

200L Double Head Essential Oil Paint Chemical Liquid Filling Machine Semi Automatic

Our Product Introduction

for more products please visit us on sg-packs.com

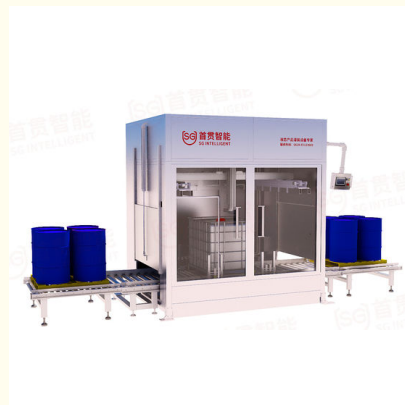

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

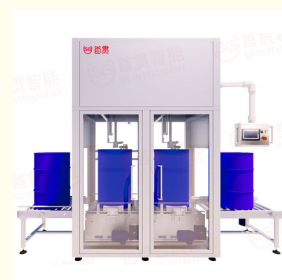

Product Specification

- Power Supply: 220V/50Hz
- Suitable For: Liquid Products
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Air Pressure: 0.4-0.6MPa
- Weight: 2000kg
- Product: 200L Barrel Liquid Filling And Capping Machine
- Filling Nozzles: 4/6/8/12
- Control System: PLC
- Highlight: 200L chemical filling machines, Double Head chemical filling machines, Double Head chemical filling equipment

Product Description

200L Double-Station Semi-Automatic Chemical Paint Liquid Oil Barrel Filling Explosion-Proof Anti-Corrosion Vertical Packing Sealing Machinery Machine

Model: SG-200L

Product Description:

With a weight of 2000kg, this filling machine is built with sturdy materials, ensuring its longevity and durability. It also comes with a PLC control system that helps to make the filling process more precise and efficient.

The Chemical Liquid Filling Machine Series can be customized with 4, 6, 8, or 12 filling nozzles, depending on the specific needs of your business. This allows for a faster filling process, which can save time and money.

One of the key features of this machine is its ability to work with pouring and capping systems. This means that the filling process can be done seamlessly and efficiently, without the need for additional machinery.

Overall, the Chemical Filling Machines product is an excellent choice for businesses that need to fill liquid chemical products with accuracy and efficiency. With its sturdy construction, PLC control system, and customizable filling nozzles, this machine is a reliable and efficient solution for any business.

Features:

Product Name: Chemical Filling Machines

Control System: PLC

Filling Nozzles: 4/6/8/12

Air Pressure: 0.4-0.6MPa

Weight: 2000kg

Power Supply: 220V/50Hz

Our hydraulic liquid filling machines are equipped with a PLC control system, which allows for precise and efficient filling of chemical products. With options for 4, 6, 8, or 12 filling nozzles, our machines can handle a wide range of production needs. The air pressure control ensures a consistent and accurate fill, while the pouring and capping systems make the process streamlined and efficient. With a weight of 2000kg and power supply of 220V/50Hz, our Chemical Filling Machines are a reliable solution for your chemical production needs.

Technical Parameters:

Suitable For:	Liquid Products
Power Supply:	220V/50Hz
Weight:	2000kg
Filling Accuracy:	Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
Filling Nozzles:	4/6/8/12
Product:	200L Barrel Liquid Filling And Capping Machine
Control System:	PLC
Air Pressure:	0.4-0.6MPa

Applications:

One of the key features of this machine is its pouring and capping systems. These systems are designed to work together seamlessly, allowing for a streamlined and efficient filling process. The hydraulic liquid filling machines ensure that the product is dispensed accurately and without spills, while the capping system ensures that the product is securely sealed.

The Liquid Filling And Capping Machine is suitable for a wide range of liquid products, including water-based paints, chemical products, and other liquids. With its volumetric liquid filling machine, this product provides accurate and consistent filling results every time. The filling accuracy of this machine is unparalleled, making it an ideal choice for businesses that require precise filling of their products. This machine is available with 4, 6, 8, or 12 filling nozzles, making it suitable for businesses of all sizes. Its control system is PLC-based, providing reliable and efficient operation. The product is easy to use and maintain, with minimal training required.

The Liquid Filling And Capping Machine is also designed with durability and longevity in mind. It is constructed using high-quality materials and is built to last. It is packaged in a sturdy wooden box for safe transport and delivery.

Whether you are filling 5L barrels or other containers, the Liquid Filling And Capping Machine is the perfect solution for your liquid up-filling machinery needs. It is available for order with a minimum order quantity of 1 and payment terms of TT. Get yours today and experience the benefits of accurate and efficient liquid filling.

Customization:

Support and Services:

Our Chemical Filling Machines are designed for accuracy, reliability and ease of use. We offer comprehensive technical support and services to ensure that your machine operates at peak performance.

Our services include:

Installation and setup of your machine

Maintenance and repair services to keep your machine running smoothly

Training for your staff to ensure safe and efficient operation of the machine

Technical support to answer any questions or concerns you may have

We are committed to providing exceptional customer service and ensuring your satisfaction with our products. Contact us for more information on our technical support and services.

Packing and Shipping:

Product Packaging:

Each machine will be packed in a sturdy wooden crate to ensure safe transportation.

The crate will be marked with the product name, quantity, and any other necessary information.

Inside the crate, the machine will be securely fastened and protected with foam padding and plastic wrap.

Shipping:

Shipping will be arranged by our company and will be delivered to the customer's specified location.

Customers will be provided with a tracking number to monitor the shipment's progress.

Delivery times may vary depending on the customer's location and shipping method.

FAQ:

Q: What is the brand name of the chemical filling machine?

A: The brand name of our chemical filling machine is Liquid Filling And Capping Machine.

Q: Is the chemical filling machine certified?

A: Yes, the chemical filling machine is CE certified.

Q: What is the minimum order quantity for the chemical filling machine?

A: The minimum order quantity for the chemical filling machine is 1.

Q: How is the chemical filling machine packaged?

A: The chemical filling machine is packaged in a wooden box.

Q: What are the payment terms for the chemical filling machine?

A: The payment terms for the chemical filling machine are TT (Telegraphic Transfer).
