

Stainless Steel Semi Automatic Filling Machine Bottle Capping At 20-40pcs/Min With 0.1m³/Min Air

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: Stainless Steel Semi Automatic Filling Machine Bottle Capping At 20-40 Bottles/min With 0.1m³/min Air
- Capping Speed: 20-40 Bottles/min
- Material: Stainless Steel
- Capping Method: Semi-automatic
- Air Consumption: 0.1m³/min
- Filling Method: Semi-automatic
- Power Supply: 220V/50Hz
- Air Pressure: 0.4-0.6MPa
- Highlight: **Stainless Steel semi automatic filling and capping**
, semi automatic filling and capping 40pcs/min,
Filling Machine Bottle Capping 20pcs/min

Product Description

Stainless Steel Semi Automatic Filling Machine Bottle Capping at 20-40 Bottles/min with 0.1m³/min Air

Product Description:

The Filling Machine has a filling volume range of 5-100ml, making it ideal for filling small bottles. The Semi-automatic Filling Method ensures that the filling process is precise and consistent, resulting in high-quality products every time. The machine is easy to operate, and its compact design makes it suitable for use in small spaces.

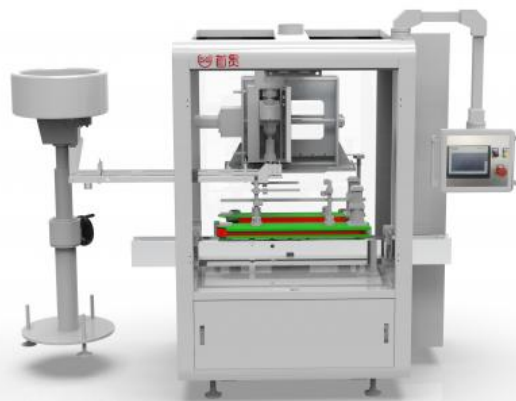

The Automatic Filling And Packing Machine has a capping speed of 20-40 bottles per minute, which is ideal for small to medium scale production lines. The capping process is efficient, with a high success rate, ensuring that the bottles are securely sealed. This feature is particularly important in the pharmaceutical industry, where product safety is of utmost importance.

The Semi Automatic Filling And Capping Machine has a power supply of 220V/50Hz, which is suitable for use in most countries. The machine has low power consumption, making it energy-efficient and cost-effective. Additionally, the machine has a low air consumption rate of 0.1m³/min, which minimizes the cost of operation.

The Automatic Liquid Filling Machine is made of high-quality materials, ensuring its durability and longevity. The machine is easy to clean and maintain, saving time and reducing downtime. Its compact design makes it easy to move and store, further increasing its versatility. In summary, the Semi Automatic Filling And Capping Machine is a reliable and efficient machine that is perfect for small to medium scale production lines. Its Semi-automatic Filling Method ensures precision and consistency, while its capping speed of 20-40 bottles per minute ensures efficiency. Its low power and air consumption rates make it energy-efficient and cost-effective. The machine's durability, ease of operation, and maintenance make it a reliable investment for businesses in the pharmaceutical, chemical, and food industries.

Technical Parameters:

| | |
|------------------|------------------------|
| Filling Accuracy | ±1% |
| Filling Volume | 5-100ml |
| Air Consumption | 0.1m ³ /min |
| Air Pressure | 0.4-0.6MPa |
| Filling Method | Semi-automatic |
| Power Supply | 220V/50Hz |
| Capping Method | Semi-automatic |
| Material | Stainless Steel |
| Capping Speed | 20-40 Bottles/min |

Applications:

The semi-automatic filling method of this machine makes it easy to use, with minimal training required. With a minimum order quantity of just 1, it is accessible to all types of businesses, regardless of their size.

The 20L semi-automatic capping filling machine is ideal for filling and capping a wide range of liquids, such as oils, perfumes, and other liquids with a filling volume of 5-100ml. This product is perfect for applications that require a consistent and precise amount of liquid to be filled and capped.

This machine is also an ideal solution for businesses that require a reliable and efficient capping machine. With a capping speed of 20-40 bottles/min and a semi-automatic capping method, this machine is perfect for businesses that require consistent and efficient capping of their products.

The 20L semi-automatic capping filling machine is also designed to be energy-efficient, with an air consumption of only 0.1m³/min. This makes it a cost-effective solution for businesses that are looking to save money on their operational costs.

Overall, this machine is an excellent choice for businesses that require a reliable and efficient automatic filling and packing machine. It

offers a semi-automatic filling method, which makes it easy to use, and it is designed to be energy-efficient, which makes it a cost-effective solution for businesses of all sizes.

Customization:

Customize your 20L semi-automatic filling capping machine with the following services:

- CE certification to ensure quality and safety standards are met
 - Filling accuracy of $\pm 1\%$ for precise and consistent filling
 - Semi-automatic capping method for efficient and reliable sealing
 - Semi-automatic filling method for easy operation
 - Air consumption of $0.1\text{m}^3/\text{min}$ for cost-effective usage
 - Air pressure range of $0.4\text{-}0.6\text{MPa}$ for optimal performance
 - Minimum order quantity of 1 to suit your specific needs
- Maximize the potential of your filling capping machine with our customization services.

Support and Services:

The Semi Automatic Filling And Capping Machine is a versatile and reliable solution for filling and capping various types of liquids and semi-viscous products. It is equipped with a user-friendly interface and allows for easy adjustment of filling volumes and capping parameters. Our technical support team is available to provide assistance with installation, setup, and troubleshooting to ensure that the machine operates at optimal performance. We also offer regular maintenance and repair services to keep the machine running smoothly for years to come.

Packing and Shipping:

Product Name: Semi Automatic Filling and Capping Machine

Product Description: The Semi Automatic Filling and Capping Machine is a versatile and efficient machine for filling and capping various types of containers. It is easy to operate and can be used for a variety of applications, such as filling and capping bottles, jars, and tubes.

Package Includes: The Semi Automatic Filling and Capping Machine comes with all necessary components for operation, including a filling nozzle, capping head, control panel, and user manual.

Shipping: The Semi Automatic Filling and Capping Machine will be shipped within 3-5 business days of purchase. Shipping is available worldwide and will be provided by our trusted shipping partners. Shipping times may vary depending on the destination.

FAQ:

A: The brand name of this machine is **semi-automatic capping filling machine** .

2. Q: Is this machine certified?

A: Yes, this machine is certified with **CE certification** .

3. Q: What is the minimum order quantity for this machine?

A: The minimum order quantity for this machine is **1** .

4. Q: Can this machine fill and cap different types of containers?

A: Yes, this machine has adjustable filling and capping heads that can accommodate different types of containers.

5. Q: Is there a warranty for this machine?

A: This Q&A excludes any warranty-related content.
