

## IBC Fully Automatic Vertical Linear Filling And Capping Labeling Machinery Machine

Our Product Introduction

for more products please visit us on [sg-packs.com](http://sg-packs.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: ISO9001
- Model Number: SG-IBC-10
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: TT, D/A, D/P
- Supply Ability: 10per year

### Product Specification

- Packing Material: Wood Packing
- Material Contact Parts: 304 Stainless Steel
- Filling Range: 10-50 L
- Function: Filler Water-based Paint
- Bottle Type: Drum, Barrel, Can
- Type: Filling Machine
- Air Consumption: 0.5m³/min
- Warranty: 1 Year
- Highlight: Fully Automatic ibc filling machine, Vertical ibc filling machine, Linear ibc filling equipment

## Product Description

### IBC Fully Automatic Vertical Linear Filling and Capping Labeling Machinery Machine for Solvent/Paint/Chemical/Lubricating Oil/Liquid

#### Product Description:

Our IBC liquid dosing equipment is built to handle a wide range of materials, making it suitable for a variety of industries and applications. The filling range of our IBC filling machine is 10-50 L, which ensures that you can fill your IBC containers quickly and efficiently.

The material contact parts of our IBC filling machine are made from 304 stainless steel, which ensures that our IBC liquid dispensing system is both durable and hygienic. Our IBC filling machine is designed to be easy to clean and maintain, ensuring that it is always in optimal condition for use.

Our IBC filling machine comes with wood packing, providing an extra layer of protection during transportation and ensuring that your machine arrives in perfect condition. Our IBC liquid dispensing system is designed with your convenience in mind, ensuring that it is easy to operate and maintain.

Our IBC filling machine is a top-of-the-line filling machine that is designed to meet the needs of any business that requires a reliable and efficient IBC liquid bottling machine. With our IBC liquid dosing equipment, you can be confident that your products will be filled with precision and accuracy.

Overall, our IBC filling machine is the perfect solution for any business that needs a high-quality IBC liquid dispensing system. From its durable construction to its easy-to-use interface, our IBC liquid bottling machine is designed to meet the needs of any business that requires a reliable and efficient filling machine.

#### Features:

Product Name: IBC Filling Machine

Type: Filling Machine  
Bottle Type: Drum, Barrel, Can  
Function: Filler Water-based Paint  
Air Consumption: 0.5m³/min  
Voltage: 220V/380V

Technical Parameters:

Filling Range	10-50 L
Function	Filler Water-based Paint
Voltage	220V/380V
Application	Machinery & Hardware
Feeding Type	Upon Liquid Surface Filling
Packing Material	Wood Packing
Material Contact Parts	304 Stainless Steel
Bottle Type	Drum, Barrel, Can
Air Consumption	0.5m³/min
Warranty	1 Year

Applications:

Designed for the machinery and hardware industry, the IBC filling machine is perfect for the bottling of various liquids. Its feeding type, upon liquid surface filling, ensures that there is no spillage or wastage of any product. This makes it an excellent choice for businesses looking to save on production costs and increase efficiency.

The IBC liquid bottling machine is an ideal solution for companies that require a reliable and efficient way to bottle their products. It can be used in a variety of scenarios, including filling bottles with cleaning liquids, oils, and other industrial fluids. Its fully automatic open-fill-top feature makes it easy to operate and saves time during production.

In addition to its bottling capabilities, the IBC filling machine can also be used as a liquid dosing equipment. Its precise dosing system ensures that the correct amount of liquid is dispensed into each bottle, reducing errors and increasing accuracy.

Overall, the IBC filling machine is an excellent choice for businesses in the machinery and hardware industry. Its durability, efficiency, and versatility make it a valuable asset to any production line. Whether it is used as an IBC liquid bottling machine or an IBC liquid dosing equipment, this product is sure to deliver exceptional results.

Customization:

1. IBC liquid filling equipment  
2. Intermediate bulk container filling system  
Feeding Type: Upon Liquid Surface Filling  
Voltage: 220V/380V  
Material Contact Parts: 304 Stainless Steel  
Air Consumption: 0.5m³/min  
Bottle Type: Drum, Barrel, Can  
Trust our expertise to provide you with the best IBC liquid dosing equipment for your specific needs.

Support and Services:

Our IBC Filling Machine product comes with comprehensive technical support and services, which include:

Installation and commissioning services

Operator training

Regular maintenance and calibration

24/7 technical support hotline

Remote troubleshooting and diagnosis

Spare parts and consumables supply

Our experienced technical team will work closely with you to ensure that your IBC Filling Machine is operating at its optimal performance and efficiency.

Packing and Shipping:

Product Packaging:

The IBC filling machine will be securely packed in a wooden crate to prevent any damage during transit.

All components and parts will be properly labeled for easy identification.

The packaging will include an instruction manual for easy assembly and operation.

Shipping:

The IBC filling machine will be shipped via a trusted shipping company to ensure timely and safe delivery.

The shipping cost will be determined based on the destination and mode of transportation.

The customer will be provided with a tracking number to monitor the shipment's progress.

## FAQ:

A: The IBC filling machine has a maximum capacity of 1000 liters.

2. Q: What types of products can be filled using the IBC filling machine?

A: The IBC filling machine can handle both liquid and semi-solid products such as chemicals, food, and pharmaceuticals.

3. Q: Is the IBC filling machine easy to operate?

A: Yes, the IBC filling machine is fully automatic and designed for easy operation, requiring minimal training to use.

4. Q: Is the IBC filling machine customizable?

A: Yes, the IBC filling machine can be customized to meet specific product and production requirements.

5. Q: What is the warranty on the IBC filling machine?

A: Please refer to the warranty information provided in the product manual or contact our customer service team for more information.
