

25L Lube Oil Filling Production Line Automatic Transmission Gearbox

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Features: High Efficiency, Easy Operation, Low Noise
- Particle Size Of Finished Product: 0.5-3mm
- Application: Pharmaceutical, Chemical, Food, And Other Industries
- Dimension: 1200*800*1500mm
- Frequency: 50Hz
- Capacity: 1-10 Tons/hour
- Moisture Content Of Raw Material: ≤15%
- Material: Stainless Steel
- Highlight: Gearbox Lube Oil Filling Machine, Automatic Transmission Lube Oil Filling Machine

Product Description

25L Lube Oil Filling Production Line Automatic Transmission Gearbox Lubricating Oil Filling Machine

Product Description:

One of the standout features of this machine is its high efficiency. With a capacity of 1-10 tons/hour, it is capable of handling large volumes of lube oil products with ease. This means that production runs can be completed in a shorter period of time, allowing for faster turnaround times and increased productivity.

In addition to its high efficiency, the Lube Oil Filling Machine is also designed to be easy to operate. This means that even operators who are not familiar with the machine can quickly learn how to use it. The machine is also low noise, which makes it ideal for use in environments where noise levels need to be kept to a minimum.

The machine has a dimension of 1200*800*1500mm, making it compact and easy to fit into most production environments. It also has a weight range of 500-1000kg, which means that it can be easily moved around as needed.

Overall, the Lube Oil Filling Machine is a highly efficient, easy to operate, and low noise granulation equipment for powders that is perfect for use in the production of lube oil products. With its high capacity and compact design, it is an excellent choice for companies that need to complete large production runs in a short period of time. Whether you are in the market for a granulation equipment for powders, granulation equipment for powders, or a powder compaction granulator, the Lube Oil Filling Machine is an excellent choice for your needs.

Features:

Product Name: Lube Oil Filling Machine

Voltage: 380V

Model: PGS

Material: Stainless Steel

Dimension: 1200*800*1500mm

Particle Size Of Finished Product: 0.5-3mm

Powder processing granulator

Powder granulating machine series

Granulation machinery for powders

Technical Parameters:

Model	PGS
Voltage	380V
Material	Stainless Steel
Application	Pharmaceutical, Chemical, Food, And Other Industries
Capacity	1-10 Tons/hour
Particle Size Of Finished Product	0.5-3mm
Granulation Rate	≥95%
Moisture Content Of Raw Material	≤15%
Dimension	1200*800*1500mm
Warranty	1 Year

Applications:

The PGS model of this machine is designed to work with raw materials that have a moisture content of up to 15%, which means it can handle a wide variety of materials without any issues. The compact design of this machine ensures that it can fit easily into any production line, while its dimensions of 1200*800*1500mm make it easy to move around when needed.

In addition to its lube oil filling capabilities, this machine is also equipped with a powder spheroidization granulator, which can be used to granulate powders into the desired shape. This makes it an excellent choice for industries that require granulation equipment for powders, as it can help to improve the quality and consistency of the final product.

The 25L lube oil filling production line is also equipped with a powder compaction granulator, which can be used to compress powders into a solid form. This makes it an excellent choice for industries that require compacted powders, as it can help to improve the efficiency of their production processes.

Overall, the 25L lube oil filling production line is an excellent choice for anyone looking for a reliable, high-quality, and versatile filling machine. It is perfect for a wide variety of industries, including but not limited to the automotive, pharmaceutical, and chemical industries.

Customization:

Customize your 25L lube oil filling production line with our Product Customization Services! Our model PGS machine is suitable for powder processing granulation and powder agglomeration equipment. Choose from a power range of 5-30 KW and a weight range of 500-1000kg to fit your specific needs. The machine operates at a voltage of 380V and can handle raw materials with a moisture content of up to 15%. Contact us today to discuss your customization options!

Support and Services:

The Lube Oil Filling Machine is a high-quality piece of equipment designed to accurately fill containers with lubricating oil. Our technical support team is available to assist with any questions or issues you may encounter during installation, operation, or maintenance of the machine.

We also offer a variety of services to ensure that your machine is operating at peak performance, including:

Regular maintenance and calibration

On-site repairs and troubleshooting

Training for operators and maintenance personnel

Upgrades and retrofits to improve performance and efficiency

Our goal is to provide the highest level of support and service to our customers in order to maximize the lifespan and productivity of their equipment.

Packing and Shipping:

Product Name: Lube Oil Filling Machine

Description: This machine is designed to fill lube oil into bottles or containers with high accuracy and efficiency. It can handle various types of lube oils and has a user-friendly interface for easy operation.

Package Contents: Lube Oil Filling Machine, User Manual, Spare Parts Kit

Shipping Information: This product will be shipped within 2 business days after payment is received. We offer free standard shipping to the United States, Canada, and Europe. For other regions, please contact us for a shipping quote.
