

Ex 200L 200kg 150kg Motor Oil Chemical Liquid Weight Filling Machine PLC

Our Product Introduction

for more products please visit us on sg-packs.com

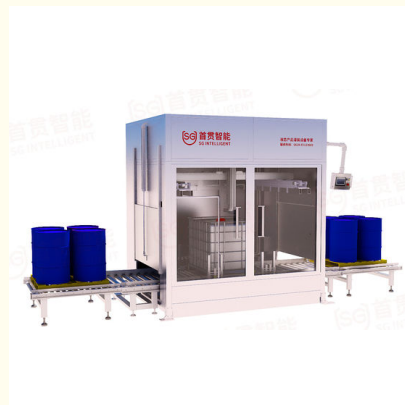

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Power Supply: 220V/50Hz
- Filling Nozzles: 4/6/8/12
- Air Pressure: 0.4-0.6MPa
- Product: Ex 200L 200kg 150kg Motor Oil Chemical Liquid Weight Filling Machine
- Weight: 2000kg
- Suitable For: Liquid Products
- Control System: PLC
- Highlight: 200L chemical filling machines, Liquid chemical filling machines, PLC chemical filling machines

Product Description

Ex 200L 200kg 150kg Motor Oil Chemical Liquid Weight Filling Machine

Product Description:

The liquid up-filling machinery comes with 4, 6, 8, or 12 filling nozzles, depending on your specific needs. This allows for a faster and more efficient filling process, which is essential in industries that require high-volume production. Additionally, the liquid up-filling machinery is equipped with a PLC control system, which ensures that the entire process is automated and easy to control.

The liquid up-filling machinery is also designed with air pressure in mind. It requires 0.4-0.6MPa of air pressure to function properly, which ensures that it can handle a wide range of different products and fill them with ease. The liquid up-filling machinery is also incredibly durable and reliable, thanks to its sturdy construction and high-quality materials. It weighs approximately 2000kg, which ensures that it stays in place during operation and is not easily damaged.

The liquid up-filling machinery is incredibly easy to use, even for those who are not familiar with hydraulic liquid filling machines. It comes with a user-friendly interface that can be easily navigated, even by those who are not tech-savvy. Additionally, the liquid up-filling machinery is incredibly easy to clean and maintain, thanks to its simple design and detachable parts.

In conclusion, if you are looking for a high-quality hydraulic liquid filling machine that is reliable, efficient, and easy to use, then the 5L Barrel Liquid Filling And Capping Machine is the perfect choice for you. With its fast and efficient filling process, automated control system, and durable construction, it is sure to meet all of your liquid filling needs.

Features:

Product Name: Chemical Filling Machines

Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine

Weight: 2000kg
Air Pressure: 0.4-0.6MPa
Product: 5L Barrel Liquid Filling And Capping Machine
Suitable For: Liquid Products
Features:
Hydraulic liquid filling machines
Liquid up-filling machinery
Pouring and capping systems

Technical Parameters:

Weight	2000kg
Product	200L Barrel Liquid Filling And Capping Machine
Air Pressure	0.4-0.6MPa
Filling Nozzles	4/6/8/12
Control System	PLC
Filling Accuracy	Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
Power Supply	220V/50Hz
Suitable For	Liquid Products

Applications:

The Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine is a revolutionary product that allows for the precise and accurate filling of liquid materials. This product is perfect for use in industries where accuracy and precision are critical, such as the chemical industry. With its advanced control system, this product provides a high degree of accuracy and reliability. The hydraulic liquid filling machines are another exceptional product from the Liquid Filling And Capping Machine brand. These machines offer a fast and efficient way to fill different types of liquids, including chemicals, food, and pharmaceuticals. These machines are easy to operate and maintain, making them ideal for small and medium-sized businesses.

The Liquid Filling And Capping Machine is CE certified, meaning it meets the highest standards of quality and safety. The minimum order quantity for this product is 1, and it comes packaged in a sturdy wooden box to ensure safe and secure shipping. Payment terms for this product are TT.

This product weighs 2000kg, making it sturdy and durable. The PLC control system makes it easy to operate and control, while the 220V/50Hz power supply makes it easy to use in different locations. The air pressure for this product is 0.4-0.6MPa, making it suitable for use in different environments.

Customization:

Hydraulic liquid filling machines
Liquid up-filling machinery
Pouring and capping systems

This product is CE certified and has a minimum order quantity of 1 unit. It comes in a wooden box packaging and our payment terms are TT. The air pressure required for this machine is 0.4-0.6MPa and it is suitable for liquid products. Our specific product is the 5L Barrel Liquid Filling And Capping Machine with a power supply of 220V/50Hz. It has a filling accuracy of our Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine.

Support and Services:

Our Chemical Filling Machines are designed to provide reliable and efficient filling of chemical products. We offer technical support and services to ensure that our machines operate at their best performance and meet our customers' needs.

Our services include:

- Installation and commissioning of the machines
- Training for machine operation and maintenance
- Regular preventive maintenance checks
- Repair and replacement of parts
- 24/7 technical support
- Customization of machines to fit specific customer requirements

We are committed to providing excellent customer service and ensuring that our customers get the most out of their investment in our Chemical Filling Machines.

Packing and Shipping:

Product Packaging:
The chemical filling machines are carefully packed in a sturdy cardboard box.
The box is sealed with strong adhesive tape to prevent any damage during transportation.
Inside the box, the machines are wrapped in bubble wrap to provide extra protection.
User manual and necessary accessories are included in the package.
Shipping:

We offer free shipping to all continental addresses within the United States.
Orders are processed within 24 hours of receipt and shipped via standard ground shipping.
Customers can expect to receive their orders within 3-5 business days.
For international orders, shipping charges will apply and delivery time may vary depending on the destination.

FAQ:

Q: What is the brand name of the chemical filling machine?

A: The brand name of the chemical filling machine is Liquid Filling And Capping Machine.

Q: Is the machine certified?

A: Yes, the machine is certified with CE certification.

Q: What is the minimum order quantity for the machine?

A: The minimum order quantity for the machine is 1 unit.

Q: What are the packaging details for the machine?

A: The machine is packaged in a wooden box for safe transportation.

Q: What are the payment terms for the machine?

A: The payment terms for the machine are TT (Telegraphic Transfer).
