

## Chemical Liquid Filling Machine Series For Water Based Paint Pouring And Capping Systems With 12 Filling Nozzles

Our Product Introduction

for more products please visit us on sg-packs.com

### Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

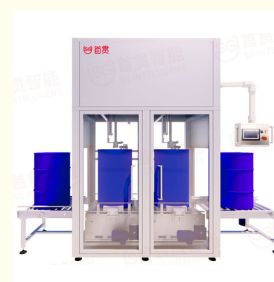

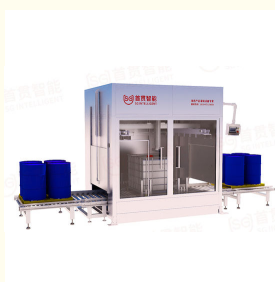

### Product Specification

- Power Supply: 220V/50Hz
- Product: 200L Barrel Liquid Filling And Capping Machine
- Filling Nozzles: 4/6/8/12
- Air Pressure: 0.4-0.6MPa
- Weight: 2000kg
- Suitable For: Liquid Products
- Control System: PLC
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Highlight: Paint Pouring chemical filling machines, 12 Nozzles chemical filling machines, 12 Nozzles chemical filling equipment

## Product Description

### Chemical Liquid Filling Machine Series For Water Based Paint Pouring And Capping Systems With 12 Filling Nozzles

Model: SG-5L

#### Product Description:

With 4 to 12 filling nozzles, this machine is perfect for high-speed production lines that require fast and efficient pouring and capping systems. The machine is built to deliver accurate fills, ensuring that every product is filled consistently, eliminating costly overfills or underfills.

One of the key features of this machine is its versatility. It can handle a wide range of liquid products, including food and beverage products, cosmetics, pharmaceuticals, and chemicals. The machine is also designed to work with different types of containers, including bottles, jars, and cans.

The 5L Barrel Liquid Filling And Capping Machine is built to last. It is made of high-quality materials that can withstand the rigors of continuous use in a production line. The machine is also easy to clean and maintain, ensuring that it remains in top condition for years to come.

This liquid filling machine is powered by a 220V/50Hz power supply, making it easy to integrate into most production lines. Its advanced control system ensures that the machine operates smoothly and efficiently, reducing downtime and maximizing productivity.

The 5L Barrel Liquid Filling And Capping Machine is the perfect choice for businesses that require a reliable and efficient liquid filling and capping system. With its high-speed filling and capping capabilities, versatility, and ease of use, this machine is a must-have for any production line that requires accurate and efficient filling and capping of liquid products.

#### Features:

Product Name: Chemical Filling Machines

Suitable For: Liquid Products

Product: 200L Barrel Liquid Filling And Capping Machine

Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine

Weight: 2000kg

Control System: PLC

Features:

Hydraulic liquid filling machines

Technical Parameters:

Air Pressure	0.4-0.6MPa
Control System	PLC
Suitable For	Liquid Products
Product	200L Barrel Liquid Filling And Capping Machine
Filling Nozzles	4/6/8/12
Weight	2000kg
Filling Accuracy	Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
Power Supply	220V/50Hz

Applications:

The Liquid Filling And Capping Machine is a highly versatile and efficient liquid up-filling machinery that is designed to meet the needs of various industries. It is certified with CE, which guarantees its quality and safety for use in various scenarios. The minimum order quantity for this product is 1, and it comes packaged in a wooden box for safe transportation. Payment terms for the machine is TT.

The machine operates at an air pressure of 0.4-0.6MPa and is equipped with 4/6/8/12 filling nozzles, which makes it suitable for use in various applications. It is a pouring and capping system that has a weight of 2000kg, which makes it stable and durable for long-term use. Filling accuracy is guaranteed with the Chemical Liquid Filling Machine Series for Water Based Paint Volumetric Liquid Filling Machine

The Liquid Filling And Capping Machine is suitable for filling a wide range of liquid products, such as beverages, pharmaceuticals, cosmetics, and chemicals. It is highly efficient and can handle high-volume production with ease, making it ideal for use in large-scale manufacturing plants. It is also easy to operate and maintain, which makes it a popular choice for small businesses and start-ups.

Some of the product application occasions and scenarios for the Liquid Filling And Capping Machine include:

- Pharmaceutical companies that require accurate and efficient filling of liquid medications.
- Cosmetic companies that need to fill and cap various liquid products like shampoos, conditioners, and lotions.
- Beverage companies that require high-speed filling of drinks like juices, water, and soft drinks.
- Chemical companies that need to fill and cap hazardous chemicals like acids, solvents, and bases.
- Small businesses and start-ups that require an easy-to-use and affordable liquid up-filling machinery for their production needs.

The Liquid Filling And Capping Machine is a reliable and efficient option for various liquid filling needs, and its versatility makes it a popular choice for many industries. Its high accuracy and easy maintenance make it a superior option to other liquid up-filling machinery on the market.

Customization:

Support and Services:

The Chemical Filling Machines product comes with comprehensive technical support and services to ensure smooth operations and maximum efficiency. Our team of experienced technicians and engineers are available to provide on-site installation, training, and maintenance, as well as remote technical assistance via phone or email.

In addition, we offer customized solutions to meet your specific needs, including custom machine configurations and software integrations. Our goal is to provide you with a seamless and hassle-free experience, from initial setup to ongoing support.

Our technical support and services also include regular equipment inspections and calibration, as well as replacement parts and repairs as needed. We are committed to keeping your Chemical Filling Machine running at peak performance and minimizing downtime.

Contact us for more information about our technical support and services for the Chemical Filling Machines product.

Packing and Shipping:

Product Packaging:

Each chemical filling machine will be securely packed in a sturdy cardboard box.

The machine will be wrapped with bubble wrap to ensure its safety during transportation.

The box will be labeled with the product name, model number, and handling instructions.

Shipping:

Shipping will be fulfilled by a trusted courier service.

The estimated delivery time will be communicated to the customer upon order confirmation.

The customer will be provided with a tracking number to track the status of their shipment.

Any shipping damages or issues should be reported to us immediately upon receipt of the package.

FAQ:

**Q:** What is the brand name of this filling machine?  
**A:** The brand name of this filling machine is Liquid Filling And Capping Machine.

**Q:** Does this filling machine have any certifications?  
**A:** Yes, this filling machine is CE certified.

**Q:** What is the minimum order quantity for this filling machine?

**A:** The minimum order quantity for this filling machine is 1.

**Q:** How is this filling machine packaged for shipping?

**A:** This filling machine is packaged in a wooden box for safe shipping.

**Q:** What are the payment terms for purchasing this filling machine?

**A:** The payment terms for purchasing this filling machine are TT (Telegraphic Transfer).
