

Automatic Aluminum Capping And Bottling Machine 5-100ml Fill Volume 40 Bottle/Min Rate

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Brand Name: 20L semi-automatic capping filling machine
- Certification: CE
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

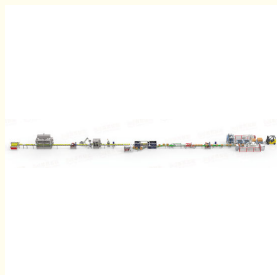

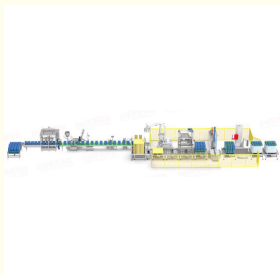

Product Specification

- Product Name: Automatic Aluminum Capping And Bottling Machine 5-100ml Fill Volume 40 Bottle/min Rate
- Filling Volume: 5-100ml
- Capping Speed: 20-40 Bottles/min
- Material: Stainless Steel
- Air Consumption: 0.1m³/min
- Power Supply: 220V/50Hz
- Air Pressure: 0.4-0.6MPa
- Capping Method: Semi-automatic
- Highlight: **Aluminum semi automatic filling and capping machine**

Product Description

Automatic Aluminum Capping And Bottling Machine 5-100ml Fill Volume 40 Bottle/min Rate

Product Description:

The Semi Automatic Filling And Capping Machine has an air consumption rate of 0.1m³/min, which makes it an energy-efficient option. The machine is designed to offer semi-automatic filling, which means that it requires minimal human intervention. The filling method is accurate and efficient, ensuring that the filling accuracy is $\pm 1\%$. This accuracy is essential in ensuring that the product is of high quality, and there is minimal wastage.

The Semi Automatic Filling And Capping Machine is suitable for use in different industries, including food and beverage, pharmaceuticals, and cosmetics. This machine is versatile and can be used to fill different types of liquids, including oils, syrups, and creams. The capping system is efficient, ensuring that the bottles are tightly sealed, which prevents spillage and wastage.

In conclusion, if you are looking for an efficient and reliable Semi Automatic Filling And Capping Machine, this product is an excellent option to consider. The machine's semi-automatic filling method, coupled with its high accuracy and capping speed, makes it ideal for use in different industries. Additionally, the machine's stainless steel material ensures that it is durable and easy to clean, making it a cost-effective option in the long run.

Technical Parameters:

Filling Capping Machine	Technical Parameters
Air Consumption	0.1m ³ /min
Filling Accuracy	$\pm 1\%$
Filling Method	Semi-automatic
Material	Stainless Steel
Air Pressure	0.4-0.6MPa
Capping Speed	20-40 Bottles/min
Filling Volume	5-100ml
Capping Method	Semi-automatic
Power Supply	220V/50Hz

Applications:

The semi-automatic filling machine is a versatile product that can be used in different industrial settings. It is suitable for filling different types of liquids and semi-liquids such as shampoo, oil, juice, and other similar products. The machine is designed to operate with a low air consumption rate of 0.1m³/min, which makes it an energy-efficient product.

The capping speed of this filling machine is impressive, with a range of 20-40 bottles per minute. This feature makes it ideal for industries with high production rates. Additionally, the filling accuracy of $\pm 1\%$ ensures that your products are accurately filled. The filling volume of 5-100ml makes it a precise and efficient machine to use.

The semi-automatic capping filling machine is designed to operate with an air pressure of 0.4-0.6MPa. The machine's size is perfect for small and medium-scale industries that require efficient filling machines. Its compact design makes it easy to use and maintain, and it is durable enough to withstand years of use.

This semi-automatic filling machine is suitable for many occasions and scenarios, including the pharmaceutical industry, chemical industry, cosmetic industry, and food industry. It can be used for filling and capping different types of products, including creams, lotions, oils, and syrups. Its versatility makes it an essential tool for any industry that requires automatic filling machines.

Customization:

Support and Services:

The Semi Automatic Filling and Capping Machine is a versatile and efficient solution for filling and capping a wide range of products. Equipped with advanced technology, this machine is designed to provide accurate filling and precise capping for consistent results. Our product technical support team is available to assist with any questions or concerns regarding the operation or maintenance of this machine. We offer a range of services to ensure your machine is running at optimal performance, including:

Installation and setup

Training for operators and maintenance personnel

Regular maintenance and inspections

Repairs and replacement parts

Our team of experienced technicians is committed to providing reliable and timely support to ensure that your machine is always running smoothly. Contact us today to learn more about our product technical support and services.

Packing and Shipping:

Product Packaging:

The Semi Automatic Filling And Capping Machine is securely packaged in a sturdy cardboard box.

All components are individually wrapped and protected to prevent damage during transit.

A user manual and all necessary tools for assembly are included in the package.

Shipping:

The product will be shipped via a reliable courier service.

Shipping times may vary depending on the destination.

A tracking number will be provided to the customer to track the shipping status.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is 20L semi-automatic capping filling machine.

Q: Is this product certified?

A: Yes, this product is certified with CE.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1.

Q: Is this product fully automatic?

A: No, this product is semi-automatic.

Q: What is the capacity of this filling machine?

A: This filling machine has a capacity of 20 liters.
