

Fully Automatic 5-30 KW 380V Stainless Steel Lube Oil Filling Machine With 50Hz Frequency

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: ISO9001
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: woodenbox
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Particle Size Of Finished Product: 0.5-3mm
- Moisture Content Of Raw Material: ≤15%
- Power: 5-30 KW
- Application: Pharmaceutical, Chemical, Food, And Other Industries
- Frequency: 50Hz
- Voltage: 380V
- Material: Stainless Steel
- Dimension: 1200*800*1500mm
- Highlight: **380V Lube Oil Filling Machine, Stainless Steel Lube Oil Filling Machine, Fully Automatic lubricant filling machine**

Product Description

Fully Automatic 5-30 KW 380V Stainless Steel Lube Oil Filling Machine with 50Hz Frequency

Product Description:

With a particle size of finished product of 0.5-3mm, the Lube Oil Filling Machine is ideal for producing granules of various sizes. It is equipped with a powerful motor that ranges from 5-30KW, ensuring that it can handle even the most demanding production requirements. Moreover, the low noise feature of this machine guarantees a peaceful and comfortable work environment for operators. The Lube Oil Filling Machine is designed with high efficiency in mind, allowing for faster production times and increased output. It is also easy to operate, with a user-friendly interface that allows operators to adjust the machine's settings to meet their specific needs. The moisture content of the raw material used in this machine is also important. The Lube Oil Filling Machine is built to handle raw materials with a moisture content of up to 15%, making it a reliable option for a wide range of production needs. As part of the Powder granulating machine series, the Lube Oil Filling Machine is an excellent investment for any oil production facility looking to increase production efficiency and output. Its durable construction, high efficiency, easy operation, and low noise make it a top choice for companies looking for reliable granulation equipment for powders that can handle their specific production needs.

Features:

Product Name: Lube Oil Filling Machine

Warranty: 1 Year

Particle Size Of Finished Product: 0.5-3mm

Granulation Rate: $\geq 95\%$

Voltage: 380V

Features:

High Efficiency

Easy Operation

Low Noise

Keywords: Powder agglomeration equipment, Powder processing granulator, Granulation machinery for powders

Technical Parameters:

Product Attribute	Value
Product Name	Powder spheroidization granulator
Application	Pharmaceutical, Chemical, Food, And Other Industries

Granulation Rate	≥95%
Particle Size Of Finished Product	0.5-3mm
Power	5-30 KW
Voltage	380V
Frequency	50Hz
Weight	500-1000kg
Dimension	1200*800*1500mm
Warranty	1 Year
Features	High Efficiency, Easy Operation, Low Noise
Product Name	Powder encapsulation machine
Product Name	Particle forming granulator

Applications:

The 25L lube oil filling production line is a highly efficient and easy to operate machine that is suitable for a variety of applications. The stainless steel material used in the construction of the machine ensures durability and longevity. The machine operates at a frequency of 50Hz and a voltage of 380V, making it suitable for use in a variety of settings.

This machine is particularly useful in the processing of powders, as it can be used as a powder processing granulator and powder agglomeration equipment. The granulation machinery for powders is an essential tool in the production of lube oil, as it helps to create a more uniform product that is easier to handle.

The 25L lube oil filling production line is perfect for use in a variety of scenarios, including industrial settings where large quantities of lube oil are required. The machine is designed to operate at a low noise level, making it suitable for use in areas where noise pollution is a concern.

The machine is also ideal for use in settings where the moisture content of the raw material needs to be controlled. With a moisture content of ≤15%, the machine is capable of producing high-quality lube oil that meets the strictest industry standards.

In conclusion, the 25L lube oil filling production line is a versatile and reliable machine that is suitable for a variety of applications. Whether you are producing lube oil on an industrial scale or need to granulate powders, this machine is an essential tool for any manufacturing process.

Customization:

Customize your 25L lube oil filling production line with our product customization services! Our machine comes with a 1-year warranty and has a capacity of 1-10 tons/hour, making it perfect for your production needs. It features high efficiency, easy operation, and low noise, ensuring a smooth and hassle-free production process. Our machine is made of durable stainless steel material, ensuring longevity and reliability.

Need specific adjustments? We offer customization services tailored to your needs. Our team can modify the power of the machine to fit your power needs, ranging from 5 to 30 KW. We can also incorporate powder compaction granulator or powder granulating machine series to our granulation equipment for powders, depending on your requirements.

Support and Services:

Our Lube Oil Filling Machine is designed to provide reliable and efficient filling of various lubricants and oils. It is equipped with advanced technology to ensure accurate filling and minimize product waste. Our machine is easy to operate and maintain, with a user-friendly interface and durable construction.

We offer comprehensive technical support and services for our Lube Oil Filling Machine, including:

- Installation and commissioning

- Training for operators and maintenance personnel

- Regular maintenance and servicing

- Repairs and replacement of parts

- Upgrades and customization

Our team of expert technicians is available to provide assistance and answer any questions you may have about our Lube Oil Filling Machine. We are committed to ensuring that our customers receive the highest level of support and satisfaction.

Packing and Shipping:

Product Packaging:

The Lube Oil Filling Machine will be securely packaged in a sturdy wooden crate.

The wooden crate will be lined with foam padding to prevent any damage during transportation.

The product will be sealed with protective plastic wrapping to ensure its safety during shipping.

Shipping:

The Lube Oil Filling Machine will be shipped via a reliable and trusted carrier.

Shipping times may vary depending on the destination, but we will provide tracking information so you can follow your shipment's progress.

Please note that additional fees may apply for international shipping.

If you have any questions or concerns about the shipping of your product, please do not hesitate to contact us.
