

Semi Automatic Explosion Proof Filling Machine For Filling 200L Phosphoric Acid / Curing Agent / Liquid Coating

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Filling Nozzles: 4/6/8/12
- Weight: 2000kg
- Power Supply: 220V/50Hz
- Control System: PLC
- Air Pressure: 0.4-0.6MPa
- Suitable For: Liquid Products
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Product: Semi-Automatic Explosion-Proof Filling Machine For Filling 200L Phosphoric Acid/Curing Agent/Liquid Coating
- Highlight: Semi Automatic Explosion Proof Filling Machine , 200L Explosion Proof Filling Machine ,

Product Description

Semi-Automatic Explosion-Proof Filling Machine for Filling 200L Phosphoric Acid/Curing Agent/Liquid Coating

Product Description:

Our hydraulic liquid filling machines come with a weight of 2000kg, making it stable and sturdy enough to handle various filling operations. The machine's control system is operated by a programmable logic controller (PLC) that ensures accurate and consistent filling.

These machines come with 4, 6, 8, or 12 filling nozzles, depending on the requirements of your business. You can choose the one that suits your business needs best. Moreover, these machines are suitable for filling various liquid products such as shampoo, oil, and other liquids that are used in the food and beverage industry.

Our hydraulic liquid filling machines are designed to be user-friendly, easy to operate, and maintain. They are made from high-quality materials and are built to last. These machines are designed to prevent any spillage, providing a seamless pouring and capping system. In conclusion, our hydraulic liquid filling machines are the best solution to your filling needs. They come with the latest technology, are efficient, reliable, and durable. Whether you are a small business owner or a large corporation, our hydraulic liquid filling machines are designed to meet your needs and take your business to the next level.

Features:

Product Name: Chemical Filling Machines

Power Supply: 220V/50Hz

Product: 5L Barrel Liquid Filling And Capping Machine

Air Pressure: 0.4-0.6MPa

Control System: PLC

Filling Nozzles: 4/6/8/12

This liquid up-filling machinery is a hydraulic liquid filling machine that comes equipped with pouring and capping systems, making it the perfect solution for your chemical filling needs.

Technical Parameters:

Control System:	PLC
Product:	200L Barrel Liquid Filling And Capping Machine
Filling Accuracy:	Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
Power Supply:	220V/50Hz
Air Pressure:	0.4-0.6MPa
Weight:	2000kg
Filling Nozzles:	4/6/8/12
Suitable For:	Liquid Products

Applications:

The Liquid Filling And Capping Machine has 4/6/8/12 filling nozzles, and it is perfect for filling 5L barrel liquid products. This machine is ideal for companies that need to fill and cap a large number of products quickly and efficiently. The air pressure for this machine is 0.4-0.6MPa, and the power supply is 220V/50Hz.

This liquid up-filling machinery is suitable for a variety of occasions and scenarios. It is perfect for use in factories, warehouses, and other industrial settings. The Liquid Filling And Capping Machine is particularly useful for companies that need to fill and cap a large number of products quickly and efficiently. This pouring and capping system can be used for a variety of liquid products, including oil, water, and other fluids.

The Liquid Filling And Capping Machine is perfect for companies that need to fill and cap a large number of products quickly and efficiently. This hydraulic liquid filling machine is ideal for use in factories, warehouses, and other industrial settings. Whether you need to fill and cap oil, water, or other fluids, this machine is designed to make the process quick and efficient.

Customization:

Support and Services:

Our Chemical Filling Machines come with comprehensive technical support and services to ensure that your production process runs smoothly.

We offer:

On-site installation and training

24/7 technical support

Regular maintenance and service programs

Upgrades and retrofits

Spare parts and replacement components

Customization and engineering services

Our team of experienced technicians is always ready to assist you with any issues or questions you may have. Contact us today to learn more about our support and services.

Packing and Shipping:

Product Packaging for Chemical Filling Machines:

Each machine will be packed in a sturdy wooden crate for maximum protection during shipping and handling.

The crate will be securely fastened with metal straps and labeled with handling instructions and product information.

A packing slip will be included inside the crate to ensure accurate inventory and easy identification of the machine.

Shipping Information for Chemical Filling Machines:

Our machines will be shipped via freight carrier to ensure safe and efficient delivery.

Shipping costs will be calculated based on the weight and destination of the machine.

Customers will be provided with a tracking number once the machine has been shipped.

Please note that shipping times may vary depending on the destination and any unforeseen delays that may occur during transit.

FAQ:

Answer: The brand name of the filling machine is Liquid Filling And Capping Machine.

2) Is the machine certified?

Answer: Yes, the machine is certified with CE certification.

3) What is the minimum order quantity for the machine?

Answer: The minimum order quantity for the machine is 1.

4) How is the machine packaged for shipping?

Answer: The machine is packaged in a wooden box for safe shipping.

5) What are the payment terms for purchasing the machine?

Answer: The payment terms for purchasing the machine are TT (Telegraphic Transfer).
