

Electric Automatic Drum Filling Machine 220V / 380V

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: ISO9001
- Model Number: SG-IBC-10
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: TT, D/A, D/P
- Supply Ability: 10per year

Product Specification

- Application: Machinery & Hardware
- Voltage: 220V/380V
- Packing Material: Wood Packing
- Feeding Type: Upon Liquid Surface Filling
- Suitable Materials: IBC
- Air Consumption: 0.5m³/min
- Powder: Electric
- Type: Filling Machine
- Highlight: **Electric Automatic Drum Filling Machine, Automatic Drum Filling Machine 220V, Automatic Drum Filling Machine 380V**

Product Description

IBC Multifunctional Fully Automatic Bottling Vertical Filling and Capping Machinery Machine for Solvent/Paint/Chemical/Lubricating Oil/Liquid

Product Description:

The IBC Filling Machine is built with material contact parts made of high-quality 304 stainless steel. This ensures that the filling process is hygienic and safe for the materials being filled. The use of 304 stainless steel also makes the machine highly durable and long-lasting, ensuring that it can withstand the rigors of daily use.

When it comes to packing, the IBC Filling Machine is designed to use wood packing material. This ensures that the machine is properly protected during transportation and delivery, minimizing the risk of damage during transit.

As a filling machine, the IBC Filling Machine is specifically designed for filling IBC containers with liquids. It is an efficient and fast way to fill large containers with liquid, making it an ideal choice for businesses that need to fill large volumes of liquid quickly.

The main function of the IBC Filling Machine is to fill water-based paint and other liquids into IBC containers. With its precise and accurate filling system, the machine ensures that the containers are filled to the correct level, minimizing waste and ensuring that each container is filled to the same level.

The IBC Filling Machine is also known as an IBC liquid bottling machine. This is because it is specifically designed to fill IBC containers with liquids, making it an essential piece of equipment for any business that needs to fill large volumes of liquid on a regular basis.

In summary, the IBC Filling Machine is a highly efficient and accurate liquid filling equipment that is ideal for filling IBC containers with water-based paint and other liquids. With its high-quality 304 stainless steel material contact parts, wood packing material and precise filling system, the machine is designed to provide reliable and consistent performance, making it an essential piece of equipment for any business that needs to fill large volumes of liquid regularly.

Features:

Product Name: IBC Filling Machine

Type: Filling Machine

Air Consumption: 0.5m³/min

Voltage: 220V/380V

Material Contact Parts: 304 Stainless Steel

Warranty: 1 Year

This IBC liquid filling equipment is a top-of-the-line IBC liquid packaging machine, designed to meet the needs of various industries. Its air consumption of 0.5m³/min ensures maximum efficiency while its 304 stainless steel material contact parts provide optimal hygiene and safety. The IBC Filling Machine comes with a 1-year warranty, making it a reliable and durable choice for your filling needs.

Technical Parameters:

Voltage	220V/380V
Bottle Type	Drum, Barrel, Can
Application	Machinery & Hardware
Feeding Type	Upon Liquid Surface Filling
Function	Filler Water-based Paint
Warranty	1 Year
Powder	Electric
Filling Range	10-50 L
Type	Filling Machine
Packing Material	Wood Packing

Applications:

One of the key features of this product is its fully automatic operation, which allows for a hassle-free and efficient filling process. The IBC liquid packaging machine is also equipped with an open-fill-top mechanism, making it easy to load and unload the containers. This product is made with high-quality materials and comes with a 1-year warranty, ensuring that businesses get the most value out of their investment.

The IBC liquid dispensing system is perfect for a variety of industries that require consistent and precise filling of liquid products. This includes the paint industry, where accurate dosing of water-based paint is crucial to ensure uniform color and quality of the final product. The IBC filling machine can also be used in the chemical and pharmaceutical industries, where the precise dosing of liquid products is critical to ensuring safety and efficacy.

Businesses that invest in the IBC filling machine can expect to see an increase in productivity and efficiency, due to the product's fully automatic operation and accurate dosing capabilities. Additionally, the wood packing material used to package the product ensures that it is delivered to the customer in pristine condition.

In conclusion, the IBC fully automatic open-fill-top filling machine is a must-have for businesses that require reliable and efficient IBC liquid dosing equipment. Its versatility and precision make it an ideal choice for a variety of industries, including the paint, chemical, and pharmaceutical industries. With its high-quality construction and 1-year warranty, businesses can be confident in their investment and expect to see a positive impact on their bottom line.

Customization:

Powder: Electric

Filling Range: 10-50 L

Suitable Materials: IBC

Air Consumption: 0.5m³/min

Function: Filler Water-based Paint

With our customization services, you can create an intermediate bulk container filling system that meets your exact requirements.

Whether you need an IBC liquid dispensing system or an IBC liquid bottling machine, we can help. Contact us today to learn more about our product customization services.

Support and Services:

The IBC Filling Machine is a state-of-the-art product designed to meet the specific needs of our customers. Our technical support and services for this product include:

Installation and commissioning

Operator training

Maintenance and repair services

24/7 technical support

Customized solutions to meet unique requirements

Our team of experienced technicians and engineers are dedicated to ensuring that your IBC Filling Machine operates at peak performance and efficiency, minimizing downtime and maximizing productivity. Contact us for more information on our technical support and services.

Packing and Shipping:

Product Packaging:

Heavy-duty cardboard box

Bubble wrap for protection

User manual included
Shipping:
Ships within 2 business days
Free shipping within the continental U.S.
International shipping available at an additional cost
Tracking number provided

FAQ:

Q: What is the brand name of this filling machine?

A: The brand name of this filling machine is IBC fully automatic open-fill-top filling machine.

Q: Can this filling machine handle different types of products?

A: Yes, this filling machine can handle a wide range of products, including liquids, pastes, creams, and gels.

Q: What is the maximum capacity of this filling machine?

A: The maximum capacity of this filling machine is 1000 liters.

Q: Is this filling machine easy to operate?

A: Yes, this filling machine is fully automatic and easy to operate. It comes with a user-friendly interface and can be operated by a single person.

Q: Can this filling machine be customized to meet specific requirements?

A: Yes, this filling machine can be customized to meet specific requirements. Our team can work with you to design a filling solution that meets your unique needs.
