Stainless Steel 5-100ml Bottle Fill Capping Machine 20-40 Bottles/Min Capper

Our Product Introduction

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: T/T, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: Stainless Steel 5-100ml Bottle Fill Capping Machine 20-40 Bottles/min Capper
- Filling Accuracy: ±1%
- Air Consumption: 0.1m³/min
- Capping Method: Semi-automatic
- Power Supply: 220V/50Hz
- Material: Stainless Steel
- Filling Method: Semi-automatic
- Capping Speed: 20-40 Bottles/min
- Highlight: **semi automatic filling and capping machine**, **semi automatic filling and capping machine 20Bottles per min** , **40Bottles per min Bottle Fill Capping Machine**

Product Description

Stainless Steel 5-100ml Bottle Fill Capping Machine 20-40 Bottles/min Capper

Product Description:

Our semi-automatic filling and capping machine is designed to make your production process faster and more efficient. With its semi-automatic filling method, you can easily fill bottles with your desired products and move on to the capping process. This machine is perfect for small to medium-scale operations.
The capping speed of our semi-automatic filling and capping machine is 20-40 bottles per minute, making it a reliable and time-saving choice for your production needs. You can easily adjust the speed of the machine to meet your specific requirements.
This machine requires a power supply of 220V/50Hz, making it easy to integrate into your existing production line. It also requires an air pressure of 0.4-0.6MPa for optimal performance.
Our semi-automatic filling and capping machine is a perfect choice for those who are looking for an affordable and reliable alternative to fully automatic filling machines. It is easy to use and requires minimum maintenance, making it an ideal choice for start-ups and small businesses.
If you are looking for a filling machine that can help you increase your production efficiency and reduce labor costs, our semi-automatic filling and capping machine is the perfect solution. It is also a great choice for those who are looking to upgrade their existing production line.
Investing in our semi-automatic filling and capping machine will help you save time, money, and energy. With its reliable performance and efficient design, you can be sure that your production process will run smoothly and efficiently.
Upgrade your production line today with our reliable and affordable semi-automatic filling and capping machine. Order now and experience the convenience and efficiency that our machine can offer.

Technical Parameters:

Air Consumption:	0.1m³/min
Filling Accuracy:	±1%
Material:	Stainless Steel
Capping Method:	Semi-automatic
Filling Method:	Semi-automatic
Air Pressure:	0.4-0.6MPa
Capping Speed:	20-40 Bottles/min
Filling Volume:	5-100ml
Power Supply:	220V/50Hz

Applications:

The machine is made of high-quality stainless steel, ensuring its durability and resistance to wear and tear. It is designed to accurately fill cans with a filling accuracy of ±1%, making it suitable for a wide range of applications. The filling volume of this machine ranges from 5-100ml, which is perfect for businesses that require precise filling quantities.
The capping speed of this machine is between 20-40 bottles per minute, which means that it can handle high-volume production runs with ease. The capping method is semi-automatic, which makes it easy to use and maintain. This machine is perfect for businesses that require a reliable and low-maintenance filling machine.
The 20L semi-automatic capping filling machine is suitable for a wide range of product application occasions and scenarios. It can be used for filling and capping a variety of products, including food, beverages, cosmetics, and pharmaceuticals. It is an ideal solution for businesses that require precise and efficient filling and capping of their products.
Some of the application scenarios for this machine include filling and capping of drinks, such as juices, energy drinks, and soft drinks. It

can also be used for filling and capping of sauces, such as ketchup, mayonnaise, and salad dressings. Additionally, this machine is suitable for filling and capping of cosmetics, such as lotions, creams, and shampoos. Finally, it is also ideal for filling and capping of pharmaceutical products, such as syrups, antibiotics, and vitamins.

Customization:

Product Customization Services for:
Stainless Steel 5-100ml Bottle Fill Capping Machine 20-40 Bottles/min Capper
Certification: CE
Minimum Order Quantity: 1
Filling Volume: 5-100ml
Filling Accuracy: ±1%
Air Pressure: 0.4-0.6MPa
Filling Method: Semi-automatic
Capping Method: Semi-automatic
Our semi-automatic capping and filling machine is perfect for your can filling needs. With its versatile filling volume range of 5-100ml and ±1% filling accuracy, you can be sure that your products are filled correctly every time. It is also CE certified, ensuring its quality and safety. You can customize your order according to your preferences with a minimum order quantity of 1. Experience the convenience of semi-automatic filling and capping with our machine.

Support and Services:

Our semi-automatic filling and capping machine is built to provide reliable and efficient performance for your production needs. Our technical support team is available to assist with any questions or concerns you may have regarding the installation, operation, or maintenance of your machine.
In addition to technical support, we also offer a range of services to ensure your machine operates at its best. This includes regular maintenance and calibration to optimize performance and reduce downtime. We also provide training to your operators to ensure they are familiar with the machine and can operate it safely and effectively.
Our goal is to provide comprehensive support and services to ensure your production line runs smoothly and efficiently. Contact us today to learn more about our technical support and services for our semi-automatic filling and capping machine.

Packing and Shipping:

Product Packaging:
Semi-automatic filling and capping machine
Instruction manual
Tools for assembly and maintenance
Shipping:
Ships within 1-3 business days
Free standard shipping in the United States
International shipping available for an additional fee
Tracking number provided once item has shipped

FAQ:

Q: What is the brand name of the filling and capping machine?
A: The brand name of the machine is Stainless Steel 5-100ml Bottle Fill Capping Machine 20-40 Bottles/min Capper
Q: Is the machine certified?
A: Yes, the machine is certified with CE certification.
Q: What is the minimum order quantity for the machine?
A: The minimum order quantity for the machine is 1.
Q: Does the machine require any special training to operate?
A: No, the machine is easy to operate and does not require any special training.
Q: Is the machine suitable for filling and capping all types of liquids?
A: Yes, the machine is suitable for filling and capping all types of liquids such as water, juice, oil, etc.
