

200L Single Head Semi Automatic Essential Oil Liquid Water Vertical Filling Machinery

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Suitable For: Liquid Products
- Weight: 2000kg
- Control System: PLC
- Air Pressure: 0.4-0.6MPa
- Power Supply: 220V/50Hz
- Filling Nozzles: 4/6/8/12
- Product: 200L Barrel Liquid Filling And Capping Machine
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Highlight: 200L essential oil filling machines, Single Head essential oil filling machines, Semi Automatic essential oil filling machines

Product Description

[200L Single Head Semi-Automatic High Quality Essential Oil Liquid Water Vertical Filling Machine Machinery](#)

Product Description:

Our Chemical Filling Machine is designed with advanced pouring and capping systems, ensuring that every barrel is filled correctly and sealed tightly. This ensures that the liquid products inside are safe and secure during transportation and storage. The machine is powered by hydraulic liquid filling machines, which ensures that the filling process is smooth and accurate. The air pressure required to operate the machine is 0.4-0.6MPa, which is easily achievable in most industrial settings. Our 5L Barrel Liquid Filling and Capping Machine is a must-have for any chemical company looking to increase their production efficiency while maintaining the highest quality standards. With its advanced pouring and capping systems, hydraulic liquid filling machines, and customizable nozzle options, this machine is the perfect addition to any production line.

Features:

Product Name: Chemical Filling Machines

Suitable For: Liquid Products

Weight: 2000kg

Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine

Air Pressure: 0.4-0.6MPa

Power Supply: 220V/50Hz

Features:

Hydraulic liquid filling machines

Liquid up-filling machinery

Liquid up-filling machinery

Technical Parameters:

Filling Accuracy	Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
Air Pressure	0.4-0.6MPa
Power Supply	220V/50Hz
Suitable For	Liquid Products
Product	200L Barrel Liquid Filling And Capping Machine
Weight	2000kg
Control System	PLC
Filling Nozzles	4/6/8/12

Our hydraulic liquid filling machines, liquid up-filling machinery, and pouring and capping systems are built to these specifications.

Applications:

The filling accuracy of this machine is top-notch. It is designed specifically for water-based paint volumetric liquid filling. The control system of this machine is PLC, which ensures efficient and effective operation. The machine is also equipped with pouring and capping systems that make it easy to fill and seal chemical liquids.

The air pressure required to operate this machine is between 0.4-0.6MPa. The machine is available in different models, with 4, 6, 8, or 12 filling nozzles. This allows you to choose the model that best suits your needs.

This machine is ideal for a wide range of applications. It can be used in chemical plants, pharmaceutical companies, food and beverage factories, and more. The pouring and capping systems make it easy to fill and seal a variety of chemical liquids, including oils, solvents, and other viscous liquids. The machine's high accuracy ensures that the liquid is filled to the exact amount required, minimizing waste and maximizing efficiency.

Overall, the Liquid Filling and Capping Machine is an excellent choice for anyone looking for a reliable and efficient filling machine. Its high accuracy, sturdy construction, and easy-to-use pouring and capping systems make it an ideal choice for a wide range of applications. Order your Liquid Filling and Capping Machine today and experience the convenience and efficiency it offers. Don't waste any more time filling and sealing chemical liquids manually. Get your hands on this machine and start filling and sealing with ease!

Customization:

Support and Services:

Our Chemical Filling Machines are designed to provide efficient and accurate filling of various types of chemicals. We offer technical support and services to ensure that our customers get the most out of their machines.

Our services include:

Installation and set-up

Training for operators and maintenance personnel

Regular maintenance and calibration

Repair and replacement of parts

24/7 technical support

We understand the importance of keeping your production line running smoothly and efficiently. That's why we are committed to providing top-notch technical support and services to our customers.

Packing and Shipping:

Product Packaging:

Our Chemical Filling Machines are packaged with extra care and attention to ensure safe transportation. Each machine is wrapped in a protective layer of foam and then placed inside a sturdy cardboard box. The box is then sealed and labeled with the product name, model number, and other relevant information.

Shipping:

We offer worldwide shipping for our Chemical Filling Machines. Depending on your location, we will use the most reliable shipping carrier to ensure prompt and safe delivery of your order. Shipping costs will vary based on the destination and weight of the package. Please allow 1-3 business days for processing your order before it is shipped.

FAQ:

Q: What is the brand name of the chemical filling machine?

A: The brand name of the chemical filling machine is Liquid Filling And Capping Machine.

Q: Is the machine certified?

A: Yes, the machine is certified with CE certification.

Q: What is the minimum order quantity for the machine?

A: The minimum order quantity for the machine is 1.

Q: What is the packaging detail of the chemical filling machine?

A: The machine is packaged in wooden boxes.

Q: What are the payment terms for purchasing the chemical filling machine?

A: The payment terms for purchasing the chemical filling machine are TT.
