

200L Dual Station Automatic Automated Filling Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

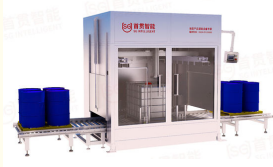

Product Specification

- Manual: English Version
- Power Supply: 220V/50Hz
- Head: 2~24
- Operation: Semi-automatic
- Color: White
- Capping Heads: 4 Heads /8 Heads/12 Heads
- Warranty: 1 Year
- Highlight: 200L Automated Filling Machine, 200L Automatic Filling Machine, Dual Station Automatic Filling Machine

Product Description

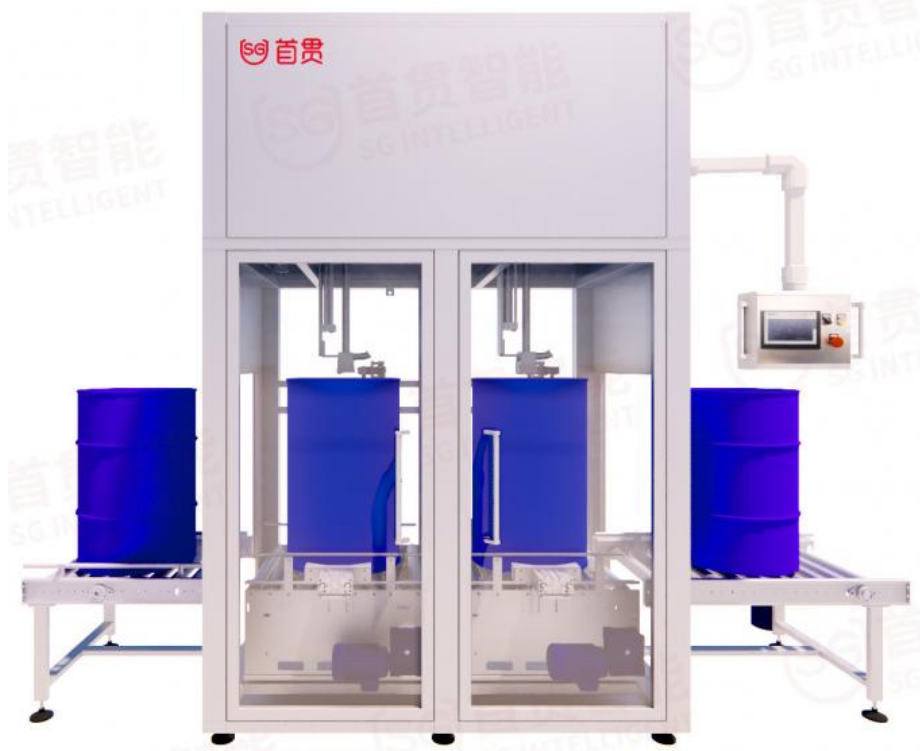

200L Dual Station Automatic Filling Machine Automated Filling Machine

Product Description:

The Automatic IBC Filling Machine is equipped with a Rotary Capping Device that can cap containers at speeds of 700 to 1000pcs per minute. This Screw Cap Machine is designed to handle a variety of screw caps with ease, making it perfect for use in a wide range of industries. The machine is made of high-quality Stainless Steel, which ensures that it is durable and long-lasting. The Automatic IBC Filling Machine is not only efficient, but it is also good-looking. Its appearance is sleek and modern, making it a great addition to any workspace. The machine is easy to operate and maintain, which makes it ideal for use in any production line. The machine comes with a 1-year warranty, which gives you peace of mind knowing that you are investing in a reliable and high-quality product.

Technical Parameters:

Attribute	Value
Appearance	Good-looking
Operation	Semi-automatic
Head	2~24
Material	Stainless Steel
Manual	English Version
Usage	Plastic Or Glass Bottle Capping
Capping Heads	4 Heads /8 Heads/12 Heads
Color	White
Warranty	1 Year
Power Supply	220V/50Hz
Capping Device	Rotary Capping Device, Flip-Off Capping Unit, Rotary Capping Device

Applications:

The servo tracking capping machine is perfect for companies operating in the food and beverage industry. It can be used for filling and

capping liquid products such as juices, milk, and syrups. It can also be used for filling and capping various sauces, oils, and other condiments.

Another industry that can benefit from the servo tracking capping machine is the pharmaceutical industry. The machine can be used for filling and capping various liquid medications and supplements. Its high-precision filling system ensures accurate dosages and minimizes wastage.

The servo tracking capping machine is also ideal for companies in the cosmetic industry. It can be used for filling and capping different types of creams, lotions, and other beauty products. The machine's semi-automatic operation allows for easy and efficient production. Additionally, the servo tracking capping machine is perfect for companies in the chemical industry. It can be used for filling and capping different types of chemicals, including acids, bases, and solvents. Its high-quality stainless steel material ensures that it can withstand exposure to different types of chemicals.

This machine also comes with a screw cap machine and a lid tightening machine, making it perfect for companies that require both functions. The screw cap machine ensures that the caps are placed correctly on the bottles, while the lid tightening machine ensures that the caps are securely tightened.

Finally, the servo tracking capping machine comes with a one-year warranty, giving customers peace of mind. Its power supply of 220V/50Hz ensures that it can be used in different countries and regions.

Customization:

You can choose the number of capping heads that meet your requirements. We offer 4 heads, 8 heads, or 12 heads. Additionally, we provide an English version of the manual to ensure easy operation.

Our customization services include the incorporation of Flip-Off Capping Unit and Screw Cap Machine to make the Cap Sealing Equipment more efficient and versatile.

Support and Services:

The Automatic IBC Filling Machine is a complex piece of equipment that requires technical expertise to operate and maintain. Our team of experienced technicians is available to provide product technical support and services to ensure optimal performance and longevity of the machine.

We offer a range of services, including installation, training, troubleshooting, repair, and maintenance. Our technicians are highly knowledgeable about the product and can assist with any issues that may arise.

In addition to our technical support services, we also offer spare parts and upgrades to enhance the functionality and efficiency of the Automatic IBC Filling Machine. Our goal is to provide our customers with the best possible experience and ensure that their investment in our product is a sound and valuable one.

Packing and Shipping:

Product Packaging:

The Automatic IBC Filling Machine will be packed securely in a wooden crate to ensure safe transport.

All necessary parts and accessories will be included in the package.

The packaging will be labeled with the product name, specifications, and handling instructions.

Shipping:

The Automatic IBC Filling Machine will be shipped via a reputable shipping company.

The shipping cost will depend on the destination and mode of transport.

The customer will be provided with a tracking number to monitor the status of their shipment.

The estimated delivery time will be provided based on the destination and mode of transport.
