industrial settings. The machine is also highly portable and easy to clean, making it a must-have for anyone in the lube oil industry.

Features:

Product Name: Lube Oil Filling Machine

Features:

High Efficiency

Easy Operation

Low Noise

Material: Stainless Steel

Dimension: 1200*800*1500mm

Model: PGS

Warranty: 1 Year

Technical Parameters:

Attribute	Value
Dimension	1200*800*1500mm
Voltage	380V

Granulation Rate	≥95%
Material	Stainless Steel
Model	PGS
Capacity	1-10 Tons/hour
Weight	500-1000kg
Frequency	50Hz
Application	Pharmaceutical, Chemical, Food, And Other Industries
Particle Size Of Finished Product	0.5-3mm

Granulation machinery for powders, Powder processing granulator, Powder granulator series

Applications:

One of the key features of this machine is its versatility. It can be used in a variety of industries, including pharmaceutical, chemical, food, and others. This makes it an ideal choice for anyone in need of a reliable and efficient filling machine.

With a weight of 500-1000kg, this machine is sturdy and durable. It can handle even the toughest jobs with ease, ensuring that your production line runs smoothly and efficiently.

The granulation rate of this machine is ≥95%, which makes it an excellent choice for those looking for granulation machinery for powders. The powder granulating machine series is designed to provide exceptional performance and reliability, making it a great investment for any business.

With a power range of 5-30 KW, this machine is capable of handling even the most demanding jobs. Whether you need to fill large volumes of lube oil or other liquids, this machine can get the job done quickly and efficiently.

Overall, the 25L lube oil filling production line is a great investment for anyone in need of a reliable and efficient filling machine. With its versatility, durability, and powerful performance, it is sure to meet your needs and exceed your expectations.

Customization:

Our machine is equipped with granulation equipment for powders, ensuring efficient production of your lube oil filling requirements. Our particle forming granulator is perfect for the production of high-quality lube oil.

We offer a 1-year warranty on our machine, giving you peace of mind knowing that our product is durable and reliable. The moisture content of raw materials used in our machine must be ≤15% for optimal performance.

Support and Services:

The Lube Oil Filling Machine is a high-performance product designed for the efficient filling of lubricating oils and other low to medium viscosity fluids in containers of various sizes. Our technical support and services for this product include:

Installation and commissioning

Training on machine operation and maintenance

24/7 technical assistance and troubleshooting

Regular preventive maintenance and calibration

Supply of spare parts and accessories

Upgrades and customization to meet specific customer requirements

We are committed to providing our customers with the highest level of support and service to ensure the smooth operation and longevity of their Lube Oil Filling Machine.

Packing and Shipping:

Product Packaging:

High-quality cardboard box

Bubble wrap for protection

Product manual included

Shipping:

Ships within 3-5 business days

Free shipping within the United States

International shipping available with additional charges

Tracking number provided
