

Dependable High Performance Lube Oil Filling Machine Production Efficiency

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: ISO9001
- Model Number: SG20F
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Capacity: 1-10 Tons/hour
- Frequency: 50Hz
- Voltage: 380V
- Model: PGS
- Application: Pharmaceutical, Chemical, Food, And Other Industries
- Moisture Content Of Raw Material: ≤15%
- Particle Size Of Finished Product: 0.5-3mm
- Material: Stainless Steel
- Highlight: Production Efficiency Lube Oil Filling Machine, High Performance Lube Oil Filling Machine, Dependable Lube Oil Filling Machine

Product Description

Maximize Your Production Efficiency With Lube Oil Filling Machine Dependable And High-Performance

Product Description:

The Lube Oil Filling Machine has a voltage requirement of 380V, which is the standard for most industrial applications. Its weight ranges from 500 to 1000kg, making it sturdy and durable to withstand the demands of the production process. It has a granulation rate of $\geq 95\%$, which ensures that the powder is well processed and of high quality.

The Lube Oil Filling Machine is part of the powder granulating machine series, which is known for its efficiency and reliability. With this machine, you can easily fill your products with lube oil with ease. It is designed to provide accurate and consistent filling, making it an excellent choice for companies that require precision in their production process.

The Lube Oil Filling Machine is a versatile machine that can handle different types of powder materials. It has a user-friendly interface that makes it easy to operate and maintain. Its compact design makes it easy to clean, ensuring that it is always in good condition for the next use.

In summary, the Lube Oil Filling Machine is a high-quality powder encapsulation machine that is suitable for different industries. Its compact design, high granulation rate, and accuracy in filling make it an excellent choice for companies that require precision in their production process. It is part of the powder granulating machine series, which is known for its reliability and efficiency.

Features:

Product Name: Lube Oil Filling Machine

Features:

High Efficiency

Easy Operation

Low Noise

Granulation Rate: $\geq 95\%$

Capacity: 1-10 Tons/hour

Model: PGS

Voltage: 380V

Our Lube Oil Filling Machine is a granulation machinery for powders. It is a Powder spheroidization granulator and a Powder encapsulation machine.

Technical Parameters:

Technical Parameter	Value
Model	PGS
Capacity	1-10 Tons/hour
Material	Stainless Steel
Weight	500-1000kg
Application	Pharmaceutical, Chemical, Food, And Other Industries

Voltage	380V
Features	High Efficiency, Easy Operation, Low Noise
Power	5-30 KW
Moisture Content Of Raw Material	≤15%
Granulation Rate	≥95%

Powder compaction granulator, Granulation equipment for powders, Granulation equipment for powders

Applications:

The machine's frequency of 50Hz makes it suitable for use in countries that have electricity that operates on 50Hz. The product comes with a 1-year warranty, which guarantees that the machine will function optimally for an extended period without incurring any significant maintenance costs.

The 25L lube oil filling production line is a versatile machine that can be used in various scenarios and occasions. Some of the common applications include:

Oil processing plants: The machine is perfect for oil processing plants that require a granulation equipment for powders. This machine is designed to handle powders with a granulation rate of ≥95%, making it an excellent choice for oil processing plants.

Lube oil manufacturers: The machine is perfect for lube oil manufacturers who need a powder encapsulation machine to fill lube oil accurately. The machine's precision and efficiency make it possible to produce high-quality lube oil products that meet customer demands.

Chemical manufacturing plants: The machine is also suitable for chemical manufacturing plants that require a powder granulating machine series. The machine can handle various chemicals and powders, making it a versatile tool in the chemical manufacturing industry.

Overall, the 25L lube oil filling production line is an excellent investment for any business that requires a reliable, efficient, and versatile filling machine. Its stainless steel material, PGS model, and 1-year warranty make it one of the best options in the market for anyone looking for a high-quality filling machine.

Customization:

Customize your 25L lube oil filling production line with our product customization services:

Moisture Content Of Raw Material: ≤15%

Application: Pharmaceutical, Chemical, Food, And Other Industries

Particle Size Of Finished Product: 0.5-3mm

Warranty: 1 Year

Features: High Efficiency, Easy Operation, Low Noise

Our product customization services also include:

Powder granulating machine series

Powder compaction granulator

Powder processing granulator

Support and Services:

The Lube Oil Filling Machine is a high-performance equipment designed for the accurate and efficient filling of various types of lubricating oils. It is equipped with advanced technology and features to ensure precise measurement, filling speed, and control, as well as ease of use and maintenance.

Our product technical support and services for the Lube Oil Filling Machine include:

Installation and commissioning

Operator training and support

Equipment troubleshooting and repair

Preventive maintenance and calibration

Software and firmware updates

Customization and integration

Technical documentation and manuals

Spare parts and accessories

We are committed to providing our customers with the highest level of quality, reliability, and satisfaction in all aspects of our product and services. Our experienced and knowledgeable team is always ready to assist you with any questions, concerns, or issues you may have.

Packing and Shipping:

Product Packaging:

The Lube Oil Filling Machine will be packaged in a sturdy wooden crate.

The crate will have foam padding to protect the machine during shipping.

All necessary components and accessories will be included in the crate.

The crate will be labeled with the product name and a handling label.

Shipping:

The Lube Oil Filling Machine will be shipped via a freight carrier.

The shipping cost will be calculated based on the destination and weight of the crate.

The estimated shipping time will be communicated to the customer upon purchase.

The customer will be provided with a tracking number to monitor the shipment.
