Stainless Steel 4-12 Head Capping Machine For Bottles With Good Looking Appearance

Our Product Introduction

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: Stainless Steel 4-12 Head Capping Machine For Bottles With Good Looking Appearance
- Meterial: Stainless Steel
- Bottle Height: 50-300mm
- Power Supply: 220V/50Hz
- Capping Heads: 4 Heads /8 Heads/12 Heads
- Appearance: Good-looking
- Capping Speed: 700.~1000pcs
- Head: 2~24
- Highlight: **Stainless Steel liquid capping machine**, **4 Head liquid capping machine**, **12 Head water bottle filling and capping machine**

Product Description

Stainless Steel 4-12 Head Capping Machine for Bottles with Good looking Appearance

Product Description:

This Screw Cap Machine is perfect for industries that require frequent capping of bottles, including food and beverage, pharmaceutical, and cosmetic industries. The machine can cap bottles with a height ranging from 50mm to 300mm, making it versatile enough to accommodate different bottle sizes.
One of the best features of the Bottle Capping Machine is its durability. It is built with high-quality materials that ensure longevity and reliability. Additionally, the machine comes with a 1-year warranty, giving you peace of mind that your investment is protected.
The Bottle Capping Machine is easy to maintain, with minimal upkeep required. It is designed to withstand the wear and tear of daily use and can operate for hours without overheating. The semi-automatic operation allows for efficient capping, and the machine can be easily adjusted to fit the specific needs of your production line.
In conclusion, the Bottle Capping Machine is a reliable and efficient cap sealing equipment that can handle plastic or glass bottles with screw caps. With its durable construction, semi-automatic operation, and adjustable capping heads, it is perfect for industries that require frequent capping of bottles. The machine comes with a 1-year warranty, making it a safe investment for any business.

Technical Parameters:

Parameter	Value
Head	2~24
Warranty	1 Year
Bottle Height	50-300mm
Material	Stainless Steel
Capping Heads	4 Heads /8 Heads/12 Heads
Usage	Plastic Or Glass Bottle Capping
Appearance	Good-looking
Voltage	AC 380V,50Hz
Power Supply	220V/50Hz
Manual	English Version

Applications:

One of the key advantages of the Servo Tracking Capping Machine is its flexibility. With a power supply of 220V/50Hz and a voltage of AC 380V, 50Hz, this machine can be used in a variety of settings and locations. Additionally, the machine's head can be adjusted to accommodate between 2 and 24 caps, making it suitable for both small and large production runs.
The Servo Tracking Capping Machine is constructed from durable and hygienic stainless steel, making it easy to clean and maintain. The

machine is also equipped with an English language manual, ensuring that users can operate it with confidence and ease.
The versatility of the Servo Tracking Capping Machine makes it suitable for a wide range of product application occasions and scenarios. For example, this machine is ideal for use in the food and beverage industry, where it can be used to cap jars of sauces, jams, and other condiments. Additionally, the machine can be used in the pharmaceutical industry to cap bottles of medications or in the cosmetic industry to cap bottles of creams or lotions.
Some specific scenarios where the Servo Tracking Capping Machine excels include:

Jar Capper Machine: This machine is particularly well-suited for capping jars of various sizes and shapes, making it an excellent choice for use in the food industry.

Rotary Capping Device: The Servo Tracking Capping Machine's rotary capping device ensures that caps are applied smoothly and accurately, making it a reliable choice for high-volume production runs.

Flip-Off Capping Unit: For applications that require flip-off caps, the Servo Tracking Capping Machine's flip-off capping unit provides precise and consistent capping.

Overall, the Servo Tracking Capping Machine is a versatile, reliable, and efficient capping solution that can be used in a wide range of product application occasions and scenarios. Its flexibility, durability, and precision make it an excellent choice for businesses of all sizes and industries.

Customization:

Servo tracking capping machine, is made of high-quality stainless steel material, ensuring durability and longevity. It is designed to cater to a bottle height range of **50-300mm** . With the power supply of **220V/50Hz** , it is a reliable and efficient **Bottle Capping Machine** .

The machine comes with a head count of **2~24** , making it a versatile option for your production line. It is a **Jar Capper Machine** , and also works as a **Screw Cap Machine** , providing flexibility in capping applications.
In addition to its functionality, this capping machine is also **good-looking** in appearance, which adds to the aesthetic of your production line.

Support and Services:

Our capping machine product comes with comprehensive technical support and services to ensure its optimal performance and longevity. Our technical support team is available to answer any questions and provide assistance with installation, setup, and troubleshooting. We also offer ongoing maintenance services to keep your capping machine running smoothly.
In addition, we provide training services for your staff to ensure they are proficient in operating the machine and can maximize its capabilities. We can also offer customization services to tailor the capping machine to your specific needs.
Our goal is to provide top-notch technical support and services to ensure your complete satisfaction with our capping machine product.

Packing and Shipping:

Product Packaging:
Dimensions: 50cm x 40cm x 60cm
Weight: 25kg
Materials: Cardboard box, foam padding
Shipping:
Shipping method: Ground shipping
Shipping carrier: UPS
Estimated shipping time: 3-5 business days
Shipping cost: Calculated at checkout

FAQ:

Q: What is the brand name of this capping machine?
A: The brand name of this capping machine is Servo tracking capping machine.
Q: What type of bottles can this capping machine handle?
A: This capping machine can handle various types of bottles, including plastic, glass, and metal bottles.
Q: What is the speed of this capping machine?
A: The speed of this capping machine can be adjusted according to the needs of the user, typically ranging from 30 to 120 bottles per minute.
Q: Is this capping machine easy to operate?
A: Yes, this capping machine is designed to be user-friendly and easy to operate. It comes with a touch screen interface that allows users to control the machine with ease.
Q: What is the warranty for this capping machine?
A: Please refer to the warranty information provided by the manufacturer for details on the warranty for this product.
