

380V Upon Liquid Surface Ibc Filling Machine 304 Stainless Steel

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: ISO9001
- Model Number: SG-IBC-10
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: TT, D/A, D/P
- Supply Ability: 10per year

Product Specification

- Feeding Type: Upon Liquid Surface Filling
- Material Contact Parts: 304 Stainless Steel
- Packing Material: Wood Packing
- Voltage: 220V/380V
- Application: Machinery & Hardware
- Suitable Materials: IBC
- Warranty: 1 Year
- Air Consumption: 0.5m³/min
- Highlight: 380V ibc filling machine,
Upon Liquid Surface ibc filling machine,
304 Stainless Steel ibc filling equipment

Product Description

**IBC Fully Automatic Vertica Gravity Weighing Filling and Capping Machinery
Machine for Solvent/Paint/Chemical/Lubricating Oil/Liquid**

Our Product

Product Description:

With this IBC liquid dispensing system, you can streamline your filling process and increase productivity. The machine provides a precise filling process, ensuring that each container is filled to the correct level, reducing the risk of spillage and waste.

The IBC filling machine is designed to handle IBC containers of various sizes and materials, making it a versatile solution for a range of applications. This filling machine is suitable for use with a wide range of materials, including liquids, pastes and gels, making it an ideal choice for a range of industries.

The IBC filling machine is a high-quality, durable machine that is built to withstand the demands of industrial use. It is easy to operate and maintain, with a user-friendly interface that ensures efficient and safe operation. The machine is also designed to be compact and easy to move, making it a great choice for businesses with limited space.

This IBC liquid bottling machine comes with a 1-year warranty, providing you with peace of mind and ensuring that you can rely on your investment for years to come. Whether you're looking to improve your filling process, increase productivity, or simply streamline your operations, the IBC filling machine is the perfect choice.

Features:

Product Name: IBC Filling Machine

Feeding Type: Upon Liquid Surface Filling

Filling Range: 10-50 L

Function: Filler Water-based Paint

Packing Material: Wood Packing

Type: Filling Machine

IBC liquid bottling machine

IBC liquid dispensing system

IBC liquid dosing equipment

Technical Parameters:

| | |
|------------------------|-----------------------------|
| Warranty | 1 Year |
| Powder | Electric |
| Filling Range | 10-50 L |
| Application | Machinery & Hardware |
| Voltage | 220V/380V |
| Material Contact Parts | 304 Stainless Steel |
| Air Consumption | 0.5m ³ /min |
| Function | Filler Water-based Paint |
| Type | Filling Machine |
| Feeding Type | Upon Liquid Surface Filling |

Applications:

Thanks to its wood packing material, the IBC filling machine ensures that your products are securely packaged and protected during transport. Its compatibility with various bottle types such as drums, barrels, and cans makes it a versatile IBC liquid packaging machine, perfect for businesses with multiple product lines.

Furthermore, the IBC fully automatic open-fill-top filling machine boasts an air consumption rate of only 0.5m³/min, making it an energy-efficient and cost-effective option for businesses.

Whether you're in the chemical, automotive, or manufacturing industry, the IBC liquid packaging machine is the perfect solution for large-scale liquid packaging. Its fully automatic operation ensures that your business can package products quickly and efficiently.

So why wait? Invest in the IBC filling machine today and take your liquid packaging process to the next level!

Customization:

Choose from a voltage of 220V/380V to suit your electrical needs, and select upon liquid surface filling for your preferred feeding type. Our packing material is wood packing, ensuring the safe transport and delivery of your IBC liquid filling equipment.

Trust in our IBC liquid packaging machine to provide exceptional filling performance, tailored to your specific requirements.

Support and Services:

Our IBC Filling Machine product comes with comprehensive technical support and services to ensure that your machine operates at peak performance. Our team of experienced technicians is available to assist with installation, setup, and troubleshooting. We also offer regular maintenance and calibration services to keep your machine running smoothly. In addition, we provide training and documentation to ensure that your staff is fully trained and knowledgeable about the operation and maintenance of the machine. If you have any questions or concerns, please do not hesitate to contact us.

Packing and Shipping:

Product Packaging for IBC Filling Machine:
Heavy-duty wooden crate for safe transportation and storage.
Bubble wrap and foam padding to protect the machine during transit.
User manual and installation guide included inside the crate.
Shipping Information:
Shipping will be arranged by the seller using a reputable carrier.
Shipping time and cost will vary depending on the destination.
Tracking information will be provided once the machine is shipped.
The buyer is responsible for any import taxes or customs duties.

FAQ:

Q. What is the brand name of the IBC filling machine?

A. The brand name of the filling machine is IBC fully automatic open-fill-top filling machine.

Q. What type of filling does the IBC filling machine perform?

A. The IBC filling machine performs open-fill-top filling.

Q. Is the IBC filling machine fully automatic?

A. Yes, the IBC filling machine is fully automatic.

Q. What is the capacity of the IBC filling machine?

A. The capacity of the IBC filling machine depends on the model you choose. Please refer to the product specifications for more information.

Q. Is the IBC filling machine suitable for filling hazardous materials?

A. Yes, the IBC filling machine is suitable for filling hazardous materials as it is designed to meet the highest safety standards.
