

Customizable IBC Filling Machine For Your Bulk Liquid Filling Needs

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: IBC fully automatic open-fill-top filling machine
- Certification: ISO9001
- Model Number: SG-IBC-10
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 10per year

Product Specification

- Product Name: Customizable IBC Filling Machine For Your Bulk Liquid Filling Needs
- Suitable Materials: IBC
- Usage: Industrial Liquid Filling
- Filling Material: Liquid
- Packing Material: Wood Packing
- Automatic Grade: Automatic
- Suitable Container: IBC Tank
- Voltage: 220V/380V
- Highlight: Customizable IBC Filling Machine, IBC Filling Machine 380V, Liquid Filling ibc filling equipment

Product Description

Customizable IBC Filling Machine for Your Bulk Liquid Filling Needs

Product Description:

This project adopts the filling method under the liquid surface, which can be applied to the filling of various liquid materials; it needs to adjust the pneumatic ball valve and spray gun, which can improve the filling speed and ensure the filling accuracy at the same time; reduce the residual liquid after filling. Drip and leakage; the gas collecting hood avoids the volatile gas generated during the filling process and effectively protects the operator. During operation, the IBC barrel is automatically transported to the right under the spray gun; after detecting that the barrel is in place, the spray gun enters the barrel mouth, the empty barrel is automatically peeled, and then filled at two speeds accurately; when the filling reaches the set value, the filling is over, and the spray gun Automatically lift to the outside of the barrel, and a cycle is completed.

Product Parameters

Filling Quantity	≤2000kg	Barrel Specification	≤ diameter 1200* height 1200mm
Filling Index Value	1g,10g,20g	Filling Speed	130-200 kg / Min
Power	AC380/220 50HZ	Air Supply	0.6 MPa
Weight(kg)	900	Overall Dimension (mm)	1200*1300*1800

Applications:

With its advanced technology, this filling machine guarantees user-friendly operation and provides high accuracy when filling your containers. Its filling range is adjustable, meaning you can set it to your desired level and get consistent results every time.

This filling machine is suitable for a wide range of applications, including but not limited to:

Pharmaceutical industries

Chemical industries

Food and beverage industries

Cosmetic industries

Moreover, it is perfect for filling all types of liquid products such as syrups, oils, chemicals, and many more. This product is designed to meet all the filling needs of your business or organization, making it a perfect fit for various scenarios.

Its unique feature is that it is fully automatic, which means it reduces manual labor and saves time. The filling process is efficient and fast, ensuring that your production line runs smoothly and increases productivity.

This filling machine comes with a 1-year warranty, giving you peace of mind that you are investing in a high-quality product that will provide you with long-term benefits. The voltage range for this product is between 220V and 380V, making it compatible with any standard power source.

In conclusion, the IBC fully automatic open-fill-top filling machine is the perfect solution for any business that requires an intermediate bulk container filling system. Its advanced features, user-friendliness, and high accuracy make it an ideal choice for various applications, whether in the pharmaceutical, chemical, food, or cosmetic industries. Invest in this product today and enjoy seamless and efficient filling processes.

Customization:

Equipment of different specifications can be customized according to customer needs

Support and Services:

The IBC filling machine is designed to efficiently and accurately fill intermediate bulk containers with various liquids, including chemicals, oils, and food products. Our technical support and services team is available to assist with installation, training, and ongoing maintenance to ensure optimal performance of the machine. We offer comprehensive training programs for operators and maintenance personnel to ensure safe and efficient operation of the machine. Additionally, our team can provide troubleshooting support and spare parts to minimize downtime and maintain productivity. Contact us for more information on our technical support and services for the IBC filling machine.

WHY CHOOSE US

We are a professional coating filling machine manufacturer.

The company has set up a product research and development center.

We guarantee the high quality of our products.

The company has professional and technical personnel to solve your problems.

MAIN PRODUCTS

FAQ:

Q: What is the brand name of this filling machine?

A: The brand name of this filling machine is IBC fully automatic open-fill-top filling machine.

Q: What type of containers can be filled using this machine?

A: This machine is designed to fill IBC (Intermediate Bulk Container) tanks with various types of liquids.

Q: What is the capacity of this machine?

A: The capacity of this machine is up to 1000 liters per fill.

Q: Is this machine easy to operate?

A: Yes, this machine is fully automatic and easy to operate with a touch screen panel and user-friendly interface.

Q: What is the accuracy of the filling process?

A: This machine has a high level of accuracy with a deviation of less than 0.5% from the target fill weight.
