PLC Controlled Automatic Liquid Packaging Machine Automatic Filling Machine For Liquid 5L Barrel

Our Product Introduction

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: PLC Controlled Volumetric Liquid Up Filling Machinery For 5L Barrel Products Liquid Filling Machine
- Air Pressure: 0.4-0.6MPa
- Filling Nozzles: 4/6/8/12
- Control System: PLC
- Suitable For: Liquid Products
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Power Supply: 220V/50Hz
- Product: 5L Barrel Liquid Filling And Capping Machine
- Highlight: **controlled automatic liquid packaging machine**, **automatic filling machine for liquid 5l**,

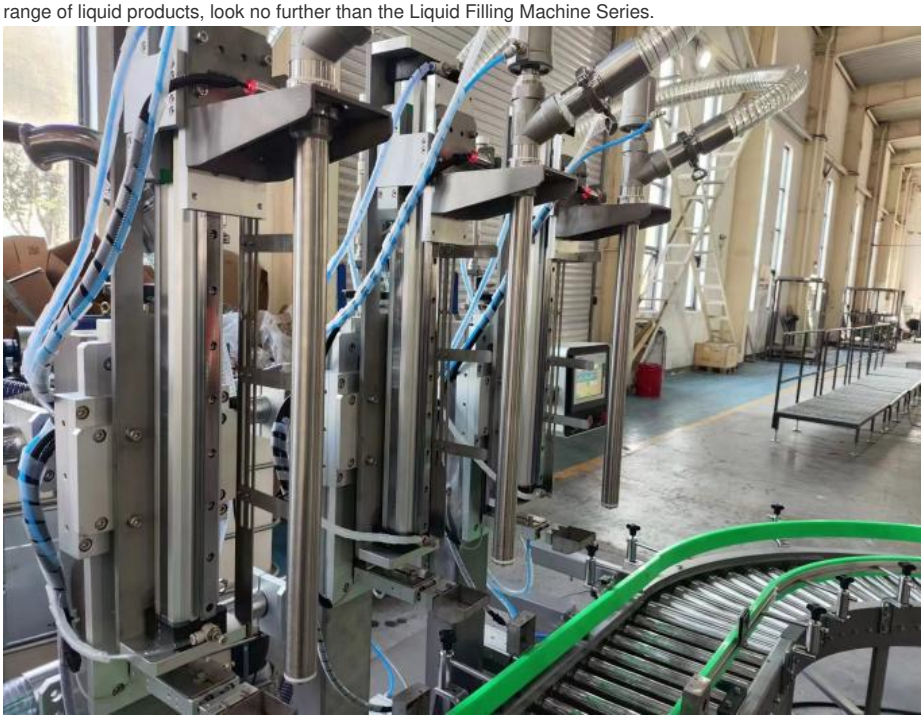
Product Description

PLC Controlled Volumetric Liquid Up Filling Machinery For 5L Barrel Products Liquid Filling Machine

Product Description:

One of the standout features of the Liquid Filling Machine Series is its high level of accuracy. This is particularly important for industries such as the chemical and paint industries, where precise measurements are crucial. This machine is specifically designed for water-based paint volumetric liquid filling, making it an ideal choice for businesses in this sector.
In addition to its accuracy, the Liquid Filling Machine Series is also incredibly versatile. It can handle a variety of liquid products, making it a valuable addition to any production line. The pouring and capping systems are designed to work seamlessly together, ensuring a smooth and efficient process from start to finish.
Whether you are looking to fill 5L barrels or larger containers, this liquid up-filling machinery can handle the job with ease. Its advanced technology ensures that each container is filled to the exact level required, eliminating waste and reducing costs.
In conclusion, the Liquid Filling Machine Series is an excellent choice for businesses in a variety of industries. Its precision, versatility, and efficiency make it a valuable addition to any production line. If you are looking for a hydraulic liquid filling machine that can handle a range of liquid products, look no further than the Liquid Filling Machine Series.



Applications:

The Liquid Filling And Capping Machine is a CE certified product that is perfect for filling liquid products with great accuracy. This liquid up-filling machinery is designed for filling 5L barrel containers with water-based paint and other chemical liquids. The volumetric liquid filling machine ensures that the filling accuracy is maintained at all times.
The Liquid Filling And Capping Machine is suitable for use in various industries. It is perfect for filling containers in the chemical, pharmaceutical, cosmetic, and food industries. The machine is designed to be versatile and can be used to fill various types of liquid products.
The pouring and capping systems of the Liquid Filling And Capping Machine ensure that the filling process is quick and efficient. The machine has an air pressure of 0.4-0.6MPa and requires a power supply of 220V/50Hz. The machine is easy to operate and can be operated by a single person.
The minimum order quantity for the Liquid Filling And Capping Machine is one. The machine is packed in a wooden box for safe transportation. Payment terms for the machine are TT.
The Liquid Filling And Capping Machine is perfect for use in various occasions and scenarios. It is perfect for filling containers in factories, manufacturing plants, and warehouses. The machine is designed to be durable and long-lasting, ensuring that it can withstand the demands of a busy production line.
If you are looking for a reliable and efficient liquid filling machine, then the Liquid Filling And Capping Machine is the perfect choice for you. It is designed to be versatile, accurate, and efficient, making it the ideal machine for your filling needs.

Customization:

Our Liquid Filling And Capping Machine series is capable of handling a range of liquids and offers high accuracy with filling volumes. This series includes hydraulic liquid filling machines, liquid up-filling machinery, and chemical liquid filling machines for water-based paint. The control system is PLC, and the air pressure required is 0.4-0.6MPa.
The weight of our Liquid Filling And Capping Machine is 2000kg. We are committed to providing customized solutions to meet your unique liquid filling needs.

Support and Services:

The Liquid Filling Machine Series is designed to meet the diverse requirements of liquid filling applications in various industries. Our machines are equipped with advanced technology and features that ensure accurate filling, low maintenance, and high productivity.
We provide comprehensive technical support and services to our customers to ensure smooth and efficient operation of the machines. Our team of experts is available to answer any questions, provide guidance on machine setup and operation, and troubleshoot any issues that may arise.
In addition to technical support, we offer a range of services to our customers, including installation, training, and maintenance. Our installation services ensure that the machines are set up correctly and ready for use. Our training services provide operators with the knowledge and skills necessary to operate the machines safely and efficiently. Our maintenance services help to keep the machines in top condition, reducing the risk of downtime and maximizing productivity.

Packing and Shipping:

Product Packaging:
The liquid filling machine series product will be packed in a sturdy cardboard box to ensure safe transportation.
The machine will be wrapped in bubble wrap to prevent any damage during shipping.
All necessary accessories and user manuals will be included in the package.
Shipping:
The liquid filling machine series product will be shipped via a trusted courier service.
The shipping cost will be calculated based on the destination and the weight of the package.
Customers will receive a tracking number once the package is dispatched.
Delivery times may vary depending on the destination and shipping method chosen.

FAQ:

A: The brand name is Liquid Filling And Capping Machine.
Q: Is this product certified?
A: Yes, this product is CE certified.
Q: What is the minimum order quantity for this product?
A: The minimum order quantity is 1.
Q: How is this product packaged?
A: This product is packaged in a wooden box.
Q: What are the payment terms for this product?
A: The payment terms for this product are TT.
