

High Precision Ibc Filling Machine Fully Automatic

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: ISO9001
- Model Number: SG-IBC-10
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 3months
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Function: Filler Water-based Paint
- Feeding Type: Upon Liquid Surface Filling
- Material Contact Parts: 304 Stainless Steel
- Application: Machinery & Hardware
- Air Consumption: 0.5m³/min
- Voltage: 220V/380V
- Powder: Electric
- Suitable Materials: IBC
- Highlight: **High Precision ibc filling machine, ibc filling machine Fully Automatic, High Precision ibc filling equipment**

Product Description

High Precision IBC Fully Automatic Vertical Ton Barrel Filling and Capping Machinery Machine for Solvent/Paint/Chemical/Lubricating Oil/Liquid

Product Description:

Our IBC Filling Machine is made from high-quality 304 stainless steel, ensuring its durability and longevity. This material is widely known for its excellent resistance to corrosion and rust, making it the perfect choice for parts that come into contact with the liquid being filled. Our IBC Filling Machine uses an efficient feeding system that allows for upon liquid surface filling. This means that there is no need for complicated and time-consuming pre-filling processes, which saves you both time and money.

The IBC Filling Machine is specifically designed to fill drums, barrels, and cans, making it a versatile choice for businesses involved in the packaging of different types of liquids. Whether you need to fill 100-liter drums or 200-liter barrels, our IBC Filling Machine can handle the job with ease.

Our IBC Filling Machine comes with wood packing, which ensures that the machine is protected during shipping and delivery. This means that you can rest assured that your machine will arrive at your doorstep in excellent condition, ready for immediate use.

The IBC Filling Machine is a liquid dosing equipment that is perfect for businesses involved in the packaging of water-based paint. It is a liquid bottling machine that is easy to use, efficient, and reliable, making it the perfect choice for any business looking to streamline its liquid packaging process.

In summary, our IBC Filling Machine is a versatile, durable, and efficient solution for your liquid packaging needs. Whether you are in the paint industry or any other industry that requires liquid packaging, our IBC liquid packaging machine is the perfect choice for you. So why wait? Contact us today and let us help you take your liquid packaging process to the next level!

Features:

Product Name: IBC Filling Machine

Function: Filler Water-based Paint

Suitable Materials: IBC

Powder: Electric

Voltage: 220V/380V

Type: Filling Machine

IBC liquid bottling machine

Intermediate bulk container filling system

IBC liquid dispensing system

Technical Parameters:

Function	Filler Water-based Paint
Filling Range	10-50 L
Packing Material	Wood Packing
Suitable Materials	IBC
Type	Filling Machine
Feeding Type	Upon Liquid Surface Filling

Material Contact Parts	304 Stainless Steel
Air Consumption	0.5m³/min
Voltage	220V/380V
Powder	Electric

Applications:

This IBC liquid packaging machine has a filling range of 10-50 L, allowing you to efficiently fill containers of different sizes. It also has an air consumption of 0.5m³/min, which means it operates with minimal air usage and is an eco-friendly option for your business. The IBC liquid dosing equipment is a fully automatic system that can be used to fill water-based paint, making it ideal for businesses in the paint and coating industry. With its precision filling technology, you can be assured that your products will be filled accurately and with minimal waste.

This IBC liquid dispensing system can be used in various occasions and scenarios, including manufacturing plants, warehouses, and distribution centers. It can also be used by businesses that need to package and fill their own products, such as paint manufacturers, chemical producers, and oil and lubricant companies.

Overall, the IBC fully automatic open-fill-top filling machine is a reliable and efficient filling machine that can help streamline your liquid packaging process. With its precision filling technology and versatility, it is a must-have for businesses that need to fill containers quickly and accurately.

Customization:

Support and Services:

The IBC Filling Machine product technical support and services include:

- Installation and commissioning
- Operator training
- Preventive maintenance
- Calibration and validation
- Spare parts and consumables
- Technical support via phone or email
- On-site repairs and troubleshooting
- Upgrades and retrofits

Packing and Shipping:

Product Packaging:

The IBC filling machine will be securely packaged in a sturdy cardboard box.

All necessary components and accessories will be included in the package.

Appropriate labeling and handling instructions will be placed on the outside of the box.

Shipping:

The IBC filling machine will be shipped via a reputable courier service.

Shipping costs will be calculated based on the destination and weight of the package.

The customer will be provided with a tracking number to monitor the progress of their shipment.

Delivery times may vary depending on the destination and any customs requirements.

FAQ:

Q: What is the brand name of this filling machine?

A: The brand name is IBC fully automatic open-fill-top filling machine.

Q: Is this machine fully automatic?

A: Yes, it is a fully automatic machine.

Q: Does this machine have an open-fill-top?

A: Yes, it has an open-fill-top feature.

Q: What type of containers can this machine fill?

A: This machine can fill IBC (Intermediate Bulk Containers) containers.

Q: What is the capacity of this filling machine?

A: The capacity of this filling machine depends on the size of the IBC container being filled.
