

High Accuracy 5L Barrel Liquid Filling And Capping Machine For Water Based Paint

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Liquid Filling And Capping Machine
- Certification: CE
- Model Number: SG20F
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT
- Supply Ability: 1set/week

Product Specification

- Suitable For: Liquid Products
- Filling Nozzles: 4/6/8/12
- Weight: 2000kg
- Control System: PLC
- Air Pressure: 0.4-0.6MPa
- Product: 5L Barrel Liquid Filling And Capping Machine
- Power Supply: 220V/50Hz
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Highlight: High Accuracy barrel filling machines,
5L barrel filling machines,
Water Based Paint barrel filling machines

Product Description

Product Description:

One of the key features of the Chemical Filling Machines is its ability to deliver precision and accuracy when filling liquid products. For example, the Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine is designed to ensure that your products are filled to the exact amount you require, every time. This means that you can minimize waste and reduce the risk of inaccuracies or errors in your production process.

The Chemical Filling Machines also come with an air pressure range of 0.4-0.6MPa, which helps to optimize the filling process and ensure that the product is dispensed smoothly and evenly. This is especially important when working with delicate or valuable liquids, where any damage or loss can have serious consequences.

Another advantage of the Chemical Filling Machines is that they are designed to work with a variety of products, including the 5L Barrel Liquid Filling And Capping Machine. This makes it easier for you to streamline your production processes and achieve maximum efficiency in your operations.

In summary, the Chemical Filling Machines are a versatile and reliable choice for any business that needs to fill, pour, and cap liquids accurately and efficiently. With their advanced control system, precision filling nozzles, and air pressure optimization, they offer a range of benefits that can help you streamline your production processes and achieve optimal results.

Features:

Product Name: Chemical Filling Machines

Suitable For: Liquid Products

Air Pressure: 0.4-0.6MPa

Power Supply: 220V/50Hz

Product: 5L Barrel Liquid Filling And Capping Machine

Weight: 2000kg

Features:

Pouring and capping systems

Hydraulic liquid filling machines

Technical Parameters:

Technical Parameters	Details
Filling Nozzles	4/6/8/12
Product	5L Barrel Liquid Filling And Capping Machine
Suitable For	Liquid Products
Weight	2000kg
Power Supply	220V/50Hz
Control System	PLC
Filling Accuracy	Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
Air Pressure	0.4-0.6MPa

Applications:

The 5L Barrel Liquid Filling And Capping Machine is a great choice for those who require a compact and efficient filling machine. It has a minimum order quantity of 1 and comes packaged in a sturdy wooden box for added safety during transportation. The machine weighs 2000kg and requires an air pressure of 0.4-0.6MPa to operate at maximum efficiency.

This liquid filling and capping machine is not only easy to use but also easy to maintain. It comes with pouring and capping systems that make the filling process a breeze. Its power supply is 220V/50Hz, making it compatible with most power sources.

The Liquid Filling And Capping Machine can be used in a wide range of scenarios and occasions. It is perfect for filling and capping different types of liquids such as oils, paints, and chemicals. The machine can be used in industries such as food and beverage, pharmaceutical, cosmetic, and chemical manufacturing.

Overall, the Liquid Filling And Capping Machine is a reliable and efficient choice for anyone looking for a high-precision hydraulic liquid filling machine. Its pouring and capping systems make it easy to use, and its compact design makes it perfect for small to medium-sized businesses. If you're looking for a high-quality liquid filling machine, this is the product for you!

Customization:

Our hydraulic liquid filling machines are powered by a 220V/50Hz power supply and operate at an air pressure of 0.4-0.6MPa. They are suitable for liquid products and come with 4/6/8/12 filling nozzles for a range of production capacities. This pouring and capping system is perfect for 5L barrel liquid filling and capping. Contact us today to customize this product to fit your needs!

Support and Services:

Our Chemical Filling Machines are designed and manufactured to meet the specific needs of our customers. We offer a range of technical support and services to ensure that our customers get the most out of our products:

Installation and commissioning services

Operator training and technical training

24/7 technical support hotline

Regular maintenance and calibration services

Remote diagnostic and troubleshooting services

Spare parts and consumables supply

We are committed to providing our customers with prompt and reliable technical support and services to help them maintain the efficiency and productivity of their operations.

Packing and Shipping:

Product Packaging:

The chemical filling machines will be packaged in sturdy cardboard boxes.

The boxes will be sealed with tape to ensure they are secure during shipping.

Inside each box, the machine will be wrapped in protective foam to prevent any damage during transit.

A user manual will be included in each box.

Shipping:

The chemical filling machines will be shipped via a reliable shipping company.

The shipping cost will be calculated based on the weight and destination of the package.

The estimated delivery time will be provided to the customer upon purchase.

Tracking information will be provided to the customer once the package has been shipped.

FAQ:

Q: What is the brand name of the chemical filling machine?

A: The brand name is Liquid Filling and Capping Machine.

Q: Is this product certified?

A: Yes, this product is CE certified.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1.

Q: How is the product packaged?

A: The product is packaged in a wooden box.

Q: What are the payment terms for this product?

A: The payment terms for this product are TT (telegraphic transfer).
