

Intermediate Bulk Container Filling System For Water Based Paint Filling Efficiency

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: ISO9001
- Model Number: SG-IBC-10
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: woodenbox
- Delivery Time: 3months
- Payment Terms: TT, D/A, D/P
- Supply Ability: 10per year

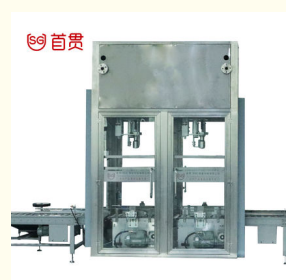

Product Specification

- Suitable Materials: IBC
- Warranty: 1 Year
- Type: Filling Machine
- Application: Machinery & Hardware
- Function: Filler Water-based Paint
- Powder: Electric
- Voltage: 220V/380V
- Feeding Type: Upon Liquid Surface Filling
- Highlight: Intermediate Bulk Container Filling System, Water Based Paint Filling System, high Efficiency ibc filling machine

Product Description

Intermediate Bulk Container Filling System for Water-based Paint Filling Efficiency

Product Description:

The IBC Filling Machine is designed with a filling range of 10-50 L, making it a versatile choice for businesses that require a range of filling capacities. Additionally, this machine is designed with a feeding type of Upon Liquid Surface Filling, making it easy to use and highly efficient.

This IBC liquid packaging machine is suitable for a range of materials, including IBC containers. It is an ideal choice for businesses that require reliable and efficient IBC liquid filling equipment. With its durable construction and high-quality materials, the IBC Filling Machine is built to last and provide businesses with a reliable and efficient solution for their IBC filling needs.

Features:

Product Name: IBC Filling Machine
 Application: Machinery & Hardware
 Powder: Electric
 Function: Filler Water-based Paint
 Voltage: 220V/380V
 Warranty: 1 Year
 Intermediate bulk container filling system
 IBC liquid packaging machine
 IBC liquid bottling machine

Technical Parameters:

Warranty	1 Year
Bottle Type	Drum, Barrel, Can
Function	Filler Water-based Paint
Voltage	220V/380V
Packing Material	Wood Packing
Application	Machinery & Hardware
Material Contact Parts	304 Stainless Steel
Air Consumption	0.5m³/min
Suitable Materials	IBC
Powder	Electric

Applications:

The IBC fully automatic open-fill-top filling machine is a powerful and versatile tool that can be used in a variety of scenarios. It is particularly useful for filling IBCs with liquids that have a high viscosity or are difficult to handle. With its precise filling capabilities, this machine ensures that your IBCs are filled accurately and efficiently, reducing waste and increasing productivity. Whether you need to fill multiple IBCs in a short amount of time or are looking for a reliable IBC liquid dispensing system, this filling machine is the perfect choice. Thanks to its low air consumption of 0.5m³/min, the IBC fully automatic open-fill-top filling machine is an eco-friendly choice for your business. It is also available in both 220V and 380V, making it suitable for a wide range of electrical systems. Additionally, this filling machine is packaged in sturdy wood packing, ensuring that it is delivered to you in perfect condition.

When it comes to product application occasions and scenarios, the IBC fully automatic open-fill-top filling machine is ideal for a wide range of industries and applications. Whether you are involved in the production of chemicals, food and beverages, pharmaceuticals, or any other liquid-based product, this filling machine is the perfect choice for your operations. It is particularly useful for filling IBCs with liquids that have a high viscosity or are difficult to handle, such as oils, syrups, and adhesives.

In conclusion, if you are looking for a reliable and efficient IBC liquid filling equipment, the IBC fully automatic open-fill-top filling machine is the perfect choice. With its precise filling capabilities, low air consumption, and versatile applications, this Intermediate bulk container filling system is an essential tool for any business involved in the production of liquid-based products. Don't wait any longer, invest in this IBC liquid dispensing system today!

Customization:

Material Contact Parts: 304 Stainless Steel

Warranty: 1 Year

Suitable Materials: IBC

Filling Range: 10-50 L

Bottle Type: Drum, Barrel, Can

With our product customization services, you can have the perfect IBC liquid packaging machine for your production line. Whether you need an intermediate bulk container filling system or a specialized machine for a specific type of container, we can help you design and build the ideal solution. Trust in our high-quality materials and expert craftsmanship to deliver a reliable and efficient filling system that meets your unique requirements. Contact us today to get started!

Support and Services:

Our IBC filling machines are designed and manufactured to the highest quality standards to ensure reliable and efficient operation. In case of any technical issues or questions, our dedicated technical support team is available to provide assistance and troubleshooting. We also offer various services, including installation, training, maintenance, and repair to ensure that your IBC filling machine operates optimally at all times.

Packing and Shipping:

Product Packaging:

The IBC Filling Machine will be packaged in a sturdy cardboard box with foam padding to prevent damage during shipping. The machine will be disassembled, with each component securely wrapped and labeled for easy reassembly.

Shipping:

The IBC Filling Machine will be shipped via a reliable carrier service, such as Fedex or DHL, to ensure safe and prompt delivery. Shipping costs will vary depending on the destination and delivery speed selected by the customer.

FAQ:

A: The brand name of this machine is IBC fully automatic open-fill-top filling machine.

Q: Does this machine require manual intervention during filling?

A: No, this machine is fully automatic and does not require manual intervention during filling.

Q: What type of containers can be filled using this machine?

A: This machine is designed to fill Intermediate Bulk Containers (IBCs).

Q: What is the filling capacity of this machine?

A: The filling capacity of this machine varies depending on the size of the IBC being filled, but it is capable of filling up to 300 IBCs per hour.

Q: Is this machine easy to operate and maintain?

A: Yes, this machine is designed to be user-friendly and easy to operate and maintain. It comes with a user manual and training can be provided upon request.
