

Solvent / Paint / Chemical / Lubricating Oil / Liquid Ibc Filling Equipment

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG-IBC-10
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: TT, D/A, D/P
- Supply Ability: 10per year

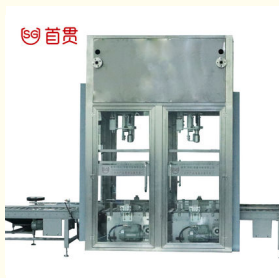

Product Specification

- Feeding Type: Upon Liquid Surface Filling
- Type: Filling Machine
- Packing Material: Wood Packing
- Filling Range: 10-50 L
- Bottle Type: Drum, Barrel, Can
- Voltage: 220V/380V
- Powder: Electric
- Air Consumption: 0.5m³/min
- Highlight: Lubricating Oil ibc filling equipment,
Chemical ibc filling equipment,
Chemical ibc filling machine

Product Description

High Quality IBC Fully Automatic Vertica Bucket Filling and Capping Machinery Machine for Solvent/Paint/Chemical/Lubricating Oil/Liquid

Product Description:

This IBC liquid packaging machine is a durable piece of equipment that is built to withstand the rigors of industrial use. Its robust construction ensures that it can handle filling operations with ease, making it an ideal choice for businesses that require high-volume, consistent filling of IBC containers.

The IBC Filling Machine is a versatile piece of equipment that can be used for a wide range of applications. Its suitability for filling water-based paint makes it a popular choice for paint manufacturers and suppliers, but it can also be used for filling other liquid materials that are compatible with IBC containers.

With its easy-to-use interface and simple controls, the IBC Filling Machine is a user-friendly piece of equipment that can be operated by anyone with minimal training. Its intuitive design ensures that filling operations can be carried out quickly and efficiently, reducing downtime and increasing productivity.

Overall, the IBC Filling Machine is a reliable, efficient, and cost-effective option for businesses that require consistent and accurate filling of IBC containers. Whether you are a paint manufacturer or supplier, or you need a versatile liquid packaging machine for other applications, the IBC Filling Machine is a top choice that will deliver the results you need.

Features:

Product Name: IBC Filling Machine

Bottle Type: Drum, Barrel, Can

Function: Filler Water-based Paint

Air Consumption: 0.5m³/min

Packing Material: Wood Packing

Warranty: 1 Year

IBC liquid filling equipment

Technical Parameters:

Technical Parameters	Specifications
Product Name	IBC Liquid Bottling Machine
Product Type	Intermediate Bulk Container Filling System
Bottle Type	Drum, Barrel, Can
Warranty	1 Year
Material Contact Parts	304 Stainless Steel
Function	Filler Water-based Paint
Packing Material	Wood Packing
Suitable Materials	IBC
Air Consumption	0.5m³/min
Filling Range	10-50 L
Feeding Type	Upon Liquid Surface Filling

Applications:

The IBC fully automatic open-fill-top filling machine is a filling machine that is specifically designed for IBCs. Its unique design allows for easy and efficient filling of liquid products into IBCs. This filling machine is fully automatic, allowing for a seamless and efficient filling process. It is perfect for businesses that require a high level of precision and accuracy in their filling processes.

One of the key features of the IBC fully automatic open-fill-top filling machine is its suitability for a range of materials. Whether you are working with liquids or semi-liquids, this filling machine is the perfect solution for your needs. It is also ideal for use with a range of IBCs, making it a versatile and flexible addition to your production line.

When it comes to packing materials, the IBC fully automatic open-fill-top filling machine is designed with convenience in mind. It comes with wood packing, ensuring that your machine is protected during transportation and storage. This also makes it easy to move the machine around your factory or warehouse as needed.

The IBC fully automatic open-fill-top filling machine is the ultimate IBC liquid packaging machine. Its advanced features and high-quality construction make it the perfect choice for businesses looking to streamline their production processes and improve efficiency. Whether you are working with liquids or semi-liquids, this filling machine is sure to meet your needs.

Customization:

Support and Services:

Our IBC filling machines are designed with state-of-the-art technology to deliver high-quality and efficient filling solutions. We offer comprehensive technical support and services to ensure that our customers receive the best experience with our products. Our services include:

- Installation and commissioning
- Training of operators and maintenance personnel
- Regular maintenance and servicing
- Repairs and replacement of parts
- Technical consultations
- Upgrades and modifications to existing machines

Our team of experienced technicians and engineers are available to provide technical support and services both remotely and on-site, ensuring minimal downtime and maximum productivity for our customers.

Packing and Shipping:

Product Packaging:

The IBC filling machine will be securely packed in a sturdy cardboard box to prevent any damages during transit.

The machine components will be individually wrapped and cushioned to prevent any scratches or dents.

The packaging box will have clear labeling indicating the product name, model number, and handling instructions.

Shipping:

The IBC filling machine will be shipped via a reliable shipping carrier to the destination provided by the customer.

The shipping cost will be determined by the customer's location, shipping speed, and delivery preferences.

The customer will be provided with a tracking number to monitor the delivery status of the product.

The estimated delivery time will depend on the shipping carrier and the customer's location.

FAQ:

Q: What is the brand name of the filling machine?

A: The brand name of the filling machine is IBC fully automatic open-fill-top filling machine.

Q: What type of containers can be filled with the IBC filling machine?

A: The IBC filling machine can fill Intermediate Bulk Containers (IBCs) of various sizes ranging from 200 to 1000 liters.

Q: Is the filling process automated?

A: Yes, the filling process is fully automated, which means it reduces the need for manual intervention and ensures accuracy and consistency in filling.

Q: What is the filling speed of the IBC filling machine?

A: The filling speed of the IBC filling machine is adjustable, ranging from 300 to 1200 liters per hour, depending on the viscosity of the product being filled.

Q: What type of products can be filled with the IBC filling machine?

A: The IBC filling machine is suitable for filling a wide range of liquid and semi-liquid products, including chemicals, food and beverage products, pharmaceuticals, and cosmetics.
