

8-25pcs/Min 5L Water Based Paint Filling Machines For Chemical Liquid Automatic Filling And Capping Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT
- Supply Ability: 1set/week

Product Specification

- Features: Fully Automatic, High Efficiency, Easy Operation
- Product Name: 8-25pcs/Min 5L Water Based Paint Filling Machines For Chemical Liquid Automatic Filling And Capping Machine
- Application: Liquid, Paste, Cream, Oil, Etc.
- Capacity: 1000-5000 Bottles/hour
- Filling Accuracy: $\pm 1\%$
- Model: FACM-01
- Material: Stainless Steel
- Capping Speed: 30-50 Bottles/minute
- Highlight: **fully automatic filling and capping machine, stainless steel filling and capping machine, fully automatic filling and packaging machine**

Product Description

8-25pcs/Min 5L Water Based Paint Filling Machines For Chemical Liquid Automatic Filling And Capping Machine

Product Description:

The FC-2000 model is designed with advanced technology to ensure that your products are accurately filled and capped, making it ideal for use in industries such as pharmaceuticals, cosmetics, and food processing. This machine is easy to operate, which makes it the perfect choice for both small and large manufacturing companies.

The air consumption rate of the Fully Automatic Filling and Capping Machine is 0.5m³/min, which makes it an energy-efficient machine to use. It also operates at an air pressure of 0.6-0.8MPa, which ensures that the machine performs optimally without any hitches.

The filling process of the Fully Automatic Filling and Capping Machine is done using the piston filling method. This method ensures that the filling is accurate and consistent, which is crucial in maintaining the quality of your product. The capping process is done automatically, which saves time and ensures that the process is efficient.

The Fully Automatic Filling and Capping Machine is also designed with a blowing filling capping machine that ensures that all your products are filled and capped in a sterile environment. This machine is perfect for use in the pharmaceutical industry, where hygiene and safety are paramount.

Overall, the Fully Automatic Filling and Capping Machine is a top-of-the-line machine that is designed to meet the needs of every manufacturer. Its advanced technology, accuracy, and efficiency make it the perfect choice for anyone looking to streamline their filling and capping process. If you're looking for an Automatic Tube Filling and Sealing Machine or a Blowing Filling Capping Machine, the Fully Automatic Filling and Capping Machine is the perfect fit for you.

Applications:

This filling and capping machine is perfect for anyone looking for a reliable and efficient solution to their filling and capping needs. It is an automatic liquid bottle filling machine that can fill volumes ranging from 50-1000ml. This makes it perfect for filling a wide range of products such as juice, water, oil, and other liquid products.

The 200L IBC fully automatic multi-functional opening, filling and capping production line is a blowing filling capping machine that is made of high-quality stainless steel. It is durable and can withstand the rigors of daily use. Its power supply is 220V/380V, 50Hz/60Hz, making it suitable for use in different countries.

The model of this filling and capping machine is FC-2000, and it is designed to cap diameters ranging from 20-50mm. This makes it perfect for use in a wide range of industries such as food and beverage, pharmaceutical, and cosmetic industries.

Overall, the 200L IBC fully automatic multi-functional opening, filling and capping production line is the perfect solution for anyone looking for a reliable, efficient, and high-quality filling and capping machine. With its versatility and durability, it is suitable for use in a wide range of applications and industries. Its payment terms are TT, making it easy for anyone to purchase and own this amazing product.

Technical Parameters:

Filling Quantity	≤40kg	Barrel Specification	≤ diameter 300* height 400mm
Filling Index Value	1g, 2g,5g,10g	Filling Speed	8-25pcs/Min
Power	AC380/220 50HZ	Air Supply	0.6 MPa
Weight(kg)	800	Overall Dimension (mm)	2500*1100*2200

Customization:

Brand Name: 8-25pcs/Min 5L Water Based Paint Filling Machines For Chemical Liquid Automatic Filling And Capping Machine

Certification: CE

Minimum Order Quantity: 1

Packaging Details: wooden box

Payment Terms: TT

Capacity: 2000 Bottles Per Hour

Material: Stainless Steel

Filling Type: Piston Filling

Model: FC-2000

Power Supply: 220V/380V, 50Hz/60Hz

Our product customization services can help you create the perfect Automatic Liquid Filling Machine, Automatic Tube Filling And Sealing Machine, or Automatic Liquid Bottle Filling Machine to meet your specific needs.

Support and Services:

Our fully automatic filling and capping machine product comes with comprehensive technical support and services to ensure optimal performance and longevity of the equipment.

Our team of experienced technicians are available to provide on-site installation, training and maintenance support. We also offer remote technical support and troubleshooting services to quickly resolve any issues that may arise.

In addition, we provide regular equipment upgrades and spare parts replacement services to keep your machine up-to-date and running smoothly.

Rest assured that with our technical support and services, you can maximize the efficiency and productivity of your filling and capping operations.

Packing and Shipping:

PACKING&SHIPPING

FAQ:

Q: Is this machine certified?

A: Yes, this machine is certified with CE.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1.

Q: How is this product packaged?

A: This product is packaged in a wooden box.

Q: What are the payment terms for this product?

A: The payment terms for this product are TT (Telegraphic Transfer).
