

Feeding Type Upon Liquid Surface Filling Advanced IBC Liquid Filling Equipment

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: ISO9001
- Model Number: SG-IBC-10
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: TT, D/A, D/P
- Supply Ability: 10per year

Product Specification

- Air Consumption: 0.5m³/min
- Material Contact Parts: 304 Stainless Steel
- Suitable Materials: IBC
- Function: Filler Water-based Paint
- Warranty: 1 Year
- Type: Filling Machine
- Packing Material: Wood Packing
- Voltage: 220V/380V
- Highlight: **Advanced IBC Filling Machine,**
Liquid IBC Filling Machine,
Advanced ibc filling equipment

Product Description

Feeding Type Upon Liquid Surface Filling with Advanced IBC Liquid Filling Equipment

Product Description:

The IBC Filling Machine is a versatile piece of equipment that can be used for a variety of functions. It is perfect for filling water-based paint, but it can also be used for other liquids. This machine is designed to be easy to use and can be operated by anyone with minimal training. It is a great addition to any industrial facility that requires an IBC liquid dispensing system.

The IBC Filling Machine is designed to be durable and long-lasting. It is made from high-quality materials that can withstand the wear and tear of daily use. This machine is also designed to be easy to maintain, which means that it will require minimal upkeep over its lifetime. The IBC Filling Machine is available in two voltage options: 220V and 380V. This allows it to be used in a wide range of industrial settings, regardless of the voltage requirements of the facility. This machine is also designed to be compact and easy to move, which means that it can be easily transported from one location to another.

In summary, the IBC Filling Machine is a top-of-the-line piece of equipment that is perfect for any industrial facility that requires an IBC liquid bottling machine. It is a reliable and efficient IBC liquid filling equipment that can fill a range of 10 to 50 liters of water-based paint. This machine is designed to work with wood packing and is available in both 220V and 380V voltage options. It is a versatile and durable machine that is easy to use and maintain, making it a great addition to any industrial facility that requires an IBC liquid dispensing system.

Features:

Product Name: IBC Filling Machine

Bottle Type: Drum, Barrel, Can

Packing Material: Wood Packing

Suitable Materials: IBC

Application: Machinery & Hardware

Function: Filler Water-based Paint

Other Names: IBC liquid bottling machine, IBC liquid packaging machine, IBC liquid dosing equipment

Technical Parameters:

Product Attribute	Value
Filling Range	10-50 L
Material Contact Parts	304 Stainless Steel

Application	Machinery & Hardware
Feeding Type	Upon Liquid Surface Filling
Packing Material	Wood Packing
Function	Filler Water-based Paint
Warranty	1 Year
Air Consumption	0.5m³/min
Voltage	220V/380V
Suitable Materials	IBC

Applications:

With an air consumption of 0.5m³/min, this IBC filling machine is designed to optimize your production process. Its feeding type upon liquid surface filling ensures that your products are filled accurately and without spillage. Powered by electricity, this filling machine is easy to operate and maintain, ensuring that your production line runs smoothly and efficiently.

The IBC fully automatic open-fill-top filling machine is perfect for a wide range of product application occasions and scenarios. Its versatility makes it an ideal choice for use in the chemical industry, pharmaceutical industry, and food and beverage industry, among others. Whether you need to fill liquids, pastes, or viscous materials, this machine can handle it all.

This IBC liquid filling machine is also suitable for dosing applications, making it an excellent choice for precise and accurate filling requirements. Its precise dosing capabilities make it an ideal choice for use in the cosmetics and personal care industry, where precise measurements are critical.

In summary, the IBC fully automatic open-fill-top filling machine is a top-of-the-line intermediate bulk container filling system that is perfect for a wide range of product application occasions and scenarios. Whether you need an IBC liquid dosing equipment or a reliable filling machine for your production line, this machine is the perfect choice for you.

Customization:

Support and Services:

The IBC Filling Machine is a state-of-the-art product designed to meet the needs of customers in various industries. Our technical support team is available to assist with any issues or questions related to the installation, operation, or maintenance of the machine.

Our services include:

Installation and setup assistance

On-site training for operators and maintenance personnel

Regular maintenance and repair services

Online and phone support

Upgrades and retrofits to keep the machine up-to-date

We are committed to providing our customers with the best possible support and services to ensure the efficient and reliable operation of their IBC Filling Machine.

Packing and Shipping:

Product Packaging:

The IBC Filling Machine is packaged in a sturdy wooden crate to ensure safe transportation and delivery. The crate is designed to protect the machine from any damage during transit.

Shipping:

We offer worldwide shipping for the IBC Filling Machine. The machine will be shipped via sea freight or air freight depending on the customer's preference and location. Shipping charges will vary depending on the destination and shipping method chosen.

FAQ:

Q: What is the brand name of the filling machine?

A: The brand name of the filling machine is **IBC fully automatic open-fill-top filling machine**.

Q: Is the filling machine fully automatic?

A: Yes, the filling machine is fully automatic. It is designed to fill IBC containers without any manual operation.

Q: What is the type of containers that can be filled by the machine?

A: The filling machine can fill **open-fill-top** IBC containers.

Q: What is the capacity of the filling machine?

A: The filling machine has a **high capacity** and can fill large volumes of liquid in a short amount of time. The exact capacity depends on the specific model of the machine.

Q: Is the filling machine easy to operate?

A: Yes, the filling machine is designed to be **user-friendly and easy to operate**. The operator can control the filling process through a touch screen panel.
