

10-50 L Ibc Filling Machine / Equipment For Chemical Industry

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: ISO9001
- Model Number: SG-IBC-10
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: woodenbox
- Delivery Time: 3months
- Payment Terms: TT, D/A, D/P
- Supply Ability: 10per year

Product Specification

- Filling Range: 10-50 L
- Material Contact Parts: 304 Stainless Steel
- Air Consumption: 0.5m³/min
- Function: Filler Water-based Paint
- Voltage: 220V/380V
- Packing Material: Wood Packing
- Suitable Materials: IBC
- Powder: Electric
- Highlight: 10-50 L ibc filling machine, chemical industry ibc filling machine, chemical industry ibc filling equipment

Product Description

IBC Fully Automatic Vertical Filling and Capping Sealing Packaging Machinery Machine for Solvent/Paint/Chemical/Lubricating Oil

Product Description:

The IBC Filling Machine is designed to be highly efficient, with an air consumption of only 0.5m³/min. This makes it an ideal choice for companies that are looking for a cost-effective solution for their liquid packaging needs. The machine is also designed to be easy to operate, with a user-friendly interface that makes it simple to adjust the filling settings and monitor the progress of the filling process. The IBC Filling Machine is a versatile and flexible solution that can be used to fill a wide range of materials, including water-based paint. This makes it an ideal choice for companies that need to package and distribute liquid products quickly and efficiently. The machine is also designed to be highly accurate, ensuring that each container is filled to the exact specifications required.

The IBC Filling Machine is designed to be durable and long-lasting, with a sturdy construction that can withstand even the most demanding of environments. The machine is also designed to be easy to maintain, with a simple and straightforward maintenance schedule that ensures it remains in top condition for many years to come.

The IBC Filling Machine is also designed to be easy to transport and store, with a compact design that allows it to be easily moved from one location to another. The machine is also supplied with wood packing, which provides additional protection during transport and storage.

In summary, the IBC Filling Machine is a versatile and reliable solution for companies that need to fill IBC containers quickly and efficiently. With its high-quality construction, user-friendly interface, and versatile capabilities, this machine is ideal for use in a wide range of industries. Whether you are filling drums, barrels, or cans, the IBC Filling Machine is the perfect choice for your liquid packaging needs.

Features:

Product Name: IBC Filling Machine
Feeding Type: Upon Liquid Surface Filling
Application: Machinery & Hardware
Air Consumption: 0.5m³/min
Material Contact Parts: 304 Stainless Steel
Warranty: 1 Year

Our IBC liquid filling equipment, also known as an intermediate bulk container filling system, is a top-of-the-line machine that is perfect for the machinery and hardware industry. With an air consumption of only 0.5m³/min, this IBC liquid bottling machine is both efficient and cost-effective. Plus, all material contact parts are made of durable 304 stainless steel, ensuring the longevity of your investment. To give you peace of mind, we also offer a 1-year warranty on our IBC Filling Machine.

Technical Parameters:

Filling Range	10-50 L
Voltage	220V/380V
Suitable Materials	IBC
Air Consumption	0.5m³/min
Powder	Electric
Application	Machinery & Hardware
Packing Material	Wood Packing
Type	Filling Machine
Bottle Type	Drum, Barrel, Can
Warranty	1 Year

Applications:

The IBC liquid packaging machine is perfect for packaging large quantities of liquids, such as water-based paint. The machine features an electric powder for efficient filling, ensuring that the product is filled accurately and quickly. The machine is easy to use and maintain, making it perfect for various production environments.

The IBC liquid bottling machine is suitable for filling drums, barrels, and cans, making it an ideal choice for companies that package liquids in these containers. The machine's open-fill-top design makes it easy to fill various types of containers, ensuring that your production process runs smoothly and efficiently.

The IBC fully automatic open-fill-top filling machine is perfect for a wide range of applications and scenarios. Here are a few examples:

Paint and Coatings Industry - The IBC liquid bottling machine is perfect for filling water-based paint and other coatings. The machine's accuracy and speed ensure that the product is filled efficiently and accurately.

Chemical Industry - The IBC liquid packaging machine is an ideal choice for filling various liquids in the chemical industry. The machine's stainless steel material contact parts guarantee that the product is filled in a hygienic and safe manner.

Food and Beverage Industry - The IBC fully automatic open-fill-top filling machine is perfect for filling various liquids in the food and beverage industry. The machine's accuracy and speed make it an ideal choice for companies that produce large quantities of liquid products.

The IBC fully automatic open-fill-top filling machine is shipped in wood packaging, ensuring that it arrives at your location in perfect condition. This machine is an excellent investment for companies that require a reliable, efficient, and accurate liquid filling machine.

Customization:

Support and Services:

Our IBC Filling Machine is a highly advanced and efficient system designed to fill intermediate bulk containers with liquids or powders. To ensure the proper functioning of the product, we offer technical support and services to our customers.

Our technical support team is available to assist with any product-related questions, troubleshooting, and maintenance procedures. We also offer on-site training for operators and maintenance personnel to ensure the safe and efficient operation of the machine.

In addition, we offer a range of services to keep your IBC Filling Machine running smoothly, including preventative maintenance schedules, spare parts ordering, and repair services. Our team of experienced technicians can quickly diagnose and repair any issues to minimize downtime and keep your production line running smoothly.

Packing and Shipping:

Product Packaging:
Wooden crate packaging for safe transportation
Bubble wrap and foam cushioning to protect the machine during transit
User manual and installation guide included

Shipping:
Ships within 2-3 business days after order confirmation
Delivery time varies depending on the shipping destination

Shipping costs will be calculated at checkout

FAQ:

Q: What is the brand name of this filling machine?

A: The brand name of this filling machine is IBC fully automatic open-fill-top filling machine.

Q: Is this filling machine fully automatic?

A: Yes, this filling machine is fully automatic.

Q: What type of IBC containers can this machine fill?

A: This machine can fill various types of IBC containers, such as plastic and metal containers.

Q: Can this machine handle hazardous liquids?

A: Yes, this machine can handle hazardous liquids with the appropriate safety measures in place.

Q: What is the maximum filling volume of this machine?

A: The maximum filling volume of this machine is 1000 liters.
